Schwerin Places Blame Upon the Panama Railway

IT HURT PACIFIC MAIL

Matters Went From Bad to Worse When the United Sta'es Took Charge--Secretary Taft Comes In For Some Criticism

Washington, Feb. 1.-R. P. Schwerin. the general manager of the Pacific Mail Steamship company, was before the senate committee on inter-oceanic canals. His attention was called to a statement made by Secretary Taft criticising the service between Panama and San Francisco for its part in contributing to the congestion of freight at Panama. In reply he said: "Secretary Taft's statement was

made either through malice tending to injure an American industry, o through ignorance of the causes of the difficulties of which he has com plained." He said that the Pacific Mail operates nine regular steamers on the Pacific coast. The schedules provide for connections with the steamers of the Panama Steamship company from New York by means of the railroad across the isthmus. The schedules require the companies to make connec tions and exchange freight. A description of the conditions on the

isthmus since the canal commission took charge of the Panama railway was given by Schwerin. He said that freight had accumulated on the wharves, all commercial shipments having been held up by the movement of canal materials, and the difficulty Schwerin asserted, was due to "culpable negligence on the part of the man aging officials of the Panama railroad and utter indifference to their obliga tions as a common carrier. "As soon as control of the road

passed to the United States," said Schwerin, "the conditions described began to grow worse. The railroad manasement cut the wages of men working on the docks, which caused a strike, and our labor followed. As a result we are both paying higher wages than we were before for the poorest labor in the world. It became the understanding that the United States had bought the railroad to build the cana and cared nothing for the commercial business across the isthmus. Commercial business was neglected and it was said by Secretary Taft, Mr. Wal lace, Admiral Walker, the former chairman of the committee, and others connected with the building of the canal that commerce was secondary to the movement of canal material. It was that indifference that brought

about the congestion. "It is shown just the same in ship ments by steamer from New York. A steamship may be loaded with commercial business and a rush order be re ceived for canal material. The commercial business would be removed and canal material substituted, but we would be notified of the shipment of the business destined for western ports and receive papers for the business The result is that we would receive bills of lading and manifests for goods that could not be found and our ships would be delayed for days. We found it impossible to segregate the shipments for particular loadings, all of which was due to the inefficiency of the officers of the Panama Railway com-

Mr. Schwerin said that lumber shipments from New York were held up so ong that there were bills for demurrage amounting to \$18,617 between Aug. 1 and Nov. 30, 1905, and the Panama railroad will have these to pay. He said that the Pacific Mail steamers were held up for longer periods and there was no way this company can enforce demurrage charges. He charged that the railroad company had further delayed the Pacific Mail Steamship The WEEKS-HILL Pharmacy company's ships by failure to furnish them with coal, as they are required to do under a contract, and that when complaint was made to Superintendent Hunt of the railroad, he said the fault lay with higher officials. Schwerin complained also that the Panama railroad had arbitrarily reduced rates from New York to ports on the Pacific coast, where the haul was divided between the Panama Steamship company and the Pacific Mail. He said he was informed that the reduction was a concession to the steel trust.

It was denied by Schwerin that his company had had a monopoly on the Pacific coast and he declared that there had been no money in the business be tween San Francisco and Panama. He complained of the criticisms of the company made by Taft and said that as a result the company had been held up to ridicule.

Senator Knox asked Schwerin if he had not smarted a little under the criticism of Taft and if that feeling had not cropped out in his testimony Schwerin replied he had thought it too bad to be held up to ridicule and disgrace by a high official of the United States, when every effort had been made to uphold the American flag in a business that had almost been driven off the sea. He denied that the Pacific Mail had any connection with a trans continental railroad and declared that Taft's statement that his company had trade a order to divert the better REAL ESTATE and INSURANCE, steamers to the coffee trade was "abso lutely false." He said that sailings had been missed because the Panama rail- Justice of the Peace. road had held up the ships at the isth-

VII-Gray escorts Betty home. She believes that he is Tom Vanrevel. The sudden arrival of Carewe interrupts an interview that is getting serious. VIII-Carewe upbraids Betty for her action at the ire. He denounces Vanrevel, and Betty tells him that he escorted her home. Her father declares that her escort was Gray. Carewe goes on a journey. Nelson, a negro servant, tells Betty that her father hates Tom because he is an abolitionist, yet hints at a personal cause involving Gray. IX-Mis. Tanberry, an elderly belle, becomes Betty's chaperon. Betty is serenaded, and Mrs. Tanberry recognizes Tom Vanrevel's voice in a song written by Gray for Fanchon. Betty thinks that the voice is Gray's for it is not that of ber incrovable. X-Tom asks Befty for the first to dances at Fanchon's party. She gives him one, supposing him to be Gray. (Continued from Last Issue.)

Another face helped her to shut out the recollection-that of the man who had come to mass to meet her yesterday morning and with whom she had taken a long walk afterward. He had shown her a quaint old English gardener who lived on the bank of the river, had bought her a bouquet, and she had helped him to select another to send to a sick friend. How beautiful the flowers were and how happy he had made the morning for her with his gavety. his lightness and his odd wisdom! Was it only yesterday? Her father's coming had made yesterday a fortnight

But the continuously pattering rain and the soft drip, drop from the roof, though as mournful as she chose to find them, began after awhile to weave their somnolent spells, and she slowly drifted from reveries of unhappy sorts into half dreams, in which she was still aware she was awake, yet slumber, heavy eyed, stirring from the curtains beside her with the small night breeze, breathed strange distortions upon familiar things, and drowsy impossibilities moved upon the surface of her thoughts. Her chin, resting upon her hand, sank gently until her head

almost lay upon her relaxed arms. "That is mine, Crailey Gray!" She sprang to her feet, immeasurably startled, one hand clutching the back of her chair, the other tremulously pressed to her cheek, convinced that her father had stooped over her and shouted the sentence in her ear. For it was his voice, and the house rang with the words. All the rooms, halls, and even the walls, still seemed murmurous with the sudden sound, like the tinkling of a bell after it has been struck. And yet-everything was quiet. She pressed her fingers to her forehead, trying to untangle the maze of

dreams which had evolved this shock for her, the sudden clamor in her father's voice of a name she hated and Company of Quincy for approval of an of new capital stock of the par value of hundred and fifty thousand collars led to it there remained only the conproperty, the Board will give a hearing to the parties in interest at its office, Room 145, State House, Boston, on Tuesday, the sixth day of February next, at ten-thirty o'clock in the forence. He was a man of great resource in off on a roof that is doomed by the all emergencies which required a quick tongue, but for the moment this was beyond him. He felt himself lost, toppling backward into an abyss, and the uselessness of his destruction made him physically sick. For he need not have been there; he had not wished to come; he had well counted the danger to himself, and this one time in his life had gone to the cupola room out of good nature. But Bareaud had been obstinate, and Crailey had come away alone, hoping that Jefferson might follow. And here he was, poor trapped rat, convicted and ruined because of a good action! At last he knew consistency to be a jewel and that a greedy boy should never give a crust; that a fool should stick to his folly, a villain to his deviltry and each hold his own; for the man who thrusts a good deed into a life of lies is wound about with perilous passes, and in his devious ways a thousand unexpected damnations spring.

and, at the very moment, several heavy, half suppressed voices broke into eager talk overhead.

The white hand that held the candle wavered, and the shadows glided in a huge, grotesque dance. Twice she esat the same moment motioning him back, for he had made a vague gesture toward her.

"I am not faint. Do you mean, away from up there?" She pointed to the cupola stairs.

"Have-have you seen my father?" The question came out of such a depth of incredulousness that it was more an articulation of the lips than a sound, but he caught it, and, with it, not hope, but the shadow of a shadow of hope, a hand waving from the far shore to the swimmer who has been down twice. Did she fear for his sake?"

groping blindly. "You did not come from that room?"

"How did you enter the house?" The draft through the hall was blowing upon him; the double doors upon the veranda had been left open for cool-"There," he said, pointing to

"Ah!" A sigh too like a gasp burst from Crailey. His head lifted a little, and his eyes were luminous with an eagerness that was almost anguish. He set his utmost will at work to collect himself and to think hard and fast.

"I came here resolved to take a man away, come what would!" he said. "I MAD BULL ASTRAY found the door open, went to the foot of that stairway, then I stopped. I remembered something. I turned and was going away when you opened the

"You remembered what?" The flicker of hope in his breast increased prodigiously, and the rush of it took the breath from his throat and choked him. Good God! Was she going to believe him?

"I remembered-you!" "What?" she said wonderingly.

Art returned with a splendid bound full pinioned, his beautiful and treacherous familiar who had deserted him at the crucial instant, but she made up for it now, folding him in protective wings and breathing through his spirit. In rapid and vehement whispers he poured out the words upon the girl in the doorway. "I have a friend, and I would lay

"But do you understand?" "Not yet, but I shall. Will you go? They might come-my father might come-at any moment."

"But"-"Do you want to drive me quite mad? Please go!" She laid a trembling, urgent hand upon his sleeve.

New York, Feb. 1 .- Mrs. Charles T. Yerkes, a widow of but a month and under the will of her husband begueathed \$7,500,000 and the magnificent Yerkes residence on Fifth avenue, has become a bride at 48, her new husband being Wilson Mizner, aged 29, of San Francisco, a mining expert and clubman. The wedding was in the Yerkes residence Tuesday night.

The wedding was kept secret until last night. Rev. Mr. Gillies said: "I was called upon at my home by a man who said he was Wilson Mizner, who was about to be married. He asked me to be in Mrs. Yerkes' home Tuesday night at 7:30 to perform the ceremony. I went to Mrs. Yerkes' home as re quested. The only witnesses of the ceremony were Mr. Brugere, Mr. Eastland and Mrs. Goodsell. As to the filing of the certificate of marriage, I shall certainly attend to that within 10 days prescribed by law and, in view of the publicity of the affair, I shall try to see that the certificate is filed by tomor-

### LONDON IDLERS IN VIRGINIA

Dearth of Negro Farm Labor Opens Way For Thousands.

The 30,000 of London's destitute people which are to be brought to Virginia for the purpose of working the farms of the state will not be colonized, according to Commissioner of Agriculture Koiner, who is at the head of the scheme, but will be distributed throughout the state wherever their services are neded by the farmers, says a special dispatch from Richmond, Va., to the St. Louis Post-Dispatch.

The farmers of Virginia heretofore have depended almost exclusively upon the negro labor, but this class of help has in recent years become both undesirable and hard to obtain. Many of the negroes will not work at all during the summer months, and many others are leaving the state for the coal mines of West Virginia and Pennsylvania.

It is only within the last few weeks that Commissioner Kolner's scheme has taken tangible shape. He says that immigration in Virginia must be encouraged or that agricultural pursuits must go to the wall for want of labor to work the farms.

A bill asking for an appropriation of \$10,000 will be offered at the approaching session of the legislature to employ agents to be sent not only into Great Britain, but also to Norway, Sweden and Germany, for the purpose of encouraging immigration to Virginia That bill is also the result of the efforts of Commissioner Koiner.

The commissioner believes that with the appropriation the plan he has formulated will bring at least 30,000 or 40,000 ablebodied men from the slums of London to the farms of Virginia. The agents to be sent abroad will select only the best laborers available. Where it is necessary the men will be given steamship and railway tickets, the cost of which will be collected from them after they have settled in Vir-

The commissioner proposes to establish a bureau in his department which will act as an employment agency be tween the farmers in need of hands and the immigrants.

Mr. Koiner has submitted his plans to the lord mayor of London and that official has written to P. A. S. Brine, British vice consul at Richmond, on the subject. Commissioner Koiner hopes to secure the co-operation of foreign officials in the work.

#### MEMORIAL TO DR. HARPER. Body of Chicago University President to Lie In a Chapel.

Plans to erect a memorial chapel in which will lie the body of Dr. William R. Harper, late president of Chlcago university, took definite form recently at an informal gathering attended by the faculty and alumni of the University of Chicago.

The chapel is to be on the campus at Ellis avenue, opposite Fifty-eighth street, and will accommodate 3,000 persons, says the Chicago Journal. One room is to be dedicated especially to Dr. Harper. In this room his body will be placed as soon as the structure is completed.

The memorial chapel is considered the most fitting monument that could be erected in memory of the university's late president. It was Dr. Harper's wish, expressed to Major H. A. Rust, that he be buried in or near the

None of us saw a chance to get in a shot while we were lining up, and once on the ground it was too late. He passed to the rear of us and removed our brary and will be kept for him till shooters and tossed them into the bushes. The driver was permitted to retain his seat. He had no treasure box, and the mails were not asked for

"Now, gentlemen," said Scar Face in his breezy way, "I shall pass in front of you with my hat, and you will drop in watches and purses. I put you on your honor. If I afterward discover that any one has held anything back it will be bad for him.'

One of the insiders was a Jew. He had a big roll, and skimming off about \$50 he handed the rest to the woman to take care of. After the contribution the bandit stopped in front of Mr. saacs and said:

"You are keeping something back.". "So help me gracious, I'm not." "Don't lie. Where is your roll?"

All this time Mrs. Bushrod had been quiet spectator, though she was boiling over with anger at the idea of our etting a single man rob the eight of us. She had to say something or burst, and, shaking the Jew's roll out of the window, she called out:

"Yes; here is his money, and I'd like to see you get it! I've also got some of my own, but you'll never get a dollar of it into your dirty fingers.'

Up to this time Scar Face had never cobbed a woman. If the widow had kept her tongue still she would have been treated with chivalry, but once started she let her temper run away with her. She gave the bandit a great tongue lashing, and a part of her renarks included us. He gave her five ninutes, seeming to be amused and yet resolved, and when she paused for breath he advanced to the coach, thrust the barrels of the gun through the window and within a foot of her

"But what can we do?" asked one, "Do? Do? Why, you cowards, you ean follow him up and capture him!" None of us saw it that way and took our places. The driver called to the woman to get in, but she turned on him

"Go on with your cowards! I'm going to follow that robber to the ends of the earth but what I get my money back!"

With that she headed straight into the scrub on the robber's trail, and after waiting for her five minutes and vainly calling to her to return the stage proceeded and reached Deadwood four lours late. When the story was told, the sheriff

took a posse and started for the scene, but before he reached it they met the widow walking along the road. She explained that she had followed the robber for a mile through the scrub and then came upon him in camp. She at once started in to give him "gowdy," and no doubt her other effort was discounted. # Surprised at Noon Day Game

There was something doing Thursday between 12 and 1 o'clock near the factory of the Tubular Rivet and Stud Co .. when a squad of police under Chief Burrell and Lieut. McKay swooped down upon a party of crap shooters. There was quite a crowd of men playing and watching the game and there was a grand scatter to get away.

A number of the party succeeded, but five fell into the hands of the police.

In the squad besides Chief Burrell and Lieut. McKay were Inspector Bradley, Officers Goodhue, Hinchon, Curtin and Kelliher.

The officers went from Quincy, on the 11.59 cur, and arriving near the scene they separate i, and formed a circle around the party, and then closed in. The alleged shooters captured were: Peter McPartland, Michael Gilliane, John Sullivan, John Silva and Patrick

None of the parties were locked up. Their names and addresses were taken and they were allowed to return to work with the promise made to appear in court in the morning.

According to complaints made, the crap shooting game has been going on every day for a long time and Chief Burrell is determined to break it up.

Some time ago a crowd of holiday crap shooters were raided and several hailed into court. This is evidently the popular form of gambling among certain people in the neighborhood.

from Harvard. Everybody named Adams or with an Adams in his name who gets into trouble or is arrested for vagrancy is a descendant of the "famous Adams family" of Massachusetts. Considering the comfortable circumstances of the living Massachusetts representatives of the House of Braintree, the number of unregistered members of it who are on the tramp is interesting. Possibly a list of actual living descendants of John and John Quincy will have to be pubished for the instruction and reproof of

the newspapers. But why are the two myths com bined, as in the Bridgeport case? Surely this is piling on the agony. The pauper scion of the Adamses with their money bags, as Wendell Phillips used to say, makes a strong enough melodramatic contrast. Why, then, must the Haivard graduate myth be

added? The origin of the despatch about Mr. Robinson will perhaps suggest to the cynical that Yale is taking a little humorous revenge on her dearest foe.

#### HUB PRINTERS' STRIKE

But Few Quit Work to Enforce Demand For Eight Hours

Boston, Feb. 2.-The long expected

strike of book and job printers declared by Typographical union No. 13, in accordance with the national movement for an eight-hour day, did not assume grave proportions. Of the 600 union book and job printers in this city, about 150 quit work to enforce the demand. It is explained by the union that one-half of the 600 journey men had no occasion to strike, as they are already working under union conditions. A large percentage of the remaining men, the union believes, remained at work in order to give their employers a final chance to accede to the demand without a contest. Most Braintree Observer and Reporter of these men, the union claims, will go out today.

As a result of the strike five of the 75 book and job printing shops are closed, while a score or more other concerns are affected. While the union officials say they are well satisfied with the results, officials of the Typothetae declare the strike to be a failure.

Money Lost by Slow Shipments

Boston, Feb. 2.—The loss of many thousands of dollars to Boston during the last few years, local business men declare, has been caused by the delays on the part of the railroads in delivering shipments in smaller cities and towns in southern New England and the central west, and a mass meeting of about 40 representatives of leading concerns around Boston was held yesterday afternoon in an effort to better conditions. Details of the Recent Mutiny at Vladivostok

REMOVAL OF COSSACKS

Only Condition Upon Which Mutineers Consented to Armed Truce--The Slain Men Accorded Full Military Honors

St. Petersburg, Feb. 2.—The reason for the obstinate and mysterious silence in the dispatches from Vladivostok with regard to the supposed termination of the mutiny, intimated in General Linevitch's laconic dispatch of Jan. 28, "the city is quiet; the mutinous sailors have been disarmed," is explained in a press dispatch from Vladivostok, the first dispatch to reveal the actual conditions in the fortress on the Pacific.

Instead of the mutiny being crushed, the restoration of order was due to a tacit armed truce, conditioned on the removal of the Cossacks from the city. Trouble is apt to flare out unless the czar favorably answers the petition for amnesty to all the mutineers if they voluntarily return to duty.

The funerals on Jan. 29 of 32 men shot down by machine gun detachments guarding the commandant's house on Jan. 23, were made the occasion of a great revolutionary demonstration, with which General Mistchenko made no effort to interfere. The interments were made with full military honors. The cannon on Tiger hill thundered a salute, while choirs composed of soldiers chanted dirges. Two immense processions, in which there were thousands of soldiers, sailors and civilians, carrying red flags and singing revolutionary songs, and headed by the regimental bands, escorted the bodies to the cemetery. The service was conducted by both Catholic and Orthodox priests and the coffins were covered with wreaths bearing such inscriptions as "To the eternal memory of the martyrs and to the eternal shame of their assassins.'

Eventually two fire engines were or dered to take up a position near the church so as to be able if necessary, to drench the crowd, which obstinately refused to move, the women showing the greatest determination, opening umbrellas for their protection and in the meantime chanting psalms.

Under a shower of broken chairs the officers broke down the railings, while the crowd rained heavy blows upor them. Then the firemen burst in the doors and the police and municipal guards entered the building where the congregation had erected barricades which had to be taken by assault, while men and women fainted. Then the commissioners proceeded to take the inventory, the Catholics outside singing canticles.

The energetic measures taken by the police had the effect of almost completely clearing the church, except at the altar, where a few of the congregation and some young priests stood defiantly brandishing sticks. These were allowed to remain.

The ejection of the remainder of the rowd resulted in the injuring of many persons on both sides, including 50 policemen and guards and a still higher During the struggle some of the

### FURTHER RIOTING

M li ant Catholics Object to Taking Inventories

#### CAYENNE PEPPER USED

"Defenders" Almost Blind the Police and Firemen--Paris Clergy Advise Congregations to Be Calm, but Without Avail

Paris, Feb. 3 .- As a net result & Friday's rioting, though the inventory was taken in but one church, that of St. Pierre Groscaillou, over 50 persons were seriously injured and a further considerable number slightly hurt. The latter included a number of police and firemen who were almost blinded with cayenne pepper. Fifty arrests were effected.

The storming of the building was greatly protracted owing to the use by the "defenders" of red pepper. After repeated efforts, the police and firemen only succeeded in entering the church by employing chairs as shields. The first two who got through the doors were knocked unconscious. Those who followed, though thoroughly exasperated, refrained from violent retalia-

Louis Lepine, prefect of Paris, and other high officials, as well as the newspapers of all shades of opinion, deprecate the violent incidents. It is said that the clergy have done their best by advice to their congregations to remain calm, but without avail, the militant Catholics being firmly resolved to resist what they term the spoliation of the many Paris churches, containing many millions of francs' worth of jewelry, military medals and decorations, given by devotees as thank offerings.

It is charged that the biame for the recent conflicts attaches to the minister of the interior because of his order that the inventory of the churches should be carried out before the regulations under the separation law are definitely drawn up. This leaves the Catholics uncertain regarding the eventual fate of church property, and their doubts on this subject have brought about their resistance to the order and its results. The authorities are determined, however, that the law shall take its course and the disorders be suppressed with the utmost vigor.

Twenty-two hundred inventories have already been made throughout France, many without incident, but Paris contains 69 Roman Catholic churches, of which but half have been visited by the officials. Proceedings will continue today, and in order to prevent a renewal of the disturbances the authorities have kept secret the hour at which the commissioners will visit the churches.

Of the 120 persons arrested in connection with the church riots only 47 have been detained in custody, among them Count de Bouille and Robert d'Harcourt, nephew of Count d'Mun, who was arrested and released at St. arrested. Those wounded in the conflicts are not believed to include many serious cases, but as most of the injured were conveyed to their residences it is impossible to ascertain definitely.

During the taking of the inventory at the church of St. Saturnin at Tours, street fighting occurred between the Catholics and anti-Catholics who were only separated by a large force of

#### To Save a Million a Year

Washington, Feb. 3 .- "While the joint printing committee of congress has not proposed a single line of legislation at the present session, the agitation for a reduction of government printing has already resulted in a prospective saving of a million dollars a year." Chairman Landis of the house committee on printing made this statement and said the committee is continu ing its investigation into the wastefulness of government printing.

#### Detectives Seeking a "Raffles"

Boston, Feb. 3.-Under orders to capture Back Bay's mysterious fire escape "Raffles," three detectives have been sent to that section of the city to solve the complete mystery which surrounds the identity of the "dress suit burglar." The Back Bay police have been driven nearly frantic by his repeated suc cesses and have become so alarmed at the work of "Raffles" that they did not even put the name of the last victim on their secret record of crime.

#### Significant Liquor Legislation

Columbia, S. C., Feb. 3.—The house of representatives passed the Morgan dispensary bill by a vote of 63 to 47. It is believed the senate also will pass the measure. The bill abolishes the state dispensary and provides for state | ing high commissioners of the Emperor prohibition, with local option to coun- of China. ties to establish their own dispensaries under county management.

Sentence of Dismissal Remanded Washington, Feb. 3 .- The president has pardoned Midshipman Miller of Kentucky, recently convicted of hazing at Annapolis naval academy and sentenced to dismissal.

#### STRIKE OF 550,000 MEN

Possible Result of Failure to Reach Coal Agreement Indianapolis, Feb. 3.-With prospects

pointing to a strike of 550,000 coal miners unless the present deadlock is broken by some unforeseen influence, the national convention of the United Mine Workers of America adjourned after the dissolution, without reaching a settlement of a wage scale, of the joint conference of operators and miners of the central and southwestern districts. President Mitchell of the Miners' union advised the delegates to go home and look to the securing of a defense fund in view of a possible industrial strife between miners and operators, the miners having refused to renew the present wage scale and the operators having refused to grant an increase in wages.

The apparent determination of both operators and miners indicates that neither will make overtures to the other for further negotiations; and, as indicated by the speeches of both the radicals and conservatives of both organizations at the joint conference, it is probable that the 550,000 men controlled by the United Mine Workers will walk out of the mines in every part of the United States on April 1.

There have been intimations that President Roosevelt and the national civic federation may be asked to set in motion negotiations looking to a rehabilitation of the joint agreement, or at least a discussion of some possible means of bringing the operators and the miners together for further negotia-

#### Action Regarding Insurance

Chicago, Feb. 3.-Delegates to the national insurance convention embodied the result of their deliberations in a set of resolutions which were subscribed to by the convention as a whole. Six states voted against the adoption of the resolutions and 23 voted in the affirmative. The future policy of the states and territories represented in the convention was committed to a committee of 15 members, with power to enlarge its membership. This committee is to prepare a report, which will be submitted at a meeting to be held at the same time as the next meeting of national insurance commissioners, probably in September, at Washing-

#### Trade Handicapped by Weather

New York, Feb. 3.-R. G. Dun & Co.'s Weekly Review of Trade says that complaints have been numerous regarding the mild weather, yet results for the month were satisfactory on the whole, and preparations for the future continue with undiminished confidence. Heavyweight wearing apparel and rubber footwear stocks at the end of the season threaten to be burdensome, despite extensive clearance sales at reduced prices.

#### Su tan Is Suspicious

Tangler, Feb. 3.-Owing to the want of confidence in the present Moroccan representatives at Algeciras, who disagree as to how to deal with the European delegates, the sultan contemplates sending Ben Sliman, foreign minister, to the conference.

All these movements were largely reflected in the eyes of Ensign Beebe as he sang lustily, "And before I'd (indistinct roar) my Saviour I'd lay me (confused mixture of consonants) and die." In an unguarded moment he allowed his gaze to wander in the direction of the little girls. The next instant he rolled his eyes about apprehensively to see if he had been observed. The giggles from a class of sixteen-year-old girls left him in no doubt. Immediately a wave of blood rolled upward through his long neck and submerged his face until, its passage being disputed by his high cheek bones, it overflowed his ears and nose in a glowing

Clouds of dust down the turnpike announced the more leisurely home going of his brother churchmen. Usually on a fine day Ensign was wont to sit out on his porch within a stone's throw of the other porch and exchange greetings with the passersby, but today he shut his front door, closed the blinds, opened the slats and sat behind them in a state of gloom without and within.

Mrs. Lizzie soon arrived at the house epposite and disappeared into the barn with her horse. Ensign ducked his head in shame at the sight. He had taken care of her horse ever since her husband's death, but only the day before in the blacksmith's shop he had been rallied on his gallantry. "Ah, Ensign, I see you've taken possession of t'other barn already soon," accused the blacksmith of Pennsylvania Dutch origin, and the remark was rankling yet.

The Browns rolled along, one horse half a length behind the other. Their big wagon was full of smiling faces turned toward the closed slats. So quickly did he fulfill his pledge that the week was not yet ended when Ensign received a Scranton daily with an advertisement heavily marked in blue pencil. On the margin was scribbled, "Have made inquiries and hear she is an estimable woman.' The advertisement read:

Wanted.-A position as housekeeper or companion, by a competent woman with good references. Address 201 Irving street,

Ensign studied the little paragraph as he sat at the little table, his feet braced against the wall beyond. "Housekeeper or companion," he mused aloud and planted his forefinger on the latter word. It had but one meaning for him. Presently he uncovered the term and looked at it thoughtfully. His face did not express unalloyed joy. He arose and gazed mournfully through the closed blinds at the house opposite. Mrs. Lizzie was on her way to the barn, milk pail in hand.

Such a sudden hatred of that other "estimable woman" arose in Ensign's breast that he precipitately gathered together pen, paper and ink before Mrs. Lizzie's pleasant face should entirely obscure the advertisement. It was pure obstinacy which drove his pen as he composed a letter addressed to 201 Irving street:

To Miss or Mrs. -Dear Madam-I notice an ad. in the Scranton Press of some one there who would keep house or become a com-panion. I take the liberty at this time to make known my wants. I have a house all furnished that I would be glad to get woman to keep and would take such a

Ensign wabbled his umbrella joyfully into the eye of a passing policeman. "If I'd only known you was back of it I'd not felt like as if I was attendin' my own funeral day, I can tell you!" Mrs. Lizzie increased her speed.

"I've been thinking it all over for three days in the country, and when I got back tonight I found that I had come to a decision without knowing it and that I had come to it even before I started. My leaving the letter for you proved it. It's a little like this Mexican war-a mixed up problem. The thing is bound to happen, and you can't stop it. I believe the men who make this war for their own uses will suffer for it. But it is made, and there's only one thing I can see as the thing for me to do. They've called me every name on earth—and the same with you, too, Crailey-because I'm an abolitionist, but now, whether the country has sinned or not, a good many thousand men have got to do the bleeding for her, and I want to be one of them. "Quarrel with you!" Tom rose and came to the desk, looking across it at his friend. "Did you think I might do that?"

"Yes-I thought so." "Crailey!" And now Tom's expression showed desperation. It was that of a man whose apprehensions have culminated and who is forced to face a crisis long expected, long averted, but imminent at last. His eyes fell from Crailey's clear gaze, and his hand

fidgeted among the papers on the desk. "No," he began with a painful lameness and hesitation. "I did not mean it-no. ## Lincoln Day Proclamation

Gov. Guild has issued the following proclamation for Lincoln day in Massachusetts:

By an act of the legislature duly approved, the twelfth day of February has been set apart to be observed by the people as Lincoln Day. On the twelfth day of February 97 years ago there was born in a home of poverty in Kentucky, a boy destined to share with George Washington the first place in the hearts of Americans.

The general court has determined, and wisely, that the anniversary of an the coldest day of the winter, and Benevolent Society of the Wollaston event so auspicious should no longer remain unreconized by this commonwealth. By virtue of the authority vested in me by chapter 328 of the acts of 1905, I therefore declare and proclaim Feb. 12 Lincoln day, and urge of the services of Abraham Lincoln.

The hour of Lincoln's birth is unknown. I suggest that at 22 minutes past 7 in the morning, the hour of his death, the tolling of a passing bell remind us that at that hour the United States lost the brave, patient soul that would have carried us in safety and honor through reconstruction, as it carried us in safety and honor through

Let Ward Six. the children hear the words spoken at Gettysburg and the emancipation proclamation, and let them join with those living of Lincoln's soldiers in singing the "Star Spangled Banner" and the "Battle Hymn of the Republic."

Let the national colors be displayed from sunrise to sunset from the liberty pole, the public building and the home. Let cannon at midday fire the national salute. Let our merchants and empleyers of labor close their places of business as generally as possible during the noon hour. Let such churches as may be flung open that those who wish may go there, and may all men on Lincoln day, wherever noon overtakes them. pause and give thanks for one passing moment to God, who, having sent us the founder of our liberties, sent us again in our honr of need a saviour of the nation.

#### Want Cheaper Light.

The state board of gas and electric light commissioners gave a hearing in New Bedford on Thursday, on a petition of a committee of the board of trade for a reduction in the price of gas in the city and Fairhaven. It is claimed that the company can afford to supply gas at \$1 per 1000 feet, with 10 per cent. off for payment within 10 days, and that 15 cents per kilowatt should be the cost of electricity. The present rate is \$1.10 with a discount of 10 per cent. forg as and 18 cents per kilowatt for electricity with a discount graded upon the amount used. Taken under advisement.

The treaty will be signed with much pomp and ceremony next Tuesday.

If the warring factions live up to the terms of the agreement it will mean the end of a reign of terror in Chinatown, in the darkened recesses of whose mysterious buildings murders and other crimes have been of almost weekly occurrence, and where occasionally the never sleeping enmity of the feudists has flared out in pitched battles in the streets between Chinamen clad in coats of mail.

The shadowy figures of the night hours which move about in this quarter of old China set down in the great metropolis will no longer be on murder bent; the long-barrelled, blue-steel army revolvers will all be yielded up to the police, the coats of mail, some of steel links and some of bullet-proof felt, will no longer find a place in the wardrobes of the militant Orientals, and under heavy bond to keep the peace, the Chinamen will return to work with thoughts of other things than the wiping from the face of the earth' of every Chinaman belonging to the rival tong. Gambling is to be eschewed, no deadly weapon is to be bought or accepted as a gift, and every difference of opinion is to be promptly taken to the Chinese consul for settlement. THE BEAUTIFUL HAND.

A Decision That Stood the Test of All Time.

There was a dispute among three ladies as to which had the most beautiful hand. One sat by a stream and dipped her hand into the water and held it up, another plucked strawberries until the ends of her fingers were pink and another gathered violets until her hands were fragrant. An old, haggard woman, passing by, asked, "Who will give me a gift, for I am poor?" All three denied her, but another who sat near, unwashed in the stream, unstained with fruit, unadorned with flowers, gave her a little gift and satisfied the poor woman, and then she asked them what was the dispute, and they told her and lifted up before her their beautiful hands. "Beautiful indeed," said she when she saw them, but when they asked her which was the with red, it is not the hand that is garlanded with fragrant flowers, but the hand that gives to the poor is the most beautiful." As she said these words her wrinkles fied, her staff was thrown away and she stood before them an angel from heaven, with authority to decide the question in dispute, and that decision has stood the test of all time.

#### STATE LOTTERIES.

They Were Once Very Common and Very Popular In Europe.

Lotteries were common in ancient Rome, and during the middle ages lotteries were utilized by the Italian merchants for the disposal of their goods. Some of the Italian states then adopted the lottery as a means of raising revenue, and the institution of state lotteries afterward became very common and very popular throughout Eu-

## STATE PROBLEMS

No Effort by President to Dictate to Congress

REGULATION OF RATES

Would Refuse to Accept Legislation Other Than That Emhodied In His Message--Interested In Philippine Tariff and the Statehood Measure

Washington, Feb. 3.-President Roosevelt is not trying to dictate to the congress what it shall do or not do regarding railroad rate regulation or any other problem of legislation. He has not delivered to the senate or to the house any sort of an "ultimatum" on subjects of legislation and has not held over the heads of congress the "threat of an extraordinary session," if he does not obtain the legislation for which he

This statement is made by authority; also that suggestions of a compromise of any sort on rate regulation which do not embody the substance of the president's message on the subject have not appealed to the president. It can only be said that he doubtless would refuse to accept a compromise which would affect any essential feature of the proposed legislation.

What is known as the Hepburn bill, now under discussion by the house, embodies substantially the president's views as set forth in his last annual message. In the early days of the present session he thought the measure proposed by the interstate commerce commission was the most practicable offered, but, after mature consideration, it seemed to him that the Hepburn bill was the better.

Members of the senate committee on interstate commerce have assured the president that either the Hepburn bill featuures will be reported to the sen-The report will be sups expected, by Senators Collum, Dolliver and Clapp, and possibly by other Republicans, and by the Democratic members of the committee.

it can be stated that while the president desires that such rate regulation shall be established as he has recommended, he is firm in his attitude that the railroads, as well as the shippers, shall be dealt with entirely justly. He wants nothing in the law that would affect unfairly the rights or the property of the railroads. He is confident that legislation to be framed substantially on the lines of the Hepburn measure will prove fair alike to the railroads and to the people. He is not trying to dictate matters of detail and, of course, will preserve an open mind as to proposed amendments which do

tors Dolliver and Clapp had another talk with the president yesterlowing a meeting of the senate committee, at which the subject was under usideration. They called at the White House while the cabinet was in session, but the president saw them almost immediately and, with one or two members of the cabinet, discussed

The president is interested deeply in both the Philippine tariff bill and the statehood measure. Concessions as to either one of them have not, it is stated, been given serious consideration. At first to eliminate Arizona and New Mexico from consideration as a joint state; and, if that should fail, secondly, to incorporate in the statehood bill a provision for the reference of the questo say, with any degree of accuracy, if it were sent to him with the referendum provision included.

jority and a minority on the measure, for the senate, particularly, is divided into several groups, each one of which represents a different view.

Secretary Taft, who is a staunch advocate of the bill, has let it be understood that no compromise involving an increase of the tariff rates on Philippine sugar and tobacco imports over the 25 percent rate proposed in the pending measure will be accepted, if his views are to obtain. He spurns the suggestion that, in order to secure votes for the Hepburn rate regulation bill, the administration would be willing to permit the Philippine sugar and tobacco imports to come into the United States at a rate of 50 percent of the Dingley tariff rates.

Secretary Taft would see the Philip-Pine bill defeated on a direct vote rather than to be a party to any such compromise

LANGUAGE IN SOBS.

London Lancet Calls Them Monosyllabic Sentences. If the average man were asked why

he sighed, groaned or moaned he would probably be at a loss for a reply. The London Lancet, however, whose columns seldom fail each week to add

to the gayety of the nations, makes the cause of these peculiar manifestations of discontent perfectly clear, says a London special cable dispatch to the Chicago Inter Ocean. The Lancet says:

"There is no doubt that there are considerable mental comfort and relief obtained from a series of long drawn sighs during a period of sorrowful depression or from noisy ejaculations of the nature of groans and moans made by a sufferer from such a painful disorder as acute dyspepsia or violent toothache. #### Surprised the Astronomer. Dr. Flamsteed, who was astronomer

royal in Newton's time, was rather tickled by the belief of his neighbors in his powers of consulting the stars about terrestrial affairs. An old washerwoman at Greenwich who had been robbed of her linen came to consult him about its recovery. So he set about drawing squares and circles and suggested that if she went into a certain field he would not be surprised if she found her lost linen in a ditch. But when she came back "with haste and joy" and a half crown in her hand for his fee he was not only very much surprised, but alarmed. "Good woman," he said, "I am heartily glad you have found your linen, but I assure you I found your linen, but I assure you I for a street you have found your linen, but I assure you I for a street you have the first that the form attachment or levy on execution and will be sold at your local and your local and will be sold at your local and will be sold at your local and your local and the local and your local and found your linen, but I assure you I knew nothing of it and intended to read you a lecture on the folly of applying to any person to know events not in human power to tell, but I see Satan has a mind I should deal with him, and never will I attempt such an affair again so long as I live."

Why Blackie Wore the Plaid. Professor Blackie frequently stayed at Dr. Donald Macleod's house in Glasgow. One night, said the doctor, we were sitting up together. Blackie said in his brusque way, "Whatever other faults I have, I am free from vanity.' An incredulous smile on my face roused him. "You don't believe that. Give me an instance." Being thus challenged, I said, "Why do you walk about flourishing a plaid continually?" "I'll give you the history of that, sir. According to the authorities, Sullivan and his wife were in the kitchen

of the boarding house when Heffernan entered the room and without a word of warning, drew a revolver and shot Sullivan in the back. Sullivan turned to grapple with his assailant and a second shot was fired, lodging in Sullivan's chest and shattering the shoulder bone. Sullivan's wife says that Heffernan fired a third shot which did no damage.

Heffernan says that there had been a long-standing feud between Sullivan and himself and he knew that he would have to kill Sullivan in order to prevent being killed himself. He expressed no regret for his action.

Heffernan, who was employed in the South Groveland woolen mill, has been out of work for some time and his assoclates say that he has acted peculiarly lately and they consider him mentally unbalanced.

Vicious Bulls Gave Amusement For Thousands

#### MATADORS' GREAT SKILL

Three Great Beasts Despatched In Fight In Honor of Morcecan Conference -- American Delegates Were Absent

Algeciras, Feb. 5 .- The brilliant, in honor of the conference on Moroccan reforms was the event of Sunday. Crowds came from all parts of Andalusia to the vast stone amphitheatre where the bullring is, and more than gaily decorated with the Spanish colors modated the ambassadors and officials of many countries.

Most of the delegations to the conference were represented and many of the envoys were accompanied by their wives and daughters. The Duke of Almodovar, the Spanish foreign minis ter, who is president of the conference, accompanied by the duchess, was the centre of a group of ambassadors, and white-garbed Moors and throngs of Spanish women in picturesque costumes lent the touch of quaintness to the animated scene. The American and British delegates did not attend.

Three celebrated bull fighters furnished the sport, and the bulls were from the famous herd of Don Moreno Santa Maria of Seville. The first animal brought into the ring, a huge black and Alusian beast, killed two horses before the matador, Lagartijo, skilfully drove his sword to the hilt into the animal, which fell dead. Thousands cheered at this moment and the band played a Spanish fandango.

The second bull was ceremoniously ledicated to the Duke of Almodovar by Matador Morenita, which is a custom of the country. It proved to be an ugly fighter and gored the blind horse of a picador. This bull was also despatched. Another bull killed five horses, four of them dying in the arena, while the fifth, terribly gored, staggered outside and

The picadors were often unhorsed, but none of them was seriously hurt. The skill of the matadors was shown as they piroutted before the bellowing animals, which were stung to madness by the darts with their gay streamers stuck into them. The foreigners pres ent witnessed the scene with mingled admiration at the audacity of the matadors and horror at its cruelty.

Conferees Clear Small Issues Algeciras, Feb. 5.-The conference on Moroccan reforms has now been freed of most of the minor questions before it and finds itself fast approaching the graver issue which heretofore caused the serious strain in the rela-

ions between France and Germany. This issue hinges on who shall control the police of Morocco, as it appears to be recognized that whoever controls this semi-military organization will control Morocco itself.

The delegates to the conference have shown increasing anxiety at the ap proach of this issue, knowing the intense feeling it has aroused between France and Germany, and, accordingly, the representatives of the disinterested powers are redoubling their efforts to secure an accord before the question reaches the open conference and thereby avert an open controversy and a possible deadlock.

Isaac Bonnell Pays Wife an Unprofitable Visit

A CHANCE OF RECOVERY

Woman Claims That Husband Fired First Shot--Wounded Man Charges Both Wife and "Manager" With Shooting

Haverhill, Mass., Feb. 5.-While Isaac Bonnell of Nashua, N. H., lay on the floor of the apartment of his wife, Mrs. Ida Bonnell, in this city, bleeding from a bullet wound in the head, he accused first his wife and then A. L. Morrell with shooting him. Bonnell was removed to a hospital, where his 534-539 Tremont Building, Boston case was placed on the dangerous list, and Mrs. Bonnell was locked up on a charge of assault with intent to kill, Morrell being also held as a witness.

When the police rushed up to Mrs Bonnell's apartment on the second floor of 156 Merrimac street they found Mrs. Bonnell and Morrell endeavoring to staunch the blood which was pour ng from the wounded man's mouth On reaching the police station, Mrs Bonnell stated that she had not been living with her husband for about nine months. She said that she was engaged in palm reading and that Morrell was her manager. Her husband arrived from Nashua yesterday and when he appeared in the room she said that she was seated by a table reading, while Morrell was sitting by a window. Bonnell, upon entering the room, demanded "a private reading immediately," and asked his wife to go into the back room. She started to follow him, but, as he appeared very angry at Morrell's presence, she decided not to go. Mrs. Bonnell said that her husband then drew a revolver from his hip pocket and fired at her, the bullet grazing her arm. She reached over to a table and drew a 32-calibre automatic revolver from beneath two books. She aimed at her husband's head and fired. Bonnell fell to the floor with a shriek.

Both weapons were found by the poice upon their arrival. Each was warm and each had one exploded cartridge. The police stated later that Mrs. Bonnell appeared very composed, and insisted that she fired the shot at her husband. Bonnell, however, after first declaring that his wife shot him and that she fired first, changed his statement a few minutes later and declared that Morrell fired the shot. After Bonnell had reached the

hospital the bullet was removed by means of a probe. The bullet entered the man's cheek, and, passing completely through his head, lodged in the back of his neck. While his condition is regarded as critical, it is believed that he has a chance of recovery.

Mrs. Bonnell has been in this city about six months, engaged in palm reading. Nothing is known regarding her husband nor are the police familiar with Morrell, the woman's manager Bonnell is about 35 years old, and his wife somewhat younger, while Morrell gave his age as 40.

SPLIT IS COMPLETE

Balfour and Chamberlain Drift Still Further Apart

London, Feb. 5.—That there is a split in the Unionist party is recognized as an existing fact by the Unionist newspapers this morning. They say it is definitely known that Mr. Balfour and Mr. Chamberlain have agreed to disagree and that it is believed Chamberlain will withdraw from his adhesion to Balfour and organize a separate party on tariff reform.

This, it is admitted by Unionist newspapers, will be the only course open to Chamberlain unless Balfour de cides to call a meeting of the party and allow its members to decide the question of leadership. "The next morning, when I taxed her with it, she dutifully defied and insulted me."

"I can imagine the delicacy with which you 'taxed' her. What has that to do with your devilish tantrums of this afternoon, Robert Carewe?"

Few were the houses of the more pretentious sort that did not mourn in prospect the going of son or brother or close friend. Mothers already wept not in secret, fathers talked with husky bravado, and every one was very kind to those who were to go, speaking to them gently and bringing them little foolish presents. Jean blithely. But there was little spirit for the old merriments. Fanchon, Virginia and five or six others spent their afternoons mournfully, and yet proudly, sewing and cutting large pieces of colored silk, fashioning a great flag for their sweethearts and brothers to bear southward and plant where stood the

palace of the Montezumas. That was sad work for Fanchon, though it was not for her brother's sake that she wept, since, as every one knew, Jefferson was already so full of malaria and quinine that the fevers of "Yes; you did, and I heard you. It was at this juncture, when the old men pulled long faces and the very irchins of the street observed periods of gravity and even silence, that a notion entered the head of Mrs. Tanberry-young Janey Tanberry-to the effect that such things were all wrong. She declared energetically that this was no decent fashion of farewell; that after the soldiers went away there would be time enough to enact the girls they had left behind them, and

Boston, Feb. 5.-Lieutenant Smith and Captain Gaskin were reprimanded Qu in general orders of the police board for | r neglect of duty in connection with the removal of three boxes from the office r of the Provident Securities and Banktreasurer of the company. Smith was found guilty of having permitted Burlen to remove the boxes without examination when the latter officer was aware that an injunction had issued or was about to issue against the bank. Gaskin was found guilty of delaying a report of the facts in the case to his r superior officers.

In the evidence of the case it appeared that Burlen visited the vaults at night with a sergeant detailed by sioners warning the bank officials not with their banking business.

Sergeant Fettridge, who accompanied Burlen to the bank, was commended in the general orders for having suggested to Smith that the letters and boxes be examined before allowing r their removal.

the Ichneumon Fly Makes Its Natural Enemy Serve Its Purpose.

The ichneumon fly of Ceylon is the natural enemy of the spider. This insect is green in color, and in form resembles a wasp with a marvelously meet at South Braintree this evening, thin waist. It makes its nest of well and will be addressed by Rev. M. Aryer worked clay and then goes on a hunting expedition. Its victims are invariably spiders of various kinds, but all are subject to the same mode of treatment. A scientific sting injects some poison which effectually paralyzes the luckless spider, which is then carried off to the nest and there fastened with a dab of moist clay. Another and anof horrors. Then the prescient mother chneumon fly proceeds to deposit her eggs, one in the body of each spider, which can just move its legs in a vague, aimless manner, but can offer no re-

Each poor spider is still alive, and his juices afford nutriment for the ichneumon grub till it is ready to pass in the chrysalis stage, thence to emerge as a winged fly fully prepared to carry out the traditions of its ancestors with regard to spiders.

ANTIQUITY OF FISHING.

The Art of Angling Is as Old as the

Human Race. The art of angling no doubt had its origin in man's necessities. The earliest record of mankind makes reference are frequent allusions to it in the Bible. Job, in the oldest book of all, says: "Canst thou draw out a leviathan with Flory Gould and family have moved a hook or his tongue with a cord which from Main street to the house formerly thou lettest down? Canst thou put a occupied by W. F. Carmen on Wibird hook in his nose?" Smarting Under Criticism. By no means unusual was the destruction of the Borglum angels in the Cathedral of St. John the Divine by the sculptor himself while smarting under the criticism that there were no male angels shown.

Gerome, the famous French sculptor, had been working for weeks on the clay model of a group representing Spring. It had almost reached completion when the artist became convinced that the treatment was wrong, and in a minute he had beaten the entire group into a shapeless mass of damp clay. ERRORS OF SPEECH.

Common Abuse of the Verbs to Get, to Lay and to Lie.

The verb to get is one of our much misused words. It means to acquire, win, obtain, and primarily it signifies the putting forth of effort to attain something. Consequently it is not only superfluous, but incorrect, to speak of a man as "getting drowned" or "getting sick," and you may unfortunately "have a cold," but it is impossible that you "have got a cold." At this moment no exceptions occur to the writer to the rule that got should never be used in connection with have, which alone sufficiently expresses possession.

A Regretted Refusal

[Original.] Arnold Withers, lieutenant in the United States artillery, was a noticeable young man. He was proud, sensitive and the soul of honor. SUIT FOR DIVORCE

LIVING APART

Three Women of High Social Standing Brought Into the Scandal .- Fruitless Attempt to Effect Reconciliation

Paris, Feb. 6.—Countess Boni De Castellane (formerly Anna Gould) entered a plea for divorce yesterday. Representatives of the countess and the count appeared before Judge Ditte of the court of first instance, who, in conformity with the French law, endeavored to arrange a conciliation before allowing a definite suit to proceed. It is said on unquestionable authority that Ditte's efforts were not successful, the countess absolutely declining to resume her relations with her husband, and that, after repeated but vain attempts by De Castellane's advisers to arrange a settlement, the representatives of the count and countess left the court and that the suit will proceed.

Another judicial effort at reconciliation will almost certainly be made before the suit comes to trial in the ordinary course. No decision has been reached relative to the eventual custody of the children of the count and countess, but they, being under age, will for the present naturally remain in the care of their mother.

Friends of the Count and Countess De Castellane express little hope that any adjustment of their differences will be brought about, but as divorce proceedings under the French law are very lengthy, new developments may occur before the case comes up for trial. A decree cannot be pronounced under from three to six months.

Rumors have been current for a long time that the countess had decided that any further continuation of her relations with her husband was impossible and her removal from the Castellane residence to a hotel in the centre of Paris gave support to the belief that she had finally decided to complete the separation. In the meanwhile the coun tess has returned to her residence, but the count is absent. He is said to be in the southeast of France. The names of three women of the

highest social standing in Europe have been brought into the tangled affairs of the count and countess.

Besides the beautiful wife of Duc D'Uzes, society gossip in Paris has brought into the case the name of a baroness, whose husband is known in every court in Europe that has had to borrow money, and also an American woman, now the wife of a distinguished French baron. The former baroness is of German origin and is a distant con nection of Count Boni. The name of the American baroness has been kept as yet within the circles of the inti mates of the Castellane family.

Clasping her children to her boso sobs. Countess De Castellane is in se clusion in the gorgeous Castellane mansion, weeping at the faithlessness of her titled husband. While Paris waits excount will receive from the husband of the baroness-the "woman in the case"-the dishonored American wife of Count Boni says in her despair:

"My happiness has disappeared. I have borne much. I loved him so. But this I can never overlook. It is too

GURLEY'S PROPOSITION It Promises Little For Provident Securities Depositors

Boston, Feb. 6 .- In an interview last night, C. F. Weed, receiver of the defunct Provident Securities and Banking company, said: "The propositions of C. D. Gurley for the assets of the Provident bank have seemed 'yellow' to me from the first, but after the statement of President Steele of the Shen-Endoah Irrigation company of Colorado. that 'Gurley and his associates had been preparing for just such a fiasco as this' and had concealed 'contracts giving them \$1,200,000 of the first proceeds of the Shenandoah company' I can only say the affair seems more 'yellow' than

Mr. Steele had stated that there was a prior lien of \$1,200,000 on the assets of the Shenandoah company. Last night Receivers Weed and Hall of the bank said that no mention of any lien had been made by Gurley when he proposed to take over the accounts of the depositors of the Provident bank and give them as security debentures of the Shenandoah company.

The receivers have not abandoned their fight to secure something for the depositors, however, whose claims aggregate something over \$182,000. They are endeavoring to find out what is the value of the shares of the Shenandoah company, the principal asset of the defunct banking corporation.

Self-Government of Police

Providence, Feb. 6.-A step toward the vesting of the control of local police affairs with the city instead of the state government, as at present, was taken by the city government last night, when a bill directing the city solicitor to apply to the legislature for the transfer of the power to appoint the local police commission from the governor and state senate to the mayor and board of aldermen passed both branches. The Providence police com mission was created by the legislature on Nov. 22, 1901.

He entered unobserved and made his way, keeping close to the wall, to where Mrs. Bareaud sat, taking a chair at her side, but Robert Carewe, glancing thither by chance, saw him and changed countenance for an instant. Mr. Carewe composed his features swiftly, excused himself with elaborate courtesy from Miss Chenoweth, with whom he was talking, and crossed the room to a corner near his enemy. Presently, as the music ceased, the volunteers were bidden to come forward, whereupon Tom left Mrs. Bareaud and began to work his way down the room. Groups were forming and breaking up in the general movement of the crowd, and the dissolving of one brought him face to face with Elizabeth Carewe, who was moving slowly in the opposite direction, a small flock

Which I gaze on so fondly today, Were to change by tomorrow and fleet from my arms Like fairy gifts fading away

Thou wouldst still be adored as this moment thou art.

Let thy loveliness fade as it will, And around the dear ruin each wish of my heart Would intwine itself verdantly still."

#### HOW TO STUDY PROPERLY.

Books Should Be Well Chosen and Read Carefully, Not Devoured. Study is like a dinner. The viands must be well chosen and eaten slowly, not devoured, then well turned over in the mental stomach for awhile until with ease and comfort they are perfectly digested and furnish nutriment to the brain. Most students study without thought, which is like eating without digesting. Others read merely as a fad and soon forget all they may have learned.

The most satisfactory method of

ough one-the one that gives strength

to the brain. Take the subject you are

studying. Read a few lines or a few

pages, as the case may be, then put

the book down and think on what you

have read. Turn it about in your mind

from every standpoint. Do not accept

it immediately. Argue for and against

it in your mind. In other words, masti-

cate it. You need not be at your leisure

to do this. Do it in your walks, in your

idle moments, at any time. When you

have satisfied yourself on the subject

go on with a little more in the same

way. In a short time you will find

yourself more a thorough student than

if you had read all at a sitting. The

best educated man in the end is the

man who learns slowly, but surely.

COINED MONEY.

The Most Ancient Specimens Known

the Process of Manufacture.

Would you like to know how to manafacture diamonds-real diamonds? The process is somewhat difficult, requiring time, patience and some outlay of mon-Total. ey, but then consider the possible re-242 sults! The diamond, we know, is sim-260 ply carbon in a transparent crystalline 239 form. It comes of humble parentage 272 and is brother to the lump of coal. 284 Unlike easily crystallizable bodies,

carbon is insoluble in all ordinary solvents, but molten metals will combine with it. Let the diamond maker choose Totals. iron for a solvent for charcoal, melting 227 it in an electric furnace, allowing it to 242 take up as much carbon as it can-in 240 other words, saturate itself with car-246 bon. The crucible containing the white 2:0 hot metal should then be plunged into a bath of molten lead. The result will be 1175 that globules of iron will rise to the surface of the lead and are quickly cooled on the outer surface. Inside the hard crust the iron remains for some time in a molten condition, and as iron expands in solidifying the contents of these little globules receive a pressure unattainable by any other means. When the lead becomes solidified some bullets of iron will be found bound up in the mass. Dissolve with some powerful acid first the lead and then the iron, and a residue of carbonaceous matter will be found to contain tiny crystals-real diamonds. Any chemist with a well equipped laboratory can make diamonds in this way, but the William E O'Brien of Weymouth was largest of them will not be more than a fiftieth of an inch in diameter.

#### Sulphur.

Sulphur is a solid, nonmetallic mineral which has been known from earliest ages. It is hard, yellow and brittle and has a most offensive odor. It is found in veins or beds, mostly near active volcanoes. The imported sulphur mostly comes from Solfatia, in Sicily, but large quantities are also procured from copper and iron pyrites. These minerals are heated, and the sulphur being volatile flies off in fumes, which are conveyed by means of pipes to a condensing room. If left in the powdery state in which it condenses it is called flour of sulphur. If melted and cast into bars it is called roll sul-

How a Lawyer Would Amend Consti-

Mr. Hale then proceeds to outline what those laws shall be, all of which is to be a part of the "sixteenth amendment." His proposals make a document of five closely typewritten pages and include seven sec-

The following prohibitions he wants put on marriage: "No Caucasian shall marry any one bearing more than onesixteenth of the blood of another race. Insane persons shall not marry." He also wants a medical examina-

tion of all candidates for matrimony, and any disease that would tend to retard the development of the human race toward perfection shall be a bar. Twenty-one for males and eighteen for females shall be the legal age. By consent of parents these limits are reduced two years. Felons and first cousins must not marry, according to Meridian street, East Boston. Jan. 19 81-4 s. Hale's amendment.

Marriage is prohibited between persons the difference in whose ages shall exceed twenty-five years. Evidently the foreign invasion of the "nobility" of Europe among American heiresses is distasteful to Mr. Hale, for he wants to deprive every such captured heiress of the right to hold property in the United States.

On the subject of divorce he only wants them granted for causes which could not have been discovered before marriage. Mr. Hale also wants the exemption laws rearranged so as to encourage marriage and antirace suicide.

Any couple who are married according to statutory law and have one or more children shall have \$1,000 homestead and \$500 personal property exemption.

# And None of Wollaston Yacht Club In Arrears.

The annual meeting of the Wollaston Yacht club on Tuesday evening was Rhyme. largely attended, although the temperature was stinging cold and the club house is isolated.

Commodore S. B. Wiley, Jr., presided and in the absence of Secretary Dill, because of illness, George H. Murray was elected clerk pro tem.

The secretary's report showed 35 new members and 28 resignations for the year. The membership at date numbers 202, including 181 regulars, 10 juniors and 9 honorary.

The report of Treasurer Given show ed the total receipts to have been \$2, 384.18 and total disbursements \$2,102. 88, leaving cash on hand \$281.30 and all

The report of Auditor Pinkham was remarkable one, not only because of the excellent financial standing, but from the fact that there is at this time no member in arrears either for dues or for locker rents, and the club has no first mortgage of \$3,550 and second mortgage of \$4,490, a total of \$8,040.

The net receipts of the year were \$2,151.14; expenses, \$1,448.75; leaving surplus, \$702.39. The surplus is divided as follows: increase in cash, \$223.12; new float, chains, etc., \$195.27; new furnishings, \$29.00; reduction first mortgage, \$250.00; reduction bonds,

The assets of the club amount to \$10,420.97 including cash, \$284.30; real estate, \$8,667.65; floats, \$688.95; furnishings, \$777.67; keys, \$2.40. The net surplus is \$2,380.97.

The reports of the House committee, Regatta committee and Entertainment ommittee showed a season of activity.

The nominating committee reported a list of officers for 1906, and the club proceeded to elect each officer separately by ballot. There were contest for vice nmodore and members of the executive committee, but the nominees were

all successful as follows: Commodore,-William M. Chase. Vice-Commodore, -F. E. Dawes. Secretary,-G. H. Stebbins.

Treasurer, -John B. Given. Executive Committee for three years, Edgar W. James. Executive Committee for two years,

A. B. Robbins. Commodore Wiley then resigned the chair to Commodore Chase, who thanked the members for the honor,

and spoke of the past and future of the

club, complimenting his predecessor. Votes of thanks were extended to S. B. Wiley, Jr., the retiring commodore, and C. W. Dill, the retiring secretary. Representatives of the Boston Bay Yacht Racing Association were then introduced, viz: Loring Sears, the president; Arthur Cavanagh and James A. Harland who spoke of the efforts of Real Estate Bought and Sold. their association to rejuvenate yacht

Some questions were asked by Vice Commodore Dawes and others, and the subject of joining the association was referred to the executive committee. The meeting then adjourned.

Such expressions have been immediately denied by Rockhill at Pekin. Although directed primarily against Americans, the feeling of ill-will that seems to be growing in various parts of the empire is interpreted by Orientalists to have a far deeper meaning. In a word, it is declared to be anti-foreign. and there are indications that all foreigners, with the possible exception of Japanese, will soon be as keenly affected as are Americans.

Informal representations regarding the Chinese situation already have been exchanged between some of the European powers, but thus far this country has not called foreign nations into con sultation because there is a very general feeling among the European powers that the Chinese are unjustly discriminated against by the American government, and so long as the anti-foreign Europeans are expected to bide their

Miss Betty exhibited not precisely a

burning interest in the adventure of the damsel fair, wandering out of the room during the second rendition, wandering back again and once more away. She had moved about the house in this fashion since early morning, wearing what Mamie described as a "peakhappen when they all came marching ed look." White faced and restless, home no one can say; even if it were with distressed eyes, to which no sleep could not remain quiet for three minutes together. Often she sank into a chair with an air of languor and weariness, only to start immediately out of it and seek some other part of the house or to go and pace the garden. Here in the air heavy with roses and tremulous with June as she walked rapidly up and down late in the afternoon, at the time when the faraway farm bells were calling men from the fields to supper, the climax of her restlessness came. That anguish and desperation, so old in her sex, the rebellion against the law that inaction must be her part, had fallen upon her for the first time. She came to an abrupt stop and struck her hands together despairingly and spoke aloud.

"What shall I do? What shall I do?" "Ma'am?" asked a surprised voice just behind her

She wheeled quickly about to behold a shock headed urchin of ten in the path near the little clearing. He was ragged, tanned, dusty, neither shoes nor coat trammeling his independence, and he had evidently entered the garden through the gap in the hedge. "I thought you spoke to me," he said

"I didn't see you," she returned.

"You Miss Carewe?" he asked, but before she could answer he said reassuringly: "Why, of course you are! I remember you perfect, now I git the light on you, so to speak. Don't you remember me?"

"No, I don't think I do." "Lord!" he responded wonderingly. "I was one of the boys with you on them boxes the night of you pa's fire!" Mingled with the surprise in his tone was a respectful unction which intimated how greatly he honored her father for having been the owner of so satisfactory a conflagration.

"Were you? Perhaps I'll remember you if you give me time."

Should the newly made wife desire to boss the cook she has but to walk nto the forward corner beyond the parlor. Crowded into this space are a pantry and a cook's galley, each about 3 by 10 feet. The white capped chef has just about room enough to turn around in amid his pots and pans.

TEN STORY LIGHTHOUSE.

Model Structure For Diamond Shoals. Light Visible Twenty Miles. The new Diamond Shoals lighthous

will not only safeguard a dangerous coast, but will be in itself a model in construction. Livingston Wright in his article on the "Diamond Shoals Light" in the February Technical World Magazine describes it as follows: Auctioneer and Appraiser.

"The lighthouse is to have eight different floors besides the lantern galery and watch room. The first will be equipped with three lifeboats, with a rane for hoisting or lowering on the outside. The second floor will be divided into four rooms and contain the fog signaling apparatus and two oil engines. The third floor will contain the hoisting engine for operating the bedroom The fourth and fifth floors will each have two bedrooms, a writing room and a bathroom. One-half of the sixth floor will be devoted to the dining room, the other half to the kitchen, pantry and refrigerator. The seventh floor will have a double sitting room or library and a laundry. On this floor also will be placed a tank holding 1,600 gallons of fresh water. The eighth floor will be properly equipped for the lighthouse service room. The ninth floor will contain the watch room and will have a gallery extending all the way around it. The floor above this will contain the light itself, visible in storm or calm for about twenty miles."

France's Rooseveltian President. M. Fallieres, France's president elect, is a great walker in the country, says a Paris correspondent of the Pall Mall Gazette. Rain or shine, he accomplishes his six or seven miles a day. He seizes every occasion to absent himself from Paris to bury himself in his estate. He wears the clothes of comfort rather than of fashion-soft hat, loose fitting jacket and trousers, finishing in leggings and thick boots-when his horizon is bounded by his vines instead of the PATRIOT OFFICE peopled benches of the senate.

Dressed Granite-Monuments-Monusubstances," under paragraph 97.

On application for review of a decis on of the Board of United States General Appraisers. These proceedings relate to G. A. 6026 (f. D. 26834), in which the Board of General Appraisers affirmed the assessment of duty by the collector of customs at the port of New York on an importation by Austin Baldwin & Co.

This importation was described in the syllabus to the board's decision as consisting of "granite monuments import- 1.58 from Box 446 on Copeland street, the parish." ed in sections or pieces of dressed granite, which, after being put together at a needless alarm, however, as only a women of the parish. the place of erection, must have cement basket of clothes was burned at the Rev. The appraisers returned the article as dressed granite. The importers claim that the articles consist of monuments and pieces of monuments made from granite, and are therefore dutiable as articles (undecorated) composed wholly or in chief value of mineral substances at 35 per cent. ad valorem. I have read all the testimony and concur in the opinion of the Board of General Appraisers.

The decision is affirmed.

"The Ladies of the Parish!" 'T is a subject broad and deep; Of our virtues, of our talents, How can I most fitly speak?

But first just let me tell you We're a bright and charming band Fully equal, in our thinking, To the finest in the land.

In our ranks are sweethearts loving.

Sisters tender, mothers good; Wives who still obey their husbands As all truly good wives should. And our talents, who can name them? We can sing and play and write;

Manage fairs and social gatherings,

Meetings, either day or night. And in the domestic service We can sew and mend and knit; Cut our children's clothes and make 'em So that they will surely fit.

We can cook, and that we're proud of, Make good pies and bread and cake; So our husbands never sigh For "like what mothers used to make."

As to looks, we vary greatly, Some are short and me are tall; But as beauty's only skin deep, We don't care for that at all.

We're a band of happy sisters And you'll know just where we stand, When I say this is our motto: "God and Home and Native Land."

Boston, Feb. 7 .- Arthur B. Dixon, a prosperous mechanic living in Roxbury district, who yesterday left his family, which included four small children, well, and his wife apparently happy, returned home tast night and found all five dead from asphyxiation, the mother, for some unknown reason, having put the children to bed, turned on three gas jets, and, lying down herself, passed out of the world with her off-

The Dixons had a gas meter in the house, and Mrs. Dixon told the storekeeper that she wanted to use the gas stove for some time, as she had a large wash. tragedy, that there was no gas stove n the house.

Mr. Dixon found the house securely ocked when he returned home last evening, and was obliged to break in the front door. The door of the bedroom, however, was not locked, and when Dixon opened the door the smell of gas was almost overpowering. The gas, however, had been turned off at the meter, after the quarter's worth had been exhausted.

Mr. Dixon was nearly frantic when he discovered the bodies of all five of his family on the bed, and for a few minutes tore about the house like a madman. As soon as he became composed he notified the police, and not long after Medical Examiner MacDonald appeared. Dr. MacDonald, after an examination, stated that the woman probably committed suicide after puting the children to bed. The bodies were removed to a local undertaker's establishment.

Dixon said he left home at 6 o'clock yesterday morning. At that time his wife was up and the children were all awake, one or two being dressed. He did not notice anything unusual about his wife, and left home without any anxiety. During the forenoon Mrs. Dixon was seen to leave the house and go to a store not far distant. There given her for two dimes and a nickel, telling the storekeeper that she wanted the silver piece for the gas meter.

It is supposed that the woman went home, undressed the children and put them to bed, where it is believed they were all soon sound asleep. There was amination as to its security. SYNOPSIS.

CHAPTER I-Betty Carewe comes home to Rouen from a convent. Tom Vanrevel is smitten by a passing glauce, catches her runaway kitten and gets a scratch on the hand. Betry takes the wounded hand in her own, a pautomime witnessed by Fanchon Bareaud, her school chum, who warns Tom to beware of Betty's father. II-Betty, in this week at the coliseum. Wednest, John Morrison, the one mile for Quincy, will race to retain that we will race to retain that revolution. A masquerader in the revolution. A masquerader in the revolution. A masquerader in the dress of a French incroyable surprises her one evening in her father's grounds. She repulses his attempts to talk with

III-Frank Chenoweth almost pe

poses to Betty at the debut ball. His father makes the speech. Mr. Carewe tells Betty of his feud with Tom Vanrevel and his threat to shoot him if he nvades his grounds. She remembers that the masquerader declared that he must hover about the gates like a thief. IV-Crailey Gray and Tom are law partners. Gray is leader of Rouen's wild set. He hobnobs with Carewe in spite of the feud. He is engaged to Fanchon Bareaud. V and VI—Carewe's warelouse burns. Tom and Gray are cut off on a roof that is doomed by the flames. Betty guides them safely down by a trap and stairway. She recognizes in Gray the incroyable who invaded her father's grounds. VII—Gray escorts Betty home. She believes that he is Tom Vanrevel. The sudden arrival of Carewe interrupts an interview that is getting serious. VIII—Carewe upbraids Betty for her action at the fire. He denounces Vanrevel, and Betty tells him that he escorted her home. Her father declares that her escort was Gray. Carewe goes on a journey. Nelson, a negro servant, tells Betty

is an abolitionist, yet hints at a personal cause involving Gray. IX—Mrs. Tanberry, an elderly belle, becomes Betty's chaperon. Betty is serenaded, and Mrs. Tanberry recognizes Tom Vanrevel's voice in a song written by Gray for Fanchon. Betty thinks that the voice is Gray's for it is not that of her incroyable. X-Tom asks Betty for the first to dances at Fanchon's party. She gives him one, supposing him to be Gray. She leaves him abruptly, telling him never to address her again. XI-Tom discovers Gray's stealthy attentions to Betty. He thinks Betty's treatment to himself is due to her fathers's hatred. XII-Carewe returns and invites a party, including Gray and Fanchon's brother, to a night gathering in the cupola of his house. Gray is reluctant to go, but yields in order to befriend young Bareaud. He etter from Betty intended for Gray. It exposes her father as a gambler who has ruined Gray. I have obeyed you and shall always. You have not sent for me. Perhaps that was because there was no time when you thought it safe. Perhaps you have still thought it safe. Pernaps you have still felt there would be a loss of dignity. Does that weigh with you against goodby? Tell me, if you can, that you have it in your heart to let me go without seeing you once more—without goodby—for the last time. Or was it untrue that you wrote me what you did? Was that dear letter but a little fairy dream of mine? letter but a little fairy dream of mine Ah, will you see me again, this once—this once—let me look at you, let me talk with you, hear your voice? He ran off, pale with the fear that he might grow up, take to drink and some day tell in his cups, but so resolved not to coquet with temptation that he went round a block to avoid the door of the Rouen House bar. Nevertheless the note was in his hand and the fortune in his pocket. And Mr. Carewe was safe. He knew

that the boy would never tell, and he knew another thing, for he had read the Journal, though it came no more to his house-he knew that Tom Vanrevel wore his uniform that evening and that, even in the dusk, the brass buttons on an officer's breast make a good mark for a gun steadied along the ledge of a window. As he entered the gates and went toward the house he glanced up at the window which overlooked his garden from the cupola.

**Eountess Castellane** Opposed to Abandoning Divorce Suit

Paris, Feb. 8 .- Strong efforts continue to be made in behalf of the Castellane family to bring about the abandonment of the divorce suit begun by the Countess Boni de Castellane, formerly Anna Gould, but up to the present the desired result has not been achieved.

An attempt made to obtain the countess' assent to a judicial separation without absolute divorce has also been unsuccessful, and probably the case will pursue the ordinary course, coming up for a hearing at no fixed date, but it is expected that it will be heard three weeks hence. The pronouncement of a decree dis-

solves any contract relative to marriage settlements, each party resuming control of their own property. A divorced woman may not remarry within 10 months after judgment, while an appeal against a decision must be lodged within six months. A report, which cannot be confirmed.

Plan For Joint Summer Camps by Regulars and Militia.

Troops Will Receive a More Valuable Training, It Is Said, Than That Derived From Maneuvers on Huge Scale - By New System Seven or Eight Camps Can Be Distributed In the United States by Sections.

\$1,000,000 or \$1,200,000 for encamp-

There will be no army maneuvers on 1904. Such affairs are spectacular, but have serious drawbacks, chief of which Hallowell. is the expense. By the new system of brigade camps it is expected the regulars and the organized militia will receive much more valuable training than in maneuvers on a huge scale,

General Oliver, assistant secretary of war, in a recent statement he made to the house military affairs committee, explained the new system. It con templates putting the whole or most of the regular army in tents in summer for three months. In the old days, in the period of Indian wars, the troops had plenty of opportunity to fit themselves for field work, but now the bulk of the troops live in garrison and do not have much chance for develop ment. President Roosevelt has bee urging some method of meeting th present conditions, and it is throug him so much attention is to be given to the practice march hereafter.

There will be one camp in the north east, probably in New York state; on in the southeast, one in the centra states, one in the northwest, one in th southwest, one on the Pacific coast an possibly a larger one at Fort Riley.

General Oliver told the committee that the value of these camps will b very great. In the first place, the practice marches will do the regulars good The training and experience afforde the medical corps, the quartermaster's department and the commissary department will be valuable. It is expected the medical officers will learn much in the way of added knowledge of camp sanitation and hygiene. The troops will be practically in a condition fit for warfare at any time. By BOOTH TARKINGTON, Author of "The Gentleman From Indiana" and "Monsieur Beaucaire"

Copyright, 1902, by S. S. McClure Co.

CHAPTER I-Betty Carewe comes ome to Rouen from a convent. Tom Vanrevel is smitten by a passing glance, catches her runaway kitten and gets a scratch on the hand. Betty takes the wounded hand in her own, a pantomime witnessed by Fanchon Bareaud, her school chum, who warns Tom to beware of Betty's father. II—Betty, in seclusion awaiting her debut, studies the biography of her great-uncle, Georges Meilhac, a hero of the French resolution. revolution. A masquerader in the dress of a French incroyable surprises her one evening in her father's grounds. She repulses his attempts to talk with

III-Frank Chenoweth almost pro oses to Betty at the debut ball. His father makes the speech. Mr. Carewe tells Betty of his feud with Tom Vanrevel and his threat to shoot him if he invades his grounds. She remembers that the masquerader declared that he must hover about the gates like a thief. IV-Crailey Gray and Tom are law partners. Gray is leader of Rouen's wild set. He hobnobs with Carewe in spite of the feud. He is engaged to Fanchon Bareaud. V and VI-Carewe's warehouse burns. Tom and Gray are cut off on a roof that is doomed by the flames. Betty guides them safely down by a trap and stairway. She recognizes in Gray the incroyable who invaded her father's grounds. VII-Gray escorts Betty home. She believes that he is Tom Vanrevel. The sudden arival of Carewe interrupts an interview that is getting serious. VIII-Carewe upbraids Betty for her action at the fire. He denounces Vanrevel, and Betty tells him that he escorted her home Her father declares that her escort was Gray. Carewe goes on a journey. Nelson, a negro servant, tells Betty that her father hates Tom because he is an abolitionist, yet hints at a personal cause involving Gray. IX—Mis. Tanberry, an elderly belle, becomes Betty's chaperon. Betty is serenaded, and Mrs. Tanberry recognizes Tom Vanrevel's voice in a song written by Gray for Fanchon. Betty thinks that the voice is Gray's for it is not that of her incroyable. X-Tom asks Betty cited colored woman who, at sight of for the first to dances at Fanchon's him, threw up her hands in tremulous party. She gives him one, supposing him to be Gray. She leaves him abruptly, telling him never to address her again. XI-Tom discovers Gray's stealthy attentions to Betty. RAILEY was not the only man ing to himself all day that 0.00 each accustomed thing he did was done for the last time. Many of his comrades went about with "Farewell, old friend," in their hearts, not only for the people, but for the usual things of life and the actions of habit, now become unexpectedly dear and sweet to know or to perform. So Tom Vanrevel, relieved of his hot uniform, loose as to collar, wearing a big dress ing gown and stretched in a chair, watched the sunset from the western window of the dusty office, where he had dreamed through many sunsets in summers past, and now took his leave of this old habit of his in silence, with a long cigar, considering the chances largely against his ever seeing the sun go down behind the long wooden bridge

at the foot of Main street again. The ruins of the warehouses had been removed, and the river was laid clear to his sight. It ran between brown banks like a river of rubies, and at the wharf the small evening steamboat, ugly and grim enough to behold from near by, lay pink and lovely in that broad glow, tooting imminent de parture, although an hour might elapse

The sun widened, clung briefly to the horizon and dropped behind the lew hills beyond the bottom lands; the see she s'pec' you a-comin' an' dat de stream grew purple, then took on a luster of pearl as the stars came out, while rosy distances changed to misty blue; the chatter of the birds in the Main street maples became quieter and, through lessening little choruses of twittering, fell gradually to silence. And now the blue dusk crept on the town, and the corner drug store window lights threw mottled colors on the pavement. From the hall, outside the closed office door, came the sound

He stood with a candle to light her down the stairs, but after she had gone he did not return to the office. Instead, he went slowly up to his own room, glancing first into Crailey's-the doors of neither were often locked-to behold a chaos of disorder and unfinished packing. In his own chamber it only remained for him to close the lids of a few big boxes and to pack a small trunk which he meant to take with him to the camp of the state troops and he would be ready for departure. He set about this task and, concluding that there was no necessity to wear his uniform on the steamboat, decided to place it in the trunk and went to the bed where he had folded and left it. It was not there; nor did a therough search reveal it anywhere in the room. Yet no one could have stolen office Crailey had remained on this floor. Mamie had come within a few minutes after Crailey went out, and during his conversation with her the office door had been open; no one could have passed without being seen. Also, a thief would have taken other things as well as the uniform, and surely Crailey must have heard; Crailey would

## HAMILTON'S CASH

McCall Handed It Over Without Proper Accounting

Special Committee Recommends Proceedings For Accounting or Repayment to New York Life -- Perkins' Techincal Liability

New York, Feb. 9.—The special com mittee appointed by the trustees of the New York Life Insurance company to investigate the affairs of the company has made a partial report of its labors to the directors. This report deals only with the relations of Andrew Hamilton, the legislative agent, with the company, and is a severe arraignment of his methods. John A. McCall, late president of the New York Life, also comes in for a share of the committee's criticism. He is blamed for his methods in connection with the "bureau of taxation and legislation" during the last 10 years, and for allowing Hamilton to use vast sums without a proper accounting.

Special attention is called to remittances of \$10,000 to McCall in London and \$134,500 to Hamilton in Paris in 1900. The purposes of these remittances, the committee says, it has been unable to ascertain, and recommends that proceedings be instituted against Hamilton and McCall for an accounting or repayment.

The committee adds on this point that application has been made to McCall for information regarding the transactions, but that it is informed by Mc-Call's family that his physical and nervous condition is such that the subject cannot be taken up at present.

As to Hamilton's health, which has been reported as being bad, the committee has been informed that he was physically able to travel and has exhausted every effort to induce him to return to make a full disclosure of his payments, disbursements and transactions, but without success.

The committee also holds both Mc-Call and Hamilton responsible for \$75,000 advanced to Hamilton to pay the Old Colony street railway is on trial | the state tax, and which the committee declares was used by Hamilton for his own purposes. The committee is advised that both are liable for this sum.

The committee maintains also that it is a matter for legal adjudication as to whether George W. Perkins of the firm of J. P. Morgan & Co. is not liable for the payment of Hamilton's notes for \$59,310. Perkins paid this account, the committee holds, out of the New York Life Insurance company's share of profits in its participation in a United States Steel corporation syndicate. The committee holds also that the payment of these notes by the company was unwarranted. It is only just to Perkins to say, the report adds, that he acted in the matter in entire good faith, that he derived no benefit from the transaction, and that his liability,

The committee recommends that the tute appropriate legal proceedings to carry into effect the findings and conclusions of this report.

The report is signed by T. P. Fowler, Norman B. Ream, Hiram Steele, Augustus G. Paine and Clarence H. Mackay, and was unanimously adopted.

#### End of the Bowes Case

Washington, Feb. 9.-The case of John J. Bowes, the former United States soldier who came back to the soldiers' home and who was detained House at Boston by the immigration officials, pending an investigation, is a closed incident. Bowes is now a duly accredited inmate of the Soldiers' home at Togus, Me. The lack of one of Bowes' discharge papers alone prevented quick action in placing him in a national home. This made it necessary to trace his military record from the war de partment archives, with the result that all conditions were finally met.

#### Germany Needs Live Stock

Berlin, Feb. 9 .- At the dinner last night of the German Agricultural coun cil Chancellor Von Buelow acknowl edged the council's favorable reception of his policy on the subject of the scarcity of meat. Efforts, he said, should be made to raise live stock in Germany and so make the nation independent of other countries in that re spect. It was necessary, he said, to strengthen the position of the German farmer, who is the best bulwark against the social democracy.

#### Cheaper Gas For Chicago

Chicago, Feb. 9 .- The city council has passed the ordinance directing the gas companies of the city to furnish gas to consumers at 85 cents per 1000 feet. At present some consumers pay \$1 per thousand and others pay 90 cents. Mayor Dunne has said that he will not sign the 85-cent ordinance until he has investigated the operation of the gas plants in order to determine whether or not they can furnish gas at 75 cents or less and still make a profit.

Circums'ances Prec'ude European Powers Interfering, but America Wou'd Sweep Away Danger of a World-Wide War

London, Feb. 10.-The Statist, one of the leading financial weeklies of Great Britain, deals this week with the Algeciras conference in a long leader. The article predicts a failure to reach a conclusion satisfactory to France and, consequently, continued uneasiness in the commercial world, while at the same time the writer believes that war will not result. The point of The Statist's conclusions is that President Roosevelt alone can save the situation, "just as he alone was able to bring about peace between Russia and

The Statist, after dealing with the crux of the situation, namely, the policing of Morocco, upholds France's right to demand that she should be given power to maintain order and to maintain a police force. The Statist does not believe from present indications that Germany will yield the point, that country preferring to humiliate France with the result of tying up for an indefinite period the immense sums of money now held inactive in France.

"The small powers," says the article, "are afraid to meddle between Germany and France, and England cannot do anything that would seem contrary to the spirit or the letter of the Anglo-French agreement. Russia has too much to do at home, and Austria-Hungary is too much distracted. There remains, then, only the United States. If the United States is willing to undertake the policing of Morocco, everybody will half with joy her readiness to assume an unpleasant responsibility for the sake of preserving the peace of the World.

"Nobody would aattempt to dictate to the United States, yet everybody knows that the United States is im partial, and by undertaking the policing would not entangle herself in treaties, would not incur any danger, and would not impose upon herself any gratuitous expense. In reality she would sweep away the danger of war between two great European nations-a

## RIVAL REVOLUTIONISTS

Evidence of Bitterness Between "Red-" and "Black Hands"

St. Petersburg, Feb. 10.-The war the revolutionists and the so-called Black Hands assumed a new phase last night when a band of Reds surrounded a restaurant on the bank of the Newsky river, above the city, and threw a bomb among an assemblage of workmen The Reds then opened fire on the panic stricken inmates of the restaurant, killing two and seriously wounding 18, of which latter one died while being

taken to a hospital. The bomb, which was hurled through a window into the main room of the restaurant, exploded with a terrible noise and demolished almost the entire building. Much furniture, glassware and crockery was shattered. The ruins were spattered with liquor and blood and pieces of flesh, the whole presenting a sickening sight.

### NEW LEGISLATIVE ACT

Designed to Allow Prosecution of Foreign Banking Companies Boston, Feb. 10 .- A new move in the case of the Provident Securities and Banking company, which recently went into the hands of a receiver, is said to be planned. The first intimation came when the rules in both branches of the Massachusetts legislature were suspended at the request of Attorney General Malone in an act to give authority to prosecute foreign banking companies in an insolvent and hazardous condition. The Provident company was incorporated in South Dakota, while the Hanover bank, which was placed under a receivership this week, is a West Virginia corporation.

The bill went as far as the enacting stage, which cannot take place before Monday, but it is expected that developments in the Provident case will come before that time. The general explanation is that the attorney general is about to proceed personally in the case of the Provident company.

### Real Winter Weather

Boston, Feb. 10.-Maine, New Hampshire and Vermont are covered with a heavy blanket of snow, while the three southern New England states are coated with ice, as the result of an allday storm. Snow fell in the latter states during yesterday morning, but rain prevailed in the afternoon, producing a mixture which was frozen solidly by a cold wave last night. The storm prevailed from sunrise to sunset. STORY OF THE GENERAL'S FRIEND

Carl Guthurs, Who Related Incident Recently Made Public, Said Confederate President, However, Would Not Countenance Mutiny Scheme on Union Vessel-Escape to Bermudas Was Carefully Planned.

The death of General Joseph Wheeler of Alabama, the hero of two great wars and personal friend of President Jefferson Davis of the Confederacy, has brought to light a plan to rescue the imprisoned head of the Confederacy, which was not put into execution because of the objection of Davis, says a special dispatch from Memphis, Tenn., to the St. Louis Republic Wheeler was the author of this plan.

The story which was recently given to the American public for the first time was related by General Wheeler to his friend and confidant, Carl Guthurz, the noted artist of Washington, who has been in Memphis engaged in painting some portraits for the historic Semmes family, Mr. Guthurz was formerly a resident of Memphis and is well known to the older citizens

"I painted General Wheeler's portrait several years ago," he said while entertaining some friends in his studib recently, "and it was during his sitting one day that he told me this story. I knew him intimately for years. We occupied adjoining houses in Washington, and he never visited the capital without coming to see me,

"I shall not attempt to give you his words, but will merely outline the story as he told it to me, sitting facing me as I worked over his portrait and talking with that wonderful animation which always possessed him when in

terested. "You know he was with President Davis on board the transport by which that official, after his capture by General Wilson, was carried to his incarson, and then, without arguments or ceration in Fortress Monroe. I do not now remember the names of all the Confederates who accompanied their president on that voyage, but among them were General Joseph Wheeler, his evidence having been introduced by the low remember the names of all the tention of conspiracy was not proved president on that voyage, but among adjutant, General Ralls; Major Moran, Captain Moody and President Davis' private secretary, Burton N. Harrison.

"There were, if my memory serves me right, somewhere between fifteen and twenty captured Confederates who were permitted, or required, to accompany their chief as a sort of bodyguard, and of this bodyguard General Wheeler was, as I understand it, the recognized leader.

"The vessel in which they were being taken to Fortress Monroe, as the event proved, although they imagined at the time that they were destined for Washington, was, as President Davis himself has declared, 'an old transport ship, hardly seaworthy.' She had on board in addition to the mariners required for her management a complement of Union soldiers, who went along as guards for the captured Confeder

"You know what a daring man Gen eral Wheeier was. I believe no situawas not ready to face it, and we who know the story of his life can testify that he won out in his undertakings, too, however desperate they might have appeared to others at times.

"The fertile brain of the gallant little fighter conceived the project of overpowering the Union guard, capturing the vessel by force and making off with her to the Bermudas. Once landed there they would be on British soil and out of reach of the federal govern-

"I remember vividly how his eyes sparkled and glowed and how nervously enthusiastic he became as he described to me in detail how he had planned it all out; how certain members of the body guard were to throttle the guard at the head of the companionway and disarm him and how certain others were to attack other guards stationed in different parts of the transport ship at the same moment.

"As he conceived the plan it could not have failed of success. All it required was that President Davis should assent to it. But Davis absolutely refused to countenance the plan when it was laid before him. It was in vain that they pleaded and argued and rea-

"The war is over,' he told them firmly. 'My escaps new can be of no benefit to my people. For my personal safety I have no concern. I am a prisoner of war. What becomes of me is of little moment. We can serve no good purpose by effecting this escape. Let us make no further resistance.

"And so no attempt was made to carry the plan into execution, and, as far as I am aware, the world has never heard of it until now. But I feel sure that General Wheeler, in spite of his love and reverence for President Davis, never became quite reconciled to the idea that he had done the wisest thing in refusing to permit this mutiny on his own behalf upon that Union transport ship."

### For Upright Writing. A league has been formed in Paris

for upright writing, says the New York Times. It takes as its motto a phrase from George Sand:"Upright writing on horizontal paper with the body held straight." The league crusades against the English and American style of writing, slanting and angular, which, it says, is no longer really taught in England and America. Slanting writing is said to cause short sight, "scholiosis," and many other optical troubles.

Hitherto he had been growing very much like Topsy. Now he was to know a mother's loving care.

As soon as she had attended to the bodily wants of her stepchildren, "made them look a little more human," as she expressed it, Mrs. Lincoln turned her attention to the minds of her new charges. It was a welcome surprise to her, no doubt, to find that in his few weeks of rough schooling in Kentucky under the tutelage of Caleb Hazel young Abe had picked up some knowledge of reading and writing, and his foster mother decided that it was high time that he should add to his attain-

On Little Pigeon creek, a mile and a half from the Lincoln farm, the settiers had built a log schoolhouse, and Hazel Dorsey had been hired to preside therein. Dorsey, it was said, could teach reading, writing and arithmetic, and what more could be asked? The news of these new educational advantages meant much to all the children of the backwoods, but it meant more to them "manners." Every pupil was Abe. Before he had read this volume through a score of times he could make over into a fable with some kind of a moral to it every one of the anecdotes with which his mind was stored. Then he was initiated into the beauties of "Pilgrim's Progress," a book which had unquestioned influence upon his later life.

The family Bible, too, was a favorite. For some reason Hazel Dorsey was unable again to collect his scattered ! pupils, and it was a full year before school reopened, with a new teacher,

Paper was scarce in those days, and Abe's writing material was often a wooden shovel, from which unsatisfactory compositions could be erased by whittling, or a basswood shingle. He was forced to be economical in words. Not one could be written down until he was sure that it best expressed his idea, and here was planted the germ of that literary genius the full fruit of which was the masterly address at Gettysburg.

To his store of knowledge were soon added the "Arabian Nights," "Robinson Crusoe" and incidents in the history of his own country, all gleaned from borrowed books. Of these perhaps the most prized was the "Life of George Washington," the property of Josiah Crawford, a crusty neighbor who made poor Abe work for him for three days to pay for it when it had been spoiled by rain leaking through the chinks of the Lincoln cabin.

Abe had one teacher after Master Crawford and then his schoolhouse days ended, and he was graduated into the higher school of hard work and experience, the university of the world.

After his defeat he became a merchant in a small way and was also postmaster for a short time. It was some time in 1832 that he began the study of law. He also spent a portion of the next two years as a surveyor. In 1834 came the second race for the legislature. In relation to this canvass Mr. Herndon, afterward law partner and biographer of the martyr president, tells the following story:

He (Lincoln) came to my house near Island Grove during harvest. He got his had to be of buckskin, and, however | from the room during the spelling con- duction, and the boys said they could not vote for a man unless he could "make a hand." "Well, boys," said he, "If that is all, I am sure of your votes." He took hold of the cradle and led all the way round with perfect ease. The boys were satisfied, and I don't think he lost a vote in the crowd. The next day there was speaking at Berlin. He went from my house with Dr. Barnett, the man that had asked me who this man Lincoln was. I teld him that he was a candidate for the legislature. He laughed and said, "Can't the party raise better material than that?" I said, "Go tomorrow and hear all before you pronounce judgment." When be came back I said, "Doctor, what say you now?" "Why, sir," said he, "he is a perfect take-in. He knows more than only one man in the entire body that all of them put together."

Before the fight was over he had gained more than county fame as a stump speaker, showing something of the powers as a debater and orator which a few years later enabled him to overcome the foremost debater in the country, Stephen A. The noblest poem to the martyr president is unquestionably that of James Russell Lowell. It is a really great ode, almost as great as the subject, and that is saying much. The following extracts show its merit:

Edmund Clarence Stedman's poem on "The Hand of Lincoln" is not so well known as either of the foregoing, vet it contains many fine lines: Look on this cast and know the hand

What better than this voiceless cast To tell of such a one as he, Since through its living semblance passed. The thought that bade a race be free!

Almost every American poet since Lincoln's day has rendered some meed of praise to the memory of the great liberator. Notable among these are Alice Cary, Richard Henry Stoddard

and James Whitcomb Riley. Of foreign tributes the most celebrated was that of the London Punch, beginning, "You lay a wreath on murdered Lincoln's bier." and referring to itself as a "scurrile jester" for the gibes It had thrown at America's "true born

king of men." One of the most notable of the Lincoln poems is by Edwin Markham, the author of "The Man With the Hoe." It refers to the elemental character of the man, made up of "the red earth" and "the patient greatness of the rock." Again he is likened to the pine tree that "falls with a great shout upon the hills." .

There are other verses innumerable concerning the "saint of liberty," all breathing forth the love and reverence ple. As the years pass this chorus of song will swell until it grows into a mighty anthem of praise and thanksgiving that this latter day Moses was

Governor ef Canal Zone Appears Before Investigators

### YELLOW FEVER RAVAGES

Thinks Mosquitos the Agen's In Spreading Disease .- Defends Courts In His Jurisdiction and Discusses the Curency System

Washington, Feb. 10.-Charles E. Magoon, governor of the Panama canal zone, was before the senate committee on interoceanic canals and gave his testimony in connection with the investigation of the canal work. He outspring. He said he found an excellent organization for the government of the zone, but that the men were much overworked and very anxious over the posremovals were made. The sanitary force was also well organized and it had done, and is now doing, excellent

Senator Morgan questioned the wit- prosperity. ness closely concerning the origin of the yellow fever in Panama, himself insisting that the fever is native there. Magoon contended that fever conditions there are better than formerly.

Governor Magoon said the chief justice of the canal zone was not a citizen of the United States and that the selection was based on the precedents \* established in the Philippine islands and Porto Rico. He saw no reason why such an appointment could not be properly made

Senator Knox questioned the governor as to the truth of Poultney Bige low's charges as to the incapacity of the court and Magoon replied that the chief justice was an able lawyer. He had heard many compliments for the court and no complaints.

Under examination by Senator Morgan, the question was raised whether the courts, as constituted by the isthn canal commission, could deny to American citizen his inherent right trial by jury when charged with capital offense. Magoon said that sented a serious question.

adge Magoon said that the apparent 40 percent profit made by this government through the purchase and use of Panaman stamps surcharged "canal zone" would not pay the cost of the postal service in the zone. He testified that legislation would be necessary to adjust many of the land titles in the About half of the lands are ed by private parties. One ex planation given by Magoon of the in-terest the United States had in establishing Panama currency was that the use of American money doubled the price of everything, for the reason that the people wanted as many silver dollars worth 100 cents as they had received pesos worth 50 cents for articles

Senator Morgan asked if the United States should not establish a subtreasury on the isthmus to aggregate the necessary silver. Magoon replied that that could be done, but that as rapidly as the silver was shipped to the treasury and paid out it would disappear and never come back; that the people liked the money because it was stable and it drove out all other circulating mediums

"That is about the most logical free silver plan exploited since Mr. Cleveland-" began Senator Morgan. He had meant to say Mr. Bryan, but after a pause he completed his observation as he began and repeated "since Mr. Cleveland disappeared."

### "Canal Work Means Death"

Washington, Feb. 10 .- In the senate the urgent deficiency appropriation bill was passed. The only discussion over it was under an amendment by Mr. Patterson to strike out the provision relieving alien workmen on the Panama canal from the operations of the eight-hour law.

Mr. Money said he did not believe that there would be any American laborers there. "They won't live more than eight hours after arrival," he said. "when they are turning up a million germs with every spadeful of earth." Work there, he said, meant death.

"What it all means in plain, brutal English, is that there is being prepared on the isthmus a slaughter house for Aliens, and that the canal is to be built at a fearful cost, not only of money, but of life," responded Patterson.

Brussels, Feb. 10.—Professor Cattler of the Free University of Brussels has published a pamphlet on the situation in the Congo Free State, which contains several hitherto unpublished documents showing that the crown domain, which practically is King Leopold's personal property, consists of an area 21/2 times the size of England, bringing aim profits on India rubber alone of \$15,147,000 during the last 10 years.

Professor Cattier recalls the fact that Premier Nayer declared in the chamber of deputies in 1903 that the profits of the crown domain would be exclusively applied to the creation of establishments of material, moral and intellectual utility, whereas the official to him: documents adduced show that the profits have been used for the acquisition of real estate in Brussels and Ostend alone to the value of \$3,655,800, as well as property in many other towns in Belgium. The criminal who gets ahead of a bank or other corporation does not feel that he has broken the law as if he had robbed a private house. Mr. Phillips intended to pay all his attention to banks and none of it to private individuals. Had any one suggested that he beat a corner grocer out of \$50 by some gum game he would have been highly indignant.

The detective had told the bank clerk that more criminals came to grief through confederates than in any other way. There is honor among thieves only up to a certain point. They stand ready to sell each other out at any hour when it seems that they can personally benefit by it.

Mr. Phillips' natural astuteness warned him to go it alone and trust to no man, and therefore when he got ready to put his programme in motion no living man shared his secret. Mr. Phillips was in no hurry, and he did not propose to leave any loose ends. He went over his plans time after time and finally satisfied himself that they were without a flaw. CHAPTER I-Betty Carewe comes home to Rouen from a convent. Tom Vanrevel is smitten by a passing glance, catches her runaway kitten and gets a scratch on the hand. Bet'y takes the wounded hand in her own, a pantomime witnessed by Fanchon Bareaud, her school cham, who warns Tom to beware of Betty's father. II-Betty, in seclasion awaiting her debut, studies the biography of her great-uncle, Georges Meilhac, a hero of the French revolution. A masquerader in the dress of a French incroyable surprises her one evening in her father's grounds. She repulses his attempts to talk with

Then Tom remembered the figure in the long cloak and the military cap and with a sick heart began to understand. He had read the Journal, and he knew why Crailey might wish to masquerade in a major's uniform that night. If Miss Carewe read it, too, and a strange wonder rose in her mind, this and a word would convince her. Tom considered it improbable that the wonder would rise, for circumstances had too well established her in a mistake, trivial and ordinary enough at first, merely the confusing of two names by a girl new to the town, but so strengthened by every confirmation Crailey's wit could compass that she would no doubt only set Cummings' paragraph aside as a newspaper error. Still Crailey had wished to be on the safe side.

convinced that the harlequin would come home soon, replace the uniform (which was probably extremely becoming to him, as they were of a height and figure much the same) and afterward in his ordinary dress would sally forth to spend his last evening with Fanchon. Tom wondered how Crailey would feel and what he would think about himself while he was changing his clothes, but he remembered his partner's extraordinary powers of mental adjustment, and for the first time in his life Vanrevel made no allowance for the other's temperament, and there came to him a moment when he felt that he could almost dislike Crailey

At all events, he would go out until Crailey had come and gone again, for he had no desire to behold the masquerader's return. So he exchanged his dressing gown for a coat, fastened his collar and had begun to arrange his cravat at the mirror when suddenly the voice of the old negress seemed to sound close beside him in the room:

"He's settin' dah-waitin'!" The cravat was never tied. Tom's hands dropped to his sides as he startel back from the staring face in the mirror. Here the detonations were not so deafening, though the little steamboat at the wharf was contributing to the confusion with all in her power, screeching simultaneously approval of the celebration and her last signals of departure.

At the first corner Tom had no more than left the sidewalk when he came within a foot of being ridden down by two horsemen who rode at so desperate a gallop that, the sound of their hoof beats being lost in the uproar from Main street, they were upon him before

He leaped back with an angry shout to know who they were that they rode so wildly. At the same time a sharp explosion at the foot of the street sent a red flare over the scene, a flash, gone with such incredible swiftness into renewed darkness that he saw the flying He hobnobs with Carewe in spite | horsemen almost as equestrian statues illumined by a flicker of lightning, but he saw them with the same distinctness that lightning gives and recognized the former as Robert Carewe, and in the instant of that recognition Tom knew what had happened to Crailey Gray, for he saw the truth in the ghast-

QUINCY, MASS., MONDAY, FEBRUARY 12, 1906.

PRICE TWO CENTS.

BY J.A. EDGERTON HIS soul was great, it held so much of love. In him the simple touch of charity Mere force and war's red menace was above In conquering the years that are to be.

An ever growing figure he will move Across the theater of History-His deed to fame the love of humble folk, His monument the shackles that he broke.

unadorned was he by circumstance, The outward show on which the little great Must needs depend to gain Fame's countenance. So plain was he in speech and face and gait that those of worldly wisdom looked askance When he was called of God to guide the state. So unattractive was his fleshly sheath Men failed to see the mighty soul beneath.

THERE having sweeter spirit touched the earth Since One who died for men in Galilee, Whom he resembled in his patient worth, In love, in meekness and simplicity, hr seiflessness, in humbleness of birth.

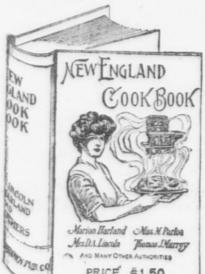

In laying down his life to make men free. As that One was the Saviour of mankinds So he his country's savior is enshrined.

OUR kingliest American wast thou, And yet the lowly honor most thy name. What wreaths have I to fit thy ample brow. What words to fill the measure of thy fame When at thy shrine the proudest nations bow And all the world grows vocal with acclaim? Yet, though in grace of speech far short I fall, My love for thee is equal to them all.

> THOU Moses of this younger Israel, A crown peculiar is reserved for thee. Of old for faith the saints and martyrs fells We hail thee as our saint of liberty. They who on earth in aftertime shall dwell And who at last in truth are wholly free Will find thy name writ large on Honor's scroll

# Manufacturers Order Lockout Because of Strike At East Milton

Unless something unforseen happens the granite yards of the city will be are association which the last bill of closed tomorrow to members of the Granite Cutters' Union. This course was decided upon at a meeting of the Granite Manufacturers' Association on Saturday evening, which lasted until nearly midnight.

The meeting was largely attended and an animated discussion preceded the vote to suspend work.

The trouble arises over the strike of the union cutters at the yard of Maguire & O'Heron at East Milton, brief mention of which has been made in these columns.

It appears that the firm put an apprentice or lumper at work running a surfacing machine. A regular man had beem employed running the machine at union wages. It is claimed that the firm finding that a lumper could do the of the bill of prices, and, believing so, the lumper at work.

All this happened some months ago. In fact, for nearly a year this lumper has been running the machine, and the union men have been squaring up the stone for him.

Recently a former employe at the yard, who is now at work in Chester, entered a complaint to the union.

A walking delegate was sent to the the machine ordered the union men to drop their tools, and quit work, which they did.

This act the manufacturers say is a The alarm at 12.37 this afternoon violation of Article 2 of the agreement. During the past few weeks work has been a little quiet but it had begun to look up, and the prospects were that business this year would be better than it has been for years.

### THE LABOR SIDE.

Secretary James Duncan of the Granite Cutters Union in an interview said: The matter has not as yet come to me in an official way. The bill of prices tacitly admit a surfacing machine to be a stone cutter's tool and not a machine that anybody, a lumper or apprentice an be hired to run.

Continuing he said:-"The committee from the union called on the proprietors of the shed to discuss the case, but no conclusion was reached, and then the committee asked for a conference prices requires we should do. The association committee was composed of manufacturers, all of whom had surfacing machines in their sheds which were being operated by stone cutters getting

the union scale of wages." "Yet this committee refused to discuss the situation at all; at any rate not until the men at the East Milton

"The men believe in living up to the bill of prices adopted a year ago and that is why they left off work in East Milton. They believed that the running of a surfacing machine was part of a stone cutter's work.

" Believing that way they thought the employment of a man not a stone entter to run the surfacing machine a violation they could not condone a violation of the bill of prices by working with him, especially after they had endeavored to settle the matter by a conference with the manufacturers' committee."

Alleged Remarks at Banquet to the Effect That Chinese Workmen Would Never Be Permitted to Enter the United States

Spokane, Wash., Feb. 12.-Samuel Glasgow, manager of a milling company of Spokane and Seattle, says that he has received from William Burtt, Chinese representative of the company, newspapers and letters which say that the Chinese interpretation of a speech made by William J. Bryan before Chiproduct of the yards of William Cramp | made by William J. Bryan before Chinese merchants at a dinner given by them in his honor has been used by Chinese agitators to stir up renewed antipathy to American products.

Previously to this speech by Bryan, the letters say, at a meeting held by about 50 commercial representatives and delegates from the various Chinese guilds of Shanghai, Canton and Hong his companion is of about the same age. members of the church over which Kong, the delegates had agreed on 12 proposed modifications of the American Chinese exclusion law. The American representatives agreed to have their houses urge these on congress, and the Chinese agreed immediately to call off the boycott. Then, according to Hong Kong papers, Bryan was entertained by the Chinese merchants at a dinner and made a speech.

One of the Chinese merchants at the dinner reported the proceedings to Chinese newspapers. He quoted Bryan as declaring that the labor party was so strong in the United States that Chinese workmen, skilled or unskilled, would never be permitted to enter, and also quoted Bryan as drawing a gloomy picture of what would happen to Amer can workmen if the Chinese were al owed to take away their employment. This informant said that, while Bryan had agreed to support a number of the proposed changes, he had not been able to draw from Bryan any definite assurance of support of the policy which the Chinese would insist on as the only

speech was circulated the Chinese merchants became convinced that congress would not adopt the changes reconr mended by the American mrchants and that their best policy was to put on the boycott screws tighter than ever.

### MAJESTIC THEATRE

The host of New England playgoers who so enjoy ed the footlight presentation of the Biblical story of David in "The Shepherd King" are now to have a fresh treat, sud one that promises to be in every way as fully delightful as that previously pronounced success, in Charles Frohman's massively picturesque production of "Mizpah," which has been scoring such a signal triumph in other cities and is to have its first Boston performance at the Majestic theatre this evening, Feb. 12. This new great success has been written by Ella Wheeler Wilcox and is founded upon the wonderful book of Esther. This famous and immortal Scriptural Anascurus, which has charmed generation upon generations since it was first set down in sacred narrative, by the old Jewish chronicler. has been retold in footlight fashion by Mrs. Wilcox, the celebrated poetess, in a style not nly to emphasize its dramatic intensity, but so to bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out the love story and heart interest of the bring out th and tenderly sentimental manner for moderns people than has ever been done before. The cast is headed by two actors who are particula favorites with New England playgoers, J. P. Gilmour of Castle Square fame as the Persian King, Ahaseurus, and Adele Block, that young Boston actress, whose pronounced type of Semitic be uty should well befit the lovely Jewish maiden, Esther.

# INQUIRY FAVORED

Alleged Combination In Restraint of Trade

TILLMAN BRINGS IT UP

Delivers Some "Pitchfork" 'Utterances In Speech Urging a Move to Probe Railroads' Ownership in Coal Companies

Washington, Feb. 13 .- The senate adopted a joint resolution, reported by Mr. Tillman from the senate committee on interstate commerce, which directs the interstate commerce commission to investigate the charge of discrimination and combination in restraint of trade made against the rail-

The resolution directs an inquiry as to whether the railroad companies own stock in coal companies or in other commodities carried by them; whether any of the railroad officers are interested in such commodities; whether there is any monopolizing combination in which the railroads are interested, and whether any of the railroad companies control the output of coal or fix its price. The commission also is directed to investigate whether there is discrimination against shippers, either in the distribution of cars or otherwise. The commission is required to report to con-

The adoption of the resolution was preceded by a speech by Tillman in which he practically charged that the administration was not proceeding it good faith to secure railroad legisla tion, because he was not satisfied with the president's advisers. Among these he mentioned Secretary Root and Senator Knox, the former of whom he said was an adviser of the "magnates re sponsible for the devilment" and the latter of whom had been for years attorney for the Pennsylvania Railroad company. Mr. Knox contradicted the charge relative to himself, saying that he never had been attorney for the Pennsylvania railroad.

Mr. Tillman proceeded to give rea sons why he thought the president could not be depended upon to serve the interests of the people. He re Griggs, saying that immediately after retiring from office he had taken the merger case of the Northern Securities company against the attorney general and also referred to former Secretary of the Navy Morton, who, Tillman said, ment "with the concession of rebate on him, made by his own mouth and the proof hanging over him.

"He is promoted," Tillman continued. "and made head of the great insurance organization in New York which has been made the stamping ground for as dirty a lot of thieves as ever walked God's green earth."

be, he stands by his friends. He gave Morton a certificate of good character.

Mr. Tillman then referred to a dinner

"The president has been elected nearly a year and a half and never has it been found necessary or desirable to bring these friends of his, these true and tried lieutenants and counsellors in his last race for the presidency, to dine with him. The inevitable conclusion in my mind, at least it ought to be, if it is not, is that these people were brought together to confer how the money could be raised to help poor old McCall out of the bog into which he The Switchman as well as the had sunk and refund \$148,000 which he the lurch and run the risk of bankfor the Republican party got him into this trouble.

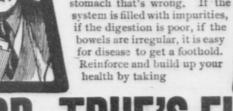

"So we have a condition in this counobligations of office to take up this railroad rate business, this railway discrimination business, this railway monopoly business, this destruction of private property, without due process of law, simply by defying the right to ship coal and all that kind of things. We want the interstate commerce commission to do the best it can with the bill now before it. I would rather keep It in committee until we get the facts from the interstate commerce commission upon which we could base an amendment to prevent public carriers from owning any product or any coal which is to be shipped over their line. thus relieving us from this infernal monopoly which now oppresses the lifeblood of Pennsylvania in the anthracite region and is feeding upon the bituminous region of Pennsylvania and West Virginia and the Atlantic seaboard generally, by which the people are held up and are compelled to pay

He expressed the opinion that the

question and one of the most important ever before congress. He was convinced that there were evils to be remedied in connection with the transportation system, but the problem consisted in finding a just means of dealing with them. He passed over as an established fact the right of congress to legislate for the regulation of the railroads and admitted the difficulty in was born in 1819-so that if he lived till dealing with the problem; said the fixtoday he would be eclebrating his 97th ing of rates by the government would not cure the evil, and concluded that that could be effected only by a provision for the punishment by imprisonment of those who violated the law by giving rebates. "Rebates," he said, "have been

wrong and injustice to the people and a serious injury to the railroads themselves. We have a law now upon the statute books which, so far as prohib: district throwing stones at one of the tion can go, ought to be sufficient.' uprights when the post gave way and Mr. Lodge reviewed the experience

> of other governments, including mos of the European countries, Canada and Australia, in government control of rate making, and added: "This examina tion shows us that it is not only entirely possible to abolish all discriminations between persons—that is, all rebates or undue preferences-but that this has been actually and effectively accomplished in other countries. On the point of excessive rates the experience of other countries demonstrates that whatever good effects government rate making has had it has not lowered the rates, but, on the contrary, has made them not only higher, but inelastic.

"That discriminations exist under our system, which work injustice," he con tinued, "it would be folly to deny, but it would be a still greater folly to estab York, and Mrs. Nellie Fagan of this lish a new series of discriminations working a larger injustice, in the hope from suicide or accident the authorities of curing the original inequalities Whatever attempt to remedy discrimi come on from New York to see his nations we may make, we should so guard it as to avoid applying a remedy far worse than the disease. rience of the world leads me to doubt most seriously whether any government rate making with a view to curing discriminations, can be effected without

bringing a change for the worse." Mr. Lodge combatted the idea that the railroads are owned by a few men and that they are inimical to and independent of all other interests. Pointng out possible dangers to the proposed legislation, he said, the rest of these is found in the possibility of failing to provide an effective remedy against personal discriminations. "That which is to be feared as to rebates," he said. "is that the law will not go far enough and will not be intelligently effective." Mr. Lodge suggested that the power delegated to a commission should not go beyond that of fixing a maximum rate on freight, and expressed the opinion that there should be ample provision for review of the findings of the commission by the courts.

### Panic Results From Fire

New York, Feb. 13 .- Twenty families occupying a four-story tenement were driven into the street late last night by a fire in a big factory building adjoining the tenement house. At the first cry of fire the occupants of the house, most of whom were asleep, rushed from the building with scant clothing on, dragging their children after them. Many suffered severely from exposure.

The procession naited for a moment in the street, and the music ceased. Then, with a jubilant flourish of brass and the roll of drums, the band struck up "The Star Spangled Banner," and Jefferson Bareaud proudly led the way through the gates and down the driveway, the bright silk streaming overhead. Behind him briskly marched the volunteers, with heads erect and cheerful faces, as they knew Corporal Gray wished to see them, their captain flourishing his sword in the air.

"Here they come! Do you see, Fanchon?" cried Crailey excitedly. "They are all there-Jeff and Tappingham and the two Madrillons and Will, the dear old fellow-he'll never write a decent paragraph as long as he lives, God bless him!-and young Frank-what deviltries I've led the boy into!-and there's the old general, forgetting all the tiffs we've had. God bless them all and grant them all a safe return! What on earth are they taking off their hats ; for? Ah, goodby, boys, goodby!"

They saw the white face at the window and the slender hand fluttering its farewell, and Tappingham halted his

"Three times three for Corporal Gray!" he shouted, managing somehow to keep the smile upon his lips. "Three times three, and may be rejoin his company before we enter the Mexican capital!"

He beat the time for the thunderous cheers that they gave. The procession described a circle on the lawn and then, with the band playing and colors flying, passed out of the gates and took up the march to the wharf.

"The flag, the flag!" whispered Crailey, following it with his eyes. "It shows you helped make it, Fanchon, it's so beautiful. Ah, Tom, they've said we abused it sometimes. It was only that we loved it so well we didn't like to see any one make it look silly or mean. But, after all, no man can do that-no, nor no group of men or party! His voice grew louder as the last strains of the music came more faintly from the street. "They'll take your banner across the Rio Grande, Fanchon, but that is not all-some day its stars must spread over the world!

Don't you all see that they will?" After a little while he closed his eyes with a sigh. The doctor bent over him quickly, and Miss Betty started forward unconsciously and cried out.

But the bright eyes opened again and fixed themselves upon her with all their old gay inscrutability.

"Not yet," said Crailey. "Miss Carewe, may I tell you that I am sorry I

In this jarring discordance there was something frightful to Miss Betty. She rose abruptly, and, imperiously waving back Mrs. Tanberry, who would have detained her-for there was in her face and manner the incipient wildness of control overstrained to the breaking point-she went hurriedly out of the room and out of the house to the old bench in the garden. There she sank down, her face hidden in her arms; there on the spot where she had first seen Crailey Gray.

From there, too, had risen the sere nade of the man she had spurned and insulted, and there she had come to worship the stars when Crailey bade her look to them, and now the strange young teacher was paying the bitter price for his fooleries, and who could doubt that the price was a bitter one? To have the spirit so suddenly, cruelly riven from the sprightly body that was, but a few hours ago, hale and alert, obedient to every petty wish, could dance, run and leap; to be forced with such hideous precipitation to leave the warm breath of June and undergo the lonely change, merging with the shadow; to be flung from the exquisite and commonplace day of sunshine into the appalling adventure that should not have been his for years, and hurled into top. it by what hand-ah, bitter, bitter price | "You horrid boy!" said the little bull.

# Quincy Daily Ledger. Burglar Discovered

# But Escaped Because Officer's Revolver Would Not Work

Burglars were about Wollaston this morning. Three stores were entered but liitle taken however, as the parties were frightened away by officer Donovan, who gave chase. The officer tried to fire at the fleeting burglar but his gun would not go off.

It was about 2.30 when Officer Donovan was coming up Hancock street when he heard a noise in one of the stores in the block at the corner of Hancock and Beal streets. He started to investigate, when the fellow jumping ont of a rear window started to run away.

The officer gave chase, and commanded the fellow to stop. This only 43 served to increase the burglar's speed. The officer then attempted to fire his revolver.

Investigation showed that the drug store of S. F. Copeland had been entered by smashing a side window and that the grocery store of Mr. Mitchell, and the dry goods store of Elward Hayden, had also been entered by smashing the front door glass.

In one of the stores was an overcoat which the burglar left behind in his House. haste, and in the pockets was a quantity of candy and cigars.

These were probably taken from Mr. Copeland's store. Mr. Copeland says that he never leaves any money in his store over night and anyone breaking in for that purpose would get left.

Practically nothing was obtained from Bo the other stores as the fellow was evidently frightened before he had an opportunity to accumulate any goods. Had the officer's revolvers been in work-H. F. Miller of Wollaston came in ing order the burglar would probably

# First Banquet Alpha Club

The supper was served at nine 'clock. It was delicious and beautifully served. The president Rav. Mr. Fuller. After the dinner the following toasts were given: response by Mrs. Tyler; "Lincoln, response by W. T. Williams; "Harriet Beecher Stowe," response by Mrs. H. D. McNeil; "Franklin." response by was called to Springfield on Monday on Mr. C. H. Trask; "Betsy Ross," Miss account of the sudden death of her Cassendana Thayer; and "Our History" response by Mr. M. A. Turner. The program was interspersed by singing The well known legislator, Robert patriotic songs. The occasion was information leading to the arrest and con thoroughly enjoyed by the forty members present.

### Driver Left Behind.

The patrol wagon was sent on a hurry call to Wollaston Monday evening on a driver had been thrown, and that he was seriously injured.

The officers found that the team was that of Lyon's Randolph express, that the driver had been thrown off at Norcontinued on as far as Beale street when they were stopped.

Further investigation showed that while the driver was somewhat cut and bruised that he was not seriously injured but had taken a car and gone to name "ALFRED WRIGHT" or "THEO. Boston.

The team was brought to Quincy and put up in a stable until its owner arrived from Randolph and drove it home. which we think is second to none in this city.

The executive committee of the Wollaston Congregational church will hold its monthly meeting this evening.

-Russell Whitney, a machinist at Hyde Park, was killed near the Bridge street crossing in that town on Monday evening while returning from work. He was 60 years of age.

Dr. Bowditch Claims That His Dismissal Was Unfair Boston, Feb. 13.-The governor's

council yesterday heard all of the testimony of those who are protesting against the dismissal of Dr. Vincent Y. Bowditch, as visiting physician at the Rutland sanitarium. Dr. Bowditch himself was the chief witness before the council, and his cause was elo quently supported by a number of reputable physicians. The medical fraternity, who are siding with Bowditch in the present controversy, believe ment by the trustees in the matter of his dismissal, as he was not given a hearing and an opportunity to appear before the full board.

It developed during the hearing that Bowditch had voluntarily had his salary reduced from \$1500 to \$1200 in order that the services of a certain man, who family. was making experiments, might be continued.

In response to questions Bowditch said he had opposed the increase in the size of the institution, as he thought it should not contain over 150 if the Telephone, Quincy 46-9. patients were to be properly supervised.

# Annual Meeting Of Unity Circle Review of The Good Work

The annual meeting of Unity circle of King's Daughters was held in Bethany chapel on Taesday and the reports showed that this model charitable organization is doing an immense amount of good work in our midst.

From the excellent report of Miss Alice N. Hatch, the secretary the past year, these facts are taken:

# MONEY QUESTION

An Important Factor In the Castellane Proceedings

A SEPARATION DECREE

Would Permit Absolute Divorce In Three Years--Effort to Eliminate the Corespondents' Names In Official Hearings

Paris, Feb. 14.-Count Boni de Castellane had a long conference yesterday with the lawyers of his wife. This was one of several meetings at which the two parties concerned have carefully gone over the financial fea tures of the case with the view of determining the exact form of the future procedure and ultimate decree.

In the meantime the countess' bill of complaint is being prepared, but has not yet been filed, as the form will depend upon the pending conferences over financial affairs. If these are satisfactorily adjusted the countess' bill of complaint is likely to be materially modified so as to contain only incompatibility or other grounds within the statute, but avoiding allegations of a scandalous nature.

However, the conferences are not for the purpose of reconciliation, as all concerned, including the count and countess, with their lawyers, appear to recognize the futility of any further attempt to reunite the family. The present indications, therefore, are that after the parties reach a financial understanding the bill will be modified and a decree entered by mutual consent. This decree probably will be for a separation, as the French law permits such a decree being extended to a com plete divorce after three years.

Thus far, however, the countess has not decided whether the bill shall ask for a complete annulment of her marriage. Her friends are rather inclined to restrict the decree to a separathat the countess intended to marry again, which her friends characterize as absurd. Until the bill is finally forth the grounds of the action.

Miss French Will Become Lawyer Fredericton, N. B., Feb. 14.-The government bill for admission of women to the practice of law in this province was passed in the legislature without debate through the committee stages and will be given its third reading today. It was the outcome of the case of Miss Mabel P. French of St. John, whom the supreme court decided could not be admitted as a barrister, she not being a "person" within the meaning of the act. She will be

CHAPTER XX. was between twilight and candlelight, the gentle half hour when the kind old sand-

man steals up the stairs of houses where children are, when rustic lovers stroll with slow and quiet steps down country lanes and old bachelors are loneliest and dream of the things silence of the clear dusk came the whistle of the evening boat that was to bear Tom Vanrevel through the first stage of his long journey to the front of war, and the sound fell cheerlessly upon Miss Betty's ear as she stood leaning against the sundial among the lilac bushes. Her attitude was not one of reverie, yet she stood very stillso still that in the wan shimmer of the faded afterglow one might have passed close by her and not have seen her. The long, dark folds of her gown showed faintly against the gray stone, and her arms, bare from the elbow, lay across the face of the dial with unrelaxed fingers clinching the cornice; her head drooping not languidly, but with tension, her eyes half closed, showing the lashes against a pale cheek; and thus motionless, leaning on the stone in the dusk, she might have been Sorrow's

She did not move; there was not even a flicker of the eyelashes, when a step sounded on the gravel of the driveway, and Vanrevel came slowly from the iouse. He stopped at a little distance from her, hat in hand. He was very thin, worn and old looking, and in the failing light might have been taken for a tall, gentle ghost, yet his shoulders were squared and he held himself as straight as he had the first time she

had ever seen him. "Mrs. Tanberry told me I should find you here," he said hesitatingly. "I have ome to say goodby.

She did not turn toward him nor did more than her lips move as she answered, "Goodby," and her tone was neither kind nor cold, but held no meaning whatever, not even indiffer-

There was an interval of silence. Then, without surprise, he walked sadly to the gate, paused, wheeled about suddenly and returned with a quick,

"I will not go until I know that I do not misunderstand you," he said, "not even if there is only the slightest chance that I do. I want to say something to you if you will let me, though naturally I remember you once asked me never to speak to you again. It is only that I have thought you did that under a misconception or else I should

"Only that I think the hardest time for you has passed, and that"-"Do you?" she interrupted.

"Yes," he returned, "the saddest of your life. I think it has gone forever. And I think that what will come to you will be all you wish for. There will be a little time of waiting"-"Waiting for what?"

He drew a step nearer, and his voice ecame very gentle. "Cummings and I reach our regiment tomorrow night, and there in the camp is a group of men on the way to the war, and they all go the more bravely because each one of them has you in his heart-not one but will be a better soldier because of you. I want you to believe that if all of them don't come back, yet the one whose safety you think of and fear for will return. For, you see, Crailey told me what you said to him when-when he met you here the last back to you! I am sure of it, because believe you are to be happy. Ah,

you've had your allotment of pain! "After all, there is so little to regret. The town seems empty without its young men, yet you may rejoice, renembering how bravely they went and how gayly. They will sing half the stars. "Crailey, Crailey!" he murway to Vera Cruz. You think it strange | mured. I should say there is so little to regret when I've just laid away my best friend. It was his own doctrine, and the selfish personal grief and soreness grow less when I think of the gallant end he made, for it was he who went away most bravely and jauntily of all. Crailey was no failure unless I let what he taught me go to no effect. And be sure he would have told you Cures a Cold in One Day, Grip in 2 Days

with all in the world." "Please!" she cried, with a quick intake of breath through closed teeth. "I will do anything in the world to please you," he answered sorrowfully.

'Do you mean that"-She turned at last and faced him, but without lifting her eyes. "Why did you come to say goodby to me?"

"I don't understand." "I think you do." Her voice was cold and steady, but it was suddenly given to him to perceive that she was trem-

bling from head to heel. An exclamation of remorse broke from him.

"Ah, you came here to be alone! I"-"Stop," she said. "You said goodby to me once before. Did you come to 303 Water Street, South Quincy see-what you saw then?"

He fell back in utter amazement, but she advanced upon him swiftly. "What

is that?" she cried. The unfortunate young man could make no reply and remained unable to defend himself from her inexplicable attack.

"You have not forgotten," she went on impetuously. "It was in the crowd just before they gave you the flag. wild to you-I can't help that-but why | by the litigation. should you try to make it harder for

From the porch came a strong voice, "Vanrevel!"

"God knows I haven't meant to," said Tom in bitter pain. "I don't understand. It's Cummings calling for me. I'll go at once. I'd hoped, stupidly enough, that you would tell me whom it was you meant when you spoke to Crailey, so that I could help to make it surer that he'd come back to you. But I've only annoyed you. And you were here-away from the house-avoiding me and fearing that I"-

"Vanrevel!" shouted William. (Mrs. Tanberry had not told Lieutenant Cummings where to find Miss Betty.) "Fearing? Yes?"

"Fearing that I might discover you." He let his eyes rest on her loveliness once more, and as he saw that she still trembled he extended his hand toward her in a gesture of infinite gentleness, like a blessing, heaved one great sigh and, with head erect and body straight, set his face manfully toward the house.

He had taken three strides when his heart stopped beating at an ineffable touch on his sleeve, for, with a sharp cry, she sprang to him, and then, once more, among the lilac bushes where he

"You mean," he whispered brokenly,

"you mean that you"-"Yes, always," she answered, rushing through the words half in tears. "There was a little time when I loved what your life had been more than you. The president, Mrs. Bumpus, was in the chair for the brief business meeting and introduced Mrs. Welch, chairman of the Philanthropy committee, who had the afternoon's program in charge. Mrs. Welch prefaced her introduction of the speaker of the afternoon, with an appeal for aid in the work of Visitng Nursing. She said it was a needed philanthropy in Quincy as was shown by the great number of visits made by the Visiting Nurse. She hoped all charitable organizations would become when more money would be needed.

Useless Conferences on Railway Rate Legislation

SENATORS ARE DIVIDED

House Bill Provision For Judicial Review of Orders Made by Interstate Commerce Commission Not Greatly Favored

Washington, Feb. 15.—In the senate committee on interstate caucus, the line between the faction which advocates the passage of the house railroad rate bill or the Hepburn bill, and the faction contending for the court review feature, has been drawn so taut that all thought of compromise has been abandoned. All conferences have been between senators thoroughly harmonized for one position or the other and have been for the purpose of lining up for a passage at arms.

Nearly a hundred amendments to the house bill are pending before the committee and nearly a score of these bear on the judicial review of orders made by the interstate commerce commission. If many of these amendments are contended for with stubbornness a vote on the bill itself may be delayed for several days, despite the agreement in committee that a vote shall be taken Friday. It is not improbable that both factions may be willing to transfer the contest to the floor of the senate and that no rollcall will be had in the committee.

If outward appearances may be believed, in the face of the manipulations to corner votes, the house Hepburn bill cannot be taken from the committee by a majority vote. This is not conceded by Senators Dolliver and Clapp, although they admit that they have not a majority of the commit tee votes corralled for the house bill in its present form. They assert, however, that they will not accept an amendment of any character specifically providing for judicial review of the orders of the commission and that they will bring about a minority report if a majority of the committee cannot be

On the other hand, Senators Aldrich, Foraker, Elkins, Kean and Crane, the leaders of the faction demanding less radical legislation, insist that they have enough votes in the committee to amend the bill. They say, nevertheless, that they do not purpose to substitute a measure for the house bill, nor to adopt der of the commission from becoming

### "JUDGE-MADE LAW"

Declaration That Labor Men Have Had Enough of It

Boston, Feb. 15 .- Representatives of organized labor appeared in force at QUINCY MUSIC HALL the state house last night to express their views on two impending bills affecting labor unions. The legislative committee on labor held a hearing on the so-called picketing bill and the intimidation bill. The picketing bill was favored by the labor men who spoke, but the intimidation bill met with their Washington's Birthday, Feb. 22.

The picketing bill provides that peaceful communications may be had by strikers with applicants for positions made vacant by reason of an industrial dispute, while the intimidation bill defies the word "intimidate" as meaning threat of loss of employment, threat to injure or interfere with the business of any employer to compel him to discharge from his employ or to refrain from employing any person.

Frank D. Foster of Boston conducted the Federation's case. He said that the laboring men and the members of labor unions were tired of the different interpretations of the law handed down by the various judges. The labor men had had enough of "judge-made law" and desired the commonwealth to decide that there might be peaceful communication.

BRADY OUT OF OFFICE President Receives and Accepts

His Resignation Washington, Feb. 15 .- President Roosevelt yesterday afternoon received and accepted the resignation of John G. Brady, as governor of Alaska. The resignation was handed to the president on behalf of Brady by Judge

Peele of New York. No announcement of the successor to Brady yet has been made, but it is known that the president has in mind the man he desires for the office. It is not unlikely that the appointment when made will go to Lieutenant D. H. Jarvis, formerly an officer of the revenue cutter service, who conducted a relief expedition several years ago to a party of whalers at Point Barrow and who now is the general manager of a large salmon canning company on the north coast.

Made Serious Allegations

Albany, Feb. 15 .- A. B. Woodruff, a lawyer of New York city, appeared before the assembly ways and means committee in advocacy of the resolution of Assemblyman Hoffman, which provides for an investigation of the judiciary of the state. He submitted an affidavit purporting to be signed by a former chief detective of the Metropolitan Street Railway company, which makes serious allegations concerning representatives of that company in the trial of law suits. The committee took no action on the resolution.

New York, Feb. 15 .- John Angeloni, a Brooklyn jeweler, was arrested by secret service officials, charged with making counterfeit silver dollars. At his home were found quantities of silver and copper and moulds and other appliances for turning out the spurious coin. The dollars made by Angeloni were so perfectly made as to almost defy detection. It is supposed that Angeloni and his daughter, who was also arrested, have put many thousands of the coins in circulation.

BALFOUR YIELDS

He Crosses the Bridge Which Chamberlain Made For Him

DIVISION OF UNIONISTS

Former Premier Says It Should Not Prevail Through Differ. ences of Opinion -- Wants Corn Duty and Manufactures Tax

London, Feb. 15.-Interesting correspondence between former Premier Balfour and Joseph Chamberlain, published on the eve of the Unionist party meeting at Lansdowne house, disposes effectively of the report that serious difficulties exist between the factions of that party. Balfour's letter is as follows:

"My Dear Mr. Chamberlain-The controversy aroused over the fiscal question has produced not unnaturally the impression that the practical dir. ferences of fiscal reformers are much deeper than in fact is the case. The exchange of views which has constantly taken place between us leads me to hope that this misconception may be removed and with it the friction which has proved so injurious to the party. My own opinion, which I believe is shared by the great majority of the Unionist party, may be briefly summarized as follows:

"Fiscal reform is and must remain the first constructive work of the Unionist party. The objects of such reform are to secure more equal terms of competition for British trade, and closer commercial union with the col-

"While at present it is not necessary to prescribe the exact method whereby these objects may be attained, it is in expedient to permit of differences of opinion regarding these methods to divide the party. Though other means may be possible, the establishment of a moderate general tariff on manufactured goods, not imposed for the purpose of raising prices or giving artificial protection against legitimate competition, and the imposition of a small duty on foreign corn, are not in principle objectionable and they should be adopted.

To this letter Mr. Chamberlain re-

plied as follows: "My Dear Mr. Balfour-I cordially welcome your letter of today in which you have summarized the conclusions we reached during our recent discussions. I entirely agree with your description of the objects we both have in view and gladly accept the policy you indicate as wise and desirable for the Unionist party to adopt in endeavoring to give effect to this policy and in defending all the Unionist principles. Any services I can render will be en-

tirely at your disposal." Mr. Balfour finally has crossed the bridge which Chamberlain held out for him, and in the above correspondence, published late last night, he takes his tariff reform program. The fact is heralded in the Liberal newspapers today as "Balfour's Surrender," "Chamberlain's Victory," etc. while The Daily Graphic, speaking on behalf of the Unionist free traders, deplores Balfour's "journey to Canossa" as the price of his retention in the leadership of his

The Chamberlainite journals express complete satisfaction and attach no importance whatever to the Balfourian limitations which the former premier places upon his acceptance of the proposed duty on corn and a tax on manufactures. The Standard says that "the agreement between the two foremost statesmen of the party is absolute and

all-embracing." Mr. Balfour's surrender, though delayed till the eve of the Lansdowne house meeting, quite evidently was arranged at the famous dinner conference with Chamberlain and enabled the latter to publish his recent repudiation of desire for the leadership which suddenly stilled the newspaper

attacks on Balfour.

As though to emphasize the fact that there will be in the future a dual leadership of the Unionists, it is announced that, in addition to the provision of the customary private room in the house of commons for the official leadership of the opposition only, a similar room has been allotted to Chamberlain. This is unusual, if not unprecedented. Balfour and Chamberlain are still in negotiation with regard to reorganization of the party machinery.

Mr. Balfour's conversion to Chamberlain is likely to be unpalatable to a large section of the Unionist party, and the Lansdowne house meeting, which the Duke of Devonshire, Lord Hugh Cecil and other free traders will attend, is likely to be the arena of some plain speaking on the subject.

United States Should Have Warships and Troops Ready to Show China That Our Eyes Are Open -- Conger Gives His Views

Los Angeles, Cal., Feb. 15 .- Edward M. Conger, for many years United States minister to China, and who is staying at Pasadena for the winter, is quoted in an interview on the present anti-foreign agitation in China, as fol-

"The United States should warn China against a repetition of the terrible riots of a few years ago. A show of warships should be made to impress upon the government of China that the troubles must not be repeated and will not be tolerated. I am satisfied that serious trouble will come, but do not expect that it will be directed especially against the United States, but will be against the reigning Manchu

"The Manchurians are insignificant in numbers and the present uprising is for the purpose of establishing a new dynasty and not to oust foreigners, continued Conger. "The most violent disturbances will be in the southern provinces and will endanger all foreign interests.

"Americans within the zone of the rebellion are liable to be hurt before they can get out, and that is why the United States should let China know anything inimical to the interests of its citizens. If the Chinese can be impressed that we are on the alert and that we mean business our interests will be secure. If China is permitted to think that it can ignore our interests, some thing terrible will happen.

"The trouble now will be a great minority. It has been brewing for is only the best. many years and has now apparently reached a climax.

"I believe the boycott on American MEATS, etc. goods is now beginning to operate against the Chinese themselves. Chinese merchants, long before this boycott was instituted, stocked their es tablishments with goods from the United States. When the boycott was declared these merchants could not or dared not sell their goods.

"We learned a lesson in 1900 and China learned one, too. Our expe rience should compel us, and will, t take precaution. In the future it would be the part of wisdom to have our war ships and troops ready, if only for the purpose of letting China know that we are watching her."

Secretary Root thinks that trouble will be averted. Returning army men merchants, missionaries and officials from China state that they believe a massacre of foreigners cannot be prevented.

PROSPECTS OF SUCCESS

United States Is Taking Active Part In Moroccan Conference Algeciras, Feb. 15 .- Yesterday's optimism regarding the outcome of the

Moroccan conference appears to have Real Estate Bought and Sold, been as greatly exaggerated as was Monday's pessimism. It must be understood that one conversation will not suffice to settle the Franco-German difficulties, but it is the fact that negotiations are progressing with the same good prospects of success which always have existed. There is the best authority for denying the statement emanating from Berlin that M. Revoil. the principal French delegate, proposed that France, Spain and one other power shall control the Moroccan police. On the same authority it can be said that Telephone, Quincy 46-9. no importance should attach to the alternations of optimism and pessimism in the French press.

The efforts of disinterested powers, particularly the United States and Italy, have become very active in the last three days towards securing a satisfactory arrangement of the questions of the state bank and the police, which both form the subject of conversations between the delegates of the powers directly interested. The German del egates are fully aware of the fact that France considers that control of the po lice is absolutely necessary to her position on the Mediterranean and as a Mussulman power. The admission of that fact as an absolute condition is necessary to the success of the conference and the disinterested powers will seek if possible to find concessions in

### STRICT RAILWAY RULES

Trus!s and Roads Handling Coal Said to Make Excessive Profit Over Independent Operators ... Railroads Own Mines

Washington, Feb. 14.-Representative Gillespie (Tex.) made two unsuc- r 12 13 abc cessful attempts in the house to obtain consent to have included in the house r 1 43 abc record a letter from the Bituminous r 2 13 abc Coal Trades League of Pennsylvania, r 3 13 abc denouncing the alleged combination of coal-carrying railroads to control and regulate the output of coal in the r 5 13 abo United States. Both times Representative Payne (N. Y.), the Republican floor leader, objected, and Gillespie finally r 6 43 abc abandoned the effort.

The letter, which is referred to as a petition for relief, was prepared by Secretary Drane of the Bituminous Coal Trades League of Pennsylvania. r 11 13 abo Mr. Drane calls attention to the threatened strike of the hard and soft coal miners and claims there has existed for a long time a combination of the Pennsylvania railroad with the an- r 8 43 abc thracite and bituminous coal mining r 9 13 abc and shipping companies to stiffe all competition in violation of the anti-

trust laws. The letter asserts that the Pennsylrania railroad has established rules that only certain markets can be supplied by one region, and that the private cars of the soft coal trust have inlimited choice of market to ship coal in accordance to the demands therefor. The independent operators, the letter continues, have to see their mines idle for weeks for want of cars, and their labor moves to other districts in search of steadier work. Thus flourishing towns have been abandoned by business people to follow the mine worker

to the busier region. Mr. Drane relates the method by which, he asserts, the railroads operate o have the independent operators' coal delivered at tide water after such delays as would cause the consignees to refuse to take it. Meantime, he adds, purchases would be made of the favored

shippers. He charges that the soft coal trust always fixes a price which gives the trusts and the roads hauling the coal to market an excessive profit over and bove the price the independent operafor can get; that the hard coal railroads are all common carriers and miners and shippers of their own anthracite product; that the railroads pool and regulate the price of hard coal by selling it direct to the dealer, to be sold to the consumer at the prices fixed by the

Coal Strike Possibilities Pittsburg, Feb. 14 .- President Rob-

bins of the Pittsburg Coal company, discussing the possibilities of a coal strike in the bituminous fields, seid that unless John Mitchell reconvened the miners and a resolution was adopted reseinding the Ryan resolution, he regarded the suspension of the production on March 31 as inevitable. The operators, Robbins said, had made their ultimatum in the joint convention and, speaking as an officer of the National Civic Federation, that body would make no overtures for peace between the contending interests. Robbins regarded the interstate agreement as at an end unless Mitchell and his collaborators ask for a renewal of the conference and are willing to settle on the basis of the current wage scale.

### ALCOHOL IN BREAD

Enough to Give One About Four Pints of Whisky a Year.

"You consume four pints of whisky "Now, don't be angry or shocked. I know that you're a strict teetotaler, but just the same I know that you've absorbed that much alcohol. How? Well, simply by eating bread.

"It has long been known that the fermentation of bread caused the formation of alcohol, but it was supposed Katherine, the 12-year old daughter that it passed from the dough during of .800 per cent of alcohol to the loaf. You must remember that in many countries strong liquors are brewed tertained a number of her young friends from bread. Kvass, the mild Russian beer, is brewed from brown bread.

"Now, if you eat 400 loaves of bread every year you must perforce have assimilated twenty ounces of alcohol, The third annual coffee party and which equals four pints of rye whisky.

"In ten years," concluded the amateur chemist impressively, "you have eaten 4,000 loaves of bread, and in that number of loaves is about 200 ounces of alcohol, or the equivalent to nineteen quarts of whisky. Think of the saturnalia you have been on for the last ten years, and you never knew enough to complain of a big head in the morning."-New York Press.

Mrs. Pepys' Temper. "Being at supper my wife did say something that caused me to oppose her in. She used the word devil, which vexed me, and, among other things, I said I would not have her to use that word, upon which she took me up most weeks. Funeral services were held tofore, for less than that would have without great discretion I shall go near to lose, too, my command over her, and nothing do it more than giving her this occasion of dancing and other pleasures, whereby her mind is taken up from her business and finds other sweets besides pleasing of me, and so makes her that she begins not at all to take pleasure in me or study to please me as heretofore." - Diary of

Samuel Pepys.

Believing as we do, that the public chools are the bulwark of the nation, we feel justified in insisting that suitable buildings be provided and that the excessive crowding of young children rooms now necessarily existing, cease at the earliest possible moment. Therefore, the requests of the Committee for proper buildings in the above mentioned districts is not unreasonable and should not be ignored.

Superior educational results can be Next Tuesday Evening, Feb. 20 obtained only under favorable conditions, both physical and mental. The proper housing of the pupils would go a long way toward satisfying the physical conditions. The mental conditions may be and are largely influenced by the physical conditions which surround the young pupil. In this connection, attention is called to the fact, which under the management of John J. has been presented in former reports of Whalen. the School Committee, that our corps of teachers is weakened every year by the loss of experienced teachers who are attracted by the larger salaries paid

in other cities. It is manifest to the School Committee that a change of teachers during a school year must affect unfavorably the progress of the pupils directly concerned in such change. And when it happens, as in the past year, that a large number of experienced teachers are withdrawn from the teaching corps the effect upon the pupils must of necessity be bad and must place the pupils directly affected at a disadvantage in comparison with other pupils in our own city and at a greater disadvantage when compared with the pupils in cities paying higher salaries.

We desire to call attention to a few facts in connection with the question But his clean white place of business is replete with a full line of the of teachers' salaries.

It has been found by investigation that the average maximum salary of grade teachers in all cities of this state having less than 10,000 pupils is ninetyfive dollars a year more than the maxi-Mr. Brooks is so thoroughly known in Quincy as a first class judge of mum salary of the same class of teach-Meats and fair dealer with all who patronize him that it is not necessary ers in Quincy.

OUR LANGUAGE.

The Words a Man Uses and the Words He Might Employ.

How many words are possible? Starting from the four and twenty alphabetic sounds, Leibnitz calculated the combinations at 620,448,701,733,239,-739.360.000. But many of these combinations would be unpronounceable even in Welsh. In Chinese every syllable is a separate word. Does man's stock of words grow rich-

er or poorer with time? M. Moncalm

foresees an ever higher intellectual destiny for the race in the future. "Our fathers," he says, "did not know the thousandth part of our vocabulary, which is very copious." Certainly the New Dictionary is a much larger work than Johnson's, and we doubt not that primitive man talked less than an M. P. does, though even he had his palavers and congresses. But if any one were to take down the talk of an average modern undergraduate or society girl we doubt if it would be found to contain more than 250 vocables, where an educated Elizabethan or Caroline would have employed several thousand. Nothing is more striking in the old prose writers than the rich variety and imaginative picturesqueness of their language. Not only are we lacking in concrete imagination and ashamed to go afield out of the beaten track of speech, but phrases which were when first devised forcible and strong have through long currency lost their edge. Three-fourths of the expressions we use have ceased to be effective metaphors and become conventional and lifeless .-London Saturday Review.

Pacific Express Train Wrecked

In Railroad Yard at Boston Boston, Feb. 16.-The Pacific express train on the Boston and Albany division of the New York Central system which left the South Union station for Chicago and the west via Buffalo at 8 o'clock last night was wrecked in the Huntington avenue yard, about a mile from the terminal. One person was killed, five were seriously hurt, and several others sustained minor in-

The accident occurred at 8:10 at a point where the railroad widens from two-track to a four-track road and was caused by the express side-wiping a train of empty passenger coaches at a switch. Engineer Otterson of the express train supposed that he had a clear track as, according to his statement made after the accident, the signals indicated no danger. The express was attaining good headway when it collided side-on with the string of empty coaches as they were leaving one of the numerous parallel tracks in the yard to go upon the main line. The express locomotive grazed several of the empty coaches, but was not materially dam aged. Three cars in the centre of the express received the full force of the backing train, and were piled up in confusion at a switch point. One of the express coaches partially telescoped the car immediately in front of it and the

ends of three cars were smashed in At first it was not known that anyone had been killed, but in the wreckage of one car was found the body of Meike Jonassen, a Swedish boy, who arrived on the steamer Ivernia yesterday and was bound to a town in Illinois. Most of those injured were also immigrants on their way to the western states.

Missionaries In China Are Advised to Gather

ATTACKS ON MISSIONS

Many Great Provincial Viceroys Displaying Marked Anti-Foreign Attitude -- Washington Is Keeping In Touch With Events

London, Feb. 16.—Definite dispatches from Shanghai which tell of attacks on foreign missions in China and of attacks on prominent French residents have aroused the great nations of the earth, and the squadrons at Shanghai, Canton and other treaty ports will be at once reinforced.

Orders have been sent to officers in command of warships at those ports to protect any who are in danger from attacks of Boxers or the revolting Chinese element, and missionaries in inland towns and villages are being advised to gather in treaty ports that they may be taken away by water in case of at-

The correspondent at Shanghai of The Standard telegraphs as follows: 'News has arrived here of another at tack on a foreign mission at Nganking. province of Nganhwei, on the left bank of the Yangtsekiang river. No loss of ife is reported.

"Many of the great provincial viceroys are displaying a marked anti-for-eign attitude which they would hardly dare so openly to assume unless they thought that Pekin approved their conduct. In the foreign settlements of treaty ports efforts are being made quietly to recover privileges granted to foreigners.

"In some quarters Japan is believed to view the possibility of armed intervention being necessary with equanimity, since it would provide her with occasion to obtain from China what she failed to exact from Russia.

"In Shanghai two additional com panies of volunteers are being raised. It is reported that the municipal council favors strengthening the Sikh police force by 500 men. Unfortunately it is at this juncture that it has been decided to reduce the British China

Washington Hears of Attacks

Washington, Feb. 16.-Cables from Shanghai report attacks on the foreign nission in Nganking. Other outbreaks are reported in various sections of the southern part of China and it is stated that foreigners are in danger.

The war and navy departments continue to plan for resources in case of immediate war. Troops in Utah, Wyoming and other western posts are held in readiness to transport to San Francisco and Seattle to take the place of troops held there for immediate shipment to the Philippines and China

Worried Over Missionaries

Nashville, Feb. 16 .- The executive ttee of the Board of Foreign Missions of the Presbyterian church of the United States, through Secretary Chester of this city, has cabled its missionaries in China, cautioning them in regard to the uprisings in that country. The church has 78 missionaries in China and much uneasiness is felt in regard to their safety.

Washington, Feb. 16 .- Secretary Hitchcock, at an executive hearing before a sub-committee of the house appropriation committee, explained that 600 indictments and 400 land fraud convictions have been obtained by the interior department in 19 states. To the great surprise of the sub-committee

Hitchcock said that Louisiana leads

in the number of land frauds uncovered

by his department and has more than

Land Frauds Are Widespread

any of the other states which are supposed to be the chief offenders. Terrific Explosion Kills Two Men Geneva, Ind., Feb. 16 .- The magazine of the Hercules Torpedo company was destroyed by an explosion. Two men were blown to pieces and two teams of horses were killed. The men were engaged in unloading nitroglycerine from the wagons when the explosion occurred. Nothing is left of

the magazine but a hole in the ground

15 feet deep and 25 feet in diameter. Balfour May Have to Fight London, Feb. 16 .- An urgent meeting of the City Liberal association has been summoned to consider the situation consequent on Balfour's latest attitude regarding tariff reform. It is said that he may yet have to fight for his seat, which Alvan Gibbs (Unionist; resigned after Balfour was defeated, in order that Balfour might be able to return to parliament.

Cuban Courtesy to Americans

Santiago, Cuba, Feb. 16 .- The San Carlos and Union clubs gave a ball last night in honor of the Santiago battlefield commission. The function was the most brilliant ever witnessed here. The commission departed this morning for Daiquiri, where the monument to mark the first landing of American troops will be dedicated.

McCall Holding His Own

Lakewood, N. J., Feb. 16 .- The condition of John A. McCail, formerly president of the New York Life Insurance company, remains practically unchanged. If anything he is somewhat better than he was two days ago. Mc-Call has taken very little nourishment during the last few days.

# Railroad Stories

Have you ever sat on the shady side of a locomotive while it waited on a siding and listened to an old engineer's story of a hairbreadth escape, a close shave, attested by the honorable scars he wore? Such a story you never forget—such are

## By Frank H. Spearman told with the embellishment of literary

art which we have secured for our columns and will begin to print in our next issue. Remarkably good stories these are (best you ever read, in fact). The author takes you into the dingy offices of the Mountain Division where you listen with breathless interest as stories of the switchman, the roadmaster, the dispatcher, the nightman, the master mechanic, the operator and the trainman are told in the breezy speech of the railroad.

These Stories Will Begin in Our Next Issue. Read the First One and You Will Read the Rest

QUEER DOINGS ALLEGED Failure of a Recently Organized Bank at Chicago

Chicago, Feb. 16 .- The Bank of America, incorporated last December with a capital stock of \$250,000, last night was placed in the hands of a receiver by Judge Chytraus. The bill asking for the receivership holds former Judge Abner Smith, president, and three other officers of the bank responsible for the alleged insolvency of the

In the few weeks since the opening of the bank Smith is charged with having so manipulated securities, mortgages and notes and the stock of the bank that he has obtained amounts aggregating \$146,000.

The operations of Smith and the other officers mentioned in the bill are said to have begun before the bank opened for business. Smith is said then to have borrowed money and placed it in the treasury to deceive the state auditor into believing that the stock had been paid up.

Decision Will Not Please Garmany Washington, Feb. 16.-After a con ference at the White House it was de cided that there should not be open hearings before the board of general appraisers in cases of contested valua tions of imported goods. In view o the fact that the new maximum and minimum German tariff goes into ef fect on March 1 and of the wish of the German government that the hearings in contested valuation cases should be open, the conference assumed interna-

tional importance.

Interference in Love Affair Halifax, Feb. 16.-Mr. and Mrs. Jeremiah Embree of East Amherst have been arrested, charged with sending threatening letters through the mails to a young woman to whom their son has been paying attention, and also with attempting to poison her. The young woman has received many threatening letters, and cake which was sent to her is said to have contained a large quantity of paris green. The Embrees were remanded for trial next

Inquiry Comes Rather Late Rome, Feb. 16.-Judicial authority has been obtained for the opening of an inquiry into the disappearance of Giorgione's painting, "Christ Bearing the Cross," from the Loschi palace at Vicenzi. The picture is now in the collection of Mrs. John L. Gardner at Bos ton. It will be impossible to prosecut those responsible for the sale of the painting to Mrs. Gardner, because more than five years have elapsed since it passed into her possession.

Insurance Probing Not Ended New York, Feb. 16.—Several officers of the Mutual Reserve Life Insurance company were in conference at the dis trict attorney's office with assistants to Mr. Jerome. The officers were accompanied by counsel. It is understood they were called to identify certain books of the Mutual Reserve and some entries made in them. Two assistant district attorneys have been working of the company's books for several weeks

Last Tributes to King Christian Copenhagen, Feb. 16.-When the closed at the end of the last day of the lying-in-state of King Christian there was a crowd of 10,000 persons still i waiting to view the coffin of the dea monarch. King Frederick was deeply moved and ordered that the doors be reopened, thus enabling thousands more to enter the cathedral during the

next two hours. Hendricks Retires From Office Albany, Feb. 16 .- Francis Hendricks of Syracuse is not a candidate for reappointment as state superintendent of insurance, which position he has oc cupied since his appointment in January, 1900. Governor Higgins last night lefinitely announced this fact and declared that Hendricks' retirement is the result of his advanced age and infirm physical condition. His term ex-

Washington, Feb. 17 .- In the beautiful white and gold East room of the White House, a few minutes after noon today, the venerable Right Rev. Henry Y. Satterlee, bishop of Washington, of nounced the words which united in marriage Alice Lee Roosevelt, eldest daughter of the President of the United States, and Nicholas Longworth, the representative in congress from the First district of Ohio

A halo of a hundred years of romantic White House history hung over the bridal couple. Miss Roosevelt was the 12th bride, according to accepted authorities, to plight her troth within its classic walls, and the identical spot where she today joined hands with the comfortable degree of health although pointed as one of the nautical training der, indeed, must have been the recollections of Mrs. Sartoris of that day, for to be thy wedded wife, to live together she was one of the witnesses of Miss Roosevelt's wedding.

Since that day, a third of a century ago, tremendous changes have taken place. Then this country scarcely had recovered from the awful shock of great internal conflict, and its place among the nations of the earth was conjectural; now, America stands forth unchallenged as among the first powers of the world, in peace as well as in war.

potentates pay homage today to the daughter of the president. Glad they were to extend their courteous tributes to the president's daughter, and doubly glad were they to extend them to the dainty bride for herself. Kings and emperors, through their personal representatives, joined with the American people in extending to Alice Lee Roosevelt, the American girl, their heartfelt good wishes.

It had been the desire not only of Miss Roosevelt, who was most concerned, but of President and Mrs. Roosevelt, that the wedding today should be celebrated in a manner com paratively quiet; that it should be a family affair. This, it shortly was disclosed, could not be gratified. As it finally developed, the wedding was the most imposing function that ever took place in the White House.

11 o'clock. They entered by the East terrace and passed up the main staircase directly to the historic East room. Beautiful at all times, the famous room today was exquisite in its classic splendor. The shades were drawn at all of the windows and the handsome brocaded draperies in gold harmonized perfeetly with the ivory white of the room. From the hundreds of softly shaded electric lamps in the magnificent crystal chandeliers perfect light was diffused throughout the room.

The floral decorations were more elaborate than any heretofore have been in President Roosevelt's administration. While unnecessary space in the great appartment was not taken up with decorations, as every inch of it was needed to accommodate the guests, two huge vases of rare design, each filled with Easter lilies and fern fronds, occupied each of the mantles and two handsome tables, one each at the north and south ends of the room, bore jardinieres of flowing rhododendrons.

Two or three minutes after the entrance of Mrs. Roosevelt, Mr. Longworth, accompanied by his best man, Thomas N. Perkins of Boston, descended the main staircase and, entering the East room, took his place at the foot of the platform to await the arrival of the bride.

Promptly on the stroke of noon, Miss Roosevelt, escorted by the president, descended, by the elevator, to the west end of the main corridor. There awaiting them were the ushers selected by Mr. Longworth. All of them are his longtime personal friends and several were his classmates at Harvard.

Preceded by the ushers, the president, with the bride upon his arm, proceeded to the East room, the orchestra rendering the march from Tannhauser. Miss Roosevelt never loked better. The beauty of her face and figure were accentuated by her exquisite attire and by her surroundings. Her bridal dress was a magnificent creation of heavy white satin, point lace, chiffon, filmy tulle and silver brocade. The material from which the gown was made was manufactured especially for her and the design was destroyed as soon as the necessary amount of material for the court train of superb silver brocade.

# BONI GETS A WRIT

Countess de Castellane Inaugurates Legal Proceedings

### FOR SEPARATION

Cannot Use Title of Countess If Decree is Extended to a Divorce-- Lawyers Making Inventory of the Count's Debts

Paris, Feb. 17 .- The Countess de husband, Count Boni de Castellane. An legal proceedings. The count accepted again. service of the writ, even calling upon the countess' lawyers to fix a place where the writ could be delivered.

The bill of complaint was filed at the same time. This follows very closely the prima facie showing when the countess first asked permission of the court to bring action. It mentions no names, but particularizes certain incidents in which the count is alleged to have been involved. It asks for a decree of what the French law calls "separation of body and property," meaning complete separation without a dissolution of the marriage bonds. Count Boni will not contest the granting of the decree.

The serving of the writ followed the second fruitless attempt at reconciliation. The count now has abandoned all hope in that direction, and has announced that if his wife will pay his debts and allow him an income which will be equal to the one he had before his marriage, he will not make any con-

net and Bertinot. The countess will retain her title untitle of count without reference to the results of the case.

On next Tuesday, if the countess' application for a separation is not contested, the decree will be pronounced by Judge Ditte.

The countess' lawyers are now engaged in making an inventory of Boni's enormous debts so that the financial negotiations, which are a prelude to the final court action, may be satisfactorily arranged.

These negotiations promised for some days to be very complex, inasmuch as the count's future financial needs were unknown to the wife's lawyers. At that time the count announced to one of the countess' lawyers, substantially in these words:

"I declare to you, and I swear to the exactness of my declaration, that I not only do not demand, but that I will not accept, any sum beyond that small amount which constituted my income before my marriage."

### Rate Deadlock Continues

Washington, Feb. 17 .- "We have heard as many opinions on the railroad rate question as there are members of the committee and each man is afraid to bring the court review feature to a vote," said Chairman Elkins, when the senate committee on interstate commerce adjourned until next Thursday. This statement was made in jest, but it is believed that it more nearly expressed the situation than any previous alleged authoritative announcement.

How the Torrey and Alexander Revival Is Stirring Philadelphia to Its Very Depths.

By GEORGE T. B. DAVIS. The revival campaign led by Evan-

gelists Torrey and Alexander is stirring Philadelphia in a way that it has never been moved before since the days of Moody and Sankey. Religion seems to be the chief topic of conversation in the homes and restaurants and wherever people congregate. A city politician has expressed the fear that political issues may be lost sight of in | the revival enthusiasm which is being awakened.

Last Sunday the revival fire burst out into a bright flame, when at the big Torrey-Alexander meetings at the seem to be almost the only songs one armory both afternoon and evening hears on the pianos and in the homes over 200 converts were recorded among | throughout the city. ### "Loveliest People I Ever Met."

During the first week the evangelists had a hard time in waking up the Christians of Philadelphia to go after the unsaved. As Dr. Torrey saw their slowness in soul winning he cried out one night: "You are the laziest crowd charged with the robbery of Edward of Christians I ever struck in my life, titled "The Old Time Fire." the most notable of the caricatures, Dr. Torrey has spoken straight from the shoulder to the people of Philadelphia. One night in speaking on the Ten Commandments he spoke in scathing language on certain modern evils. At one point, in speaking of the sixth com-

mandment, he said: "There is another kind of murder, and I hardly know how to approach it. It is the most awful and the most appalling kind of all kinds of murder, a kind of murder that is sweeping over our country. A series of revival meetings has been commenced by the evangelists in the various universities and colleges of Philadelphia. The first was held in the Medico-Chirurgical college. Others will be held in the University of Pennsylvania and in other schools. The faculty and 700 medical students gathered in the operating amphitheater to hear the famous evangelists and as the college yell. Amid hushed attention Dr. Torrey preached for threequarters of an hour to the student body. He said in part:

"There is no more noble profession in the world than yours. If I were not There is no man on earth who can wield a greater power for good than a Christian man of medicine. Your mere example, given at a time when your patients realize that the things of this world are not all, can accomplish won-

I believe there is a devil-first, because the Old Book says so, and, second, because my experience and my personal observation teaches me that there is a personal devil. Theosophy, Christian Science, Spiritualism and all the other cults are simply footprints of the devil. They are all rot, and yet some of the ablest men and women in this country and England believe in one or other of them. They are not insane; they are just as sane as we are. What does it mean? Only that the devil is more than a match for you or me. We

### need a hiding place." Striking Moral Results.

The moral results of the revival are being strikingly seen in the part of the city in which the meetings are being held. Not a single prisoner appeared in the police court before the magistrates on Sunday from the three districts which adjoin the armory where the revival meetings are being held. This is an event, it is stated, which has rarely if ever occurred before. The policemen in the district declare that they have had little or nothing to do since the revival began. It is said that the saloon keepers are doing scarcely a third of their usual amount of business. This new order of things is declared to be due to the fact that the young men of the neighborhood are attending the revival meetings instead of loafing on the street corners and in the saloons. When a policeman was asked about the change he said: "We haven't enjoyed such a cinch in my twenty-five years' experience. I hope Dr. Torrey and Mr. Alexander decide to make the armory a permanent place for revivals I haven't made an arrest for three

The Quincy Gas problem will have another inning at the State House on Tuesday of next week on the petition of the Citizens' Gas Light Company for approval of contract with the Boston Consolidated Gas Company, to purchase gas. It is a peculiar contract and one upon which Quincy should desire light. Perhaps the city will have plenty of light if it gets an abundance o gas, but it should be assured that i will get the gas under the proposed contract. Not only the Mayor and City Council should be interested, but the tary Darling have recommended that Board of Trade, the Citizens' Association, the advocates of municipal ownership and the people generally.

The local retail grocers realize now the importance of the enactment of a pure food bill. None of them care to sell adulterated articles or food where harmful preservatives are used, but they are victims of circumstances. They do not knowingly buy impure food, but it seems that some which have stood high are under the ban. There should be some way to get at the manufacturers rather than at the retailers. It seems also that grocecs rather than housekeepers have been the victims of short weight. That a grocer who buys a barrel of pickles branded 1200 is liable to receive less than 1000, and there is likewise a shortage in the net weight of prunes, dates, and many other articles in orignal packages, which the grocers sell at retail. Most of the grocers have been ignorant of this shortage, and often times have sold goods at a loss. It is not surprising that the grocers now work.

The Meadow Brook, Crystal Spring and Rogers Ice companies have commenced to house this winter's crop of ice, and the Eaton Ice Co. will commence to morrow morning.

The Meadow Brook and Rogers Companies report having ice between six and seven inches, thick and the other companies ten inches.

While the ice is not as thick as in some places it is believed that it will be better to fill the houses with seven inch ice than none at all.

### Drift of Opinion.

Susan B. Anthony is 86, and not ashamed to own it, but we fear she is not improving in temper. The President sent her a note of congratulation, but that did not please her, for she said she would rather he would say a word in favor of woman suffrage than wishing her long life and happiness. Mrs. Howe and Miss Anthony are fine examples of the staying qualities, the stimulating power, as it were, of the suffrage movement. It has not worn them out, but they are as vigorous mentally as they were half a century ago. - Lynn Item.

The younger McCall's statement that the late president of the New York Life Insurance Company is not a rich man was met by the question: "Dld he not receive a large salary?" "Yes, but he lived to the limit of it," was the reply. 'To the limit' -- it describes more in America than Mr. McCall.-Springfield

Miss Florence and Miss Ethel Hill of Walker street gave many of their friends a delightful evening Wednesday, in compliment of St. Valentine. The house was decorated with green and red, and hearts were suspended from every piece of bric-a-brac and moulding. The game of whist was introduced which Miss Eleanor Nelson and Mr. Fred Reyner were prize winners. Consolation gifts were tendered Miss Helen Coombs and Mr. Franklin Bristol. The favors-were valentines. Wagner catered crowning the evening with a delightful repast. Guests were present from Waltham, Roxbury, Boston, Somerville, Dorchester, Wollaston and Atlantic. . . .

Mr. and Mrs. H. D. Fowler of 144 Philipps street, Wollaston Park, on Thursday evening of this week celebrated their thirtieth wedding anniversary. They received the congratulations from more than a hundred of their friends, who assembled at their house from far and near. Not only were they congratulated upon the fact that they had been thirty years married but also because they have been blessed with thirteen children, every one of whom is alive and well, and all of whom were present at the occasion. The house was decorated prettily and Mr. and Mrs. Fowler received beneath a bower of artifical chrysanthemums. Many beautiful presents were sent, several from distant points in Canada. where thirty years ago the couple were married. Among those present was Hon. Thomas Heatherington, formerly a member of the Canadian Parliament and now the resident Canadian agent in Boston for the distribution of land grants in the Canadian northwest. He was accompanied by Mrs. Heatherington, who arrived in Boston only Wednesday from her Canadian home. Generous Donation.

The King's Daughters of Norfolk County will rejoice to learn that a generous donor who wishes to remain unknown has given one thousand dollars to their pet charity, the Pond Home for Aged Men and Women, the money to go toward a fund for enlarging the building which is far too small to accommodate all who apply. The officials at the head of the institution say that double the number of inmates could be cared for with an increase of only one third over present cost. It is earnestly hoped that this gift will stimulate other kind hearts to contribute to the urgent need of this most worthy cause.

> -It is not so much the hard work and great burdens of life that break down the health and nerve of the average person in this nervous and high strang age, as it is the little worries and aggravating annoyances which daily irritate the sensitive nature. It is a sad thing that so many intelligent and resourceful men and women should be reduced to a state of nervous prostration by the friction of little things which are of no vital consequence taken one at a time but only become formidable when viewed collectively. Happy is the person who can throw aside these minor cares as soon as attended to without worrying lover them.

Van Ruyven followed the butler up own trepidation. It was most absurd, he told himself, for a man to feel as he were certainly no logical grounds for his vague fears. Still there was the haunting possibility that the bishop might raise objections. Remote this possibility was, to be sure, but none the less potent. Van Ruyven remembered the time there had been a case pending against him in the courts. It was a silly case, trumped up by an ambulance chaser. His lawyer had told him from And yet he had been more or less disturbed until the jury had brought in its verdict in his favor. His position now as he mounted the stairs in the wake of the solemn butler seemed analogous.

As Van Ruyven crossed the threshold a fine figure of a man rose from his seat by the table and came forward mildly, "why not keep it here with us? ness."

"Arthur, I'm glad to see you," said the bishop, with a smile that left no doubt as to the sincerity of his words. "Sit down here by the fire and give an account of yourself. I count myself in luck that you take the trouble to come up here to see me when Edith is in the house.'

He drew two comfortable chairs before the fire and motioned Van Ruyven to one of them.

"Now, then, what sort of absolution bishop. do you want this time?" the bishop "A very pretty sentiment," said the

The bishop straightened himself in his chair. With his broad shoulders and his iron gray hair he was a decid-Now Goffe street, leading from Adams street, edly imposing man. Just now he regarded his guest with an odd expression, half of affection, half of amuse-

"There is something about Edith, however, that I must confide to you," he said, "something that no one alive knows save I, myself. Under the circumstances, Arthur, you should know it too. I disclose it under the seal of the confessional as something you must never mention at any time nor under

Van Ruyven bent his head slowly in acknowledgment of his obligation. "Edith," said the bishop very gently, as if even the confession of it cost him a pang, "is not my own child."

Van Ruyven sat up in surprise. "Not your child?" he repeated incredulously. "No," said the bishop. "Years ago, when I was in charge of a very humble country parish, she was left on the steps of the rectory one night, a tiny mite, wrapped in an old horse blanket. We intended at first to send her to an asylum, but there was something about those big dark eyes and those tiny arms even then that cried out to us. You know there were never any children of our own, and she came to fill the vacant niche in our lives." He paused a moment and smiled reminiscently. "I thought you ought to know

The other day the writer saw a young girl upset some salt at the table and then pick up a pinch and throw it over her left shoulder. She said that if she didn't she would quarrel with her best friend. It seemed silly to think that the spilling of the salt was going to make the quarrel, and it seemed just as silly to think that the tossing of some of it in a certain direction was going to help matters. But, like most old superstitions, there is some reason back of it.

Salt, as you know, is a great purifier. It prevents decay, is a tonic and strengthener and is necessary to the health and even to the life of men and animals. The ancients looked upon it as always pure and lasting and made it the token of friendship. Out of this undoubtedly grew the idea that when salt is spilled friendship is broken. Our wives want us to look artistic."-The Arabs regard salt as sacred, and a Bedouin in the desert, who would rob and kill you perhaps otherwise, becomes your friend and protector against all enemies if he eats salt with you, his way of offering hospitality.-New York

AN AFRICAN FOREST.

Pecultar Effects Produced by Wind, Sunlight and Shadow.

An explorer describes a central Africa forest: "Ten miles west of the lake begins the only piece of real vira dense virgin forest and almost impenetrable. It consists of very large trees of many varieties. The upper parts are festooned with a light grayish green moss hanging in long streamers and giving to the forest a very fantastic appearance. When these long streamers are agitated by a storm they make the whole forest, seen from one of the hills near, look like a rough sea. Again, when the sun is vertical the whole forest appears dark, but when nous in this coincidence, Arthur," he the sun is low the general effect on the sunny side is curiously light.

"All the trees are bound together with innumerable lianas and creeping plants. Between the stems is a dense tangled mass of lesser vegetation. The forest stands to a great extent in the water and mud of the swamp. A remarkable mode of incarceration is practiced by the hornbills, birds "Why, father, dear, what a silly idea," with immense bills and horny crests, layan islands and central and southern "Inasmuch as ye have done it unto Africa. In most if not all species the brooding female is walled up in a hollow tree and fed by her mate.

She remains confined in her prison until the eggs are hatched, and in some species until the young birds are able to fly. Meanwhile the mother has become temporarily incapable of flight, as she has molted, or at least shed all her wing feathers, during her captivity. But the male is indefatigable in providing for his family and is said to work so hard that he is reduced almost to a skeleton

According to the theory of many natives, the female is imprisoned to prevent her neglecting her duty of brooding, and if she has been unfaithful or negligent her mate closes the little window of her cell and abandons her to a painful death by suffocation. The true story, perhaps, is this: The female walls herself in so that she cannot fall from the nest after losing her feathers and also to protect herself from enemies. The building material is her own excrement. This version is less poetical than the other, but it is probably nearer the truth. It is supported by

The Traitors' Gate.

One of the most famous entrances in the world is doubtless the ancient Traitors' gate, in the Tower of London. It was through this portal for several centuries that traitors were conducted from the shores of the river Thames into the tower. To Americans probably the most familiar of these unfortunates was Sir Walter Raleigh. Today a pathway passes directly in front of the gate, completely cutting it off, and from lines, but "this indenture" still rethis pathway the famous wicket gate mains. is gazed upon by many thousands of visitors.

The Great Air Whale,

The native inhabitants of the Fiji islands believe thunder to be the bellowing of the great air whale, a mythical creature which, according to their folklore stories, inhabits the opposite side of all thunder clouds. If the regulation thunder cloud appears unaccompanied by the ominous rumblings peculiar to such phenomena, they take it as a token that the Great Spirit is pleased with their past doing. If, however, on the other hand, the detonations be frequent and violent they are sure that the god of the elements is displeased and imraediately engage themselves in all sorts of ludicrous incantations for the purpose of righting matters. Lightning is to them the result of the air whale gnashing his teeth together and thus striking fire. Another peculiarity of this primitive people lies in the fact that they will not partake of food while a thunder cloud is in sight, fearing that the air whale will pounce upon and devour them for such

Speech and Intellect.

A man who has, by disease or injury, lost the faculty of talking is generally also unable to write, and it is only in exceptional cases that one of these functions persists while the other is in abeyance. Cases of this latter kind show, however, that there are really two separate centers for the two faculties which are lying very close together and therefore generally suffer at the same time. If the disease affecting them be still more extensive the faculty of intelligent pantomime or gesticulation is likewise abolished. Persons who have entirely lost their language may still be able to play chess, backgammon and whist, and they have been observed to cheat at cards with some ingenuity. They may also be sharp in business matters, facts tending to show that speech and intellect do not run in identical grooves.

The Struggles of a Sculptor.

Augustin Rodin, the French sculptor had a great struggle with poverty and adverse criticism in his youth. Of an episode of this early period a writer says: "With that inflexible will and singleness of purpose that never failed him throughout his career the young sculptor set himself to express in clay, marble or bronze his conception of life and art. He used his leisure in working at nighttime, in a deserted stable he had transformed into a studio, at his wonderful mask of 'The Man With the Broken Nose.' After eighteen months of hard and patient labor he finished this mask and sent it to the salon. It took the hanging committee fourteen years to discover any merit in the work, for it was rejected in 1864 and finally accepted only in 1878."

Odd Epitaphs.

A correspondent of the Chicago Record-Herald contributes a few odd epitaphs from cemeteries in various parts of this country. The following is found on a tombstone in a cemetery at Trenton, N. J. Although the fact is not stated in the inscription, it would appear that the subject was a scalemaker or had something to do with weighing machines:

Daniel Lambert was an English freak of the early part of the century and died in June, 1809. He was of average height, but weighed 739 pounds.

"This Indenture." The phrase "this indenture," which appears so often in legal papers, is of curious origin. In the early days parchment was used for legal documents because it was cheaper than paper. The leaves were not cut evenly, but scalloped with a knife, becoming "indented." Papers are now cut on straight

To Callahan Pat Barlle's place was a wasps' nest, but to Chris it was a den of wolves, and of a dreader sort than have been completely in the air but for Russian wolves, for Barile's pack nev- ute."

The east and west section men could run away from them on hand cars. It was the yardmen who caught it, and it grew so bad they couldn't keep a switchman. About 10 o'clock at night, after No. 23 had pulled in and they were distributing a train load of bridge timber, a switchman's lantern would go up in signal, when-pist!-a bullet would knock the lamp clean out of his hand and the nerve clean out of 14's after the explosion, cast away with bit- head. Handling a light in the Benkleton yard was like smoking a celluloid picked it up and by judicious action pipe-you never could tell when it would go off.

Cowboys shot away the lamps faster than requisitions could be drawn for new ones. They shot the signals off the switches and the lights from the tops of moving trains. Whenever a to Callahan as a surprise. Callahan, in brakeman showed a flicker two cowmissed the lamp, they winged the man. It didn't bring any advance in brakeman. It compelled Bucks after pay, but there was the honor. To be awhile to run trains through Benkleton without showing ever a light. This, Chris was the only man on the yard though tough, could be managed, but to shunt flats in the yard at night with no light or to get a switchman willing to play young Tell to Peg Leg Reynolds' genuity of Chris, reflecting on the sting William for any length of time was of construction tobacco and studying impossible. At last Bucks, on whom the worry reflected at headquarters, swore he would fight them with fire,

The impression Bucks' letter gave him, knowing Bucks to be frugal of words, was that Shockley would rise up with cartridges in his ears and bowie knives dangling from his watch chain. To live in fear of the cowboys was one thing, but to live in fear of the cowboys on the one hand and in terror of a vardmaster on the other seemed, all things considered, confusin happier post-Christmas days thought they were bad, and these were drinking and his fire scattered. Just then train 59 whistled. Pat Barlie's corner began to sputter its salute. Callahan shifted around behind his bombproof, lit his powderhorn and, looking down the line, wondered whether

Shockley walked back into the depot, but he left the copper haired assistant superintendent uncertain as to whether it was really over, whether Shockley had actually arrived or not. As Callahan studied the claimant's inoffensive appearance walking away he rather thought it couldn't be over or that Bucks was mistaken. But Bucks nev-

er made a mistake. Next morning at 7 the new yardmaster took hold. Callahan had intimated that the night air in the yard, it being low land, was miasmatic and that Shockley had maybe better try for awhile to do his switching in the daytime. Just before the appointed hour in the morning the assistant had looked out on his unlucky yard. He thought to himself that if that yard didn't drive a man to drink nothing ever would. Piled shanty high with a bewildering array of material, it was enough to boys stood waiting to snuff it. If they take the heart out of a Denver switch-

While he stood at the window he saw their plug switch engine that had been kicked out of every other yard on the system wheeze out of the roundhouse, saw the new yardmaster filrt his hand at the engineer and swing up on the footboard, but the swing-it made Callahan's heart warm to him. Not the lubberly jump of the hoboes that had worried the life out of him all summer, even when the cattlemen didn't bother. It was the swing of the sailor into the shrouds, of the Cossack into the saddle, of the yacht into the wind. It was like falling down or falling up or falling on -the grace of a mastery of gravitation -that was Shockley's swing on the footboard of the yard engine as it shot snorting past him.

"He's all right," muttered Callahan, It was enough

went on after a silence. "He was the stockyards riots. Shockley used to drink like a pirate. I never knew just the right of it, I understood it was in a brawl. Anyway, he killed a man there-shot him and had to get away in a hurry. I was trainmaster. Shockley was a striker, but I'd always found him decent, and when his wife came to me about it I helped her out a little. She's dead since. His record isn't just right back there yet. There's something about the shooting hanging over him. I never set eyes on the fellow again till he struck me for a job at McCloud; then I sent him up to you. He claimed he'd quit drinking. Guess he had. Long as he's behaving himself

I believe in giving him a chance, h'm?" It really wasn't any longer a case of giving him a chance; rather of whether they could get on without him. When the Colorado Pacific began racing us into Denver that summer it began to crowd even Shockley to keep the yard clean. He saw he would have to have

"Chris, what do they give you for tinkering up the ties?" asked Shockley

"Dollar an' a half." "Why don't you take hold of switchng with me and get \$3?"

Chris was thunderstruck. First he said Callahan wouldn't let him, but Shockley "guessed yes." Then Chris figured. To save the last of the hundred dollars necessary to get the woman and the babies over-it could be done in three months instead of six if only Callahan would listen. But when Shockley talked Callahan always listened, and when he asked for a new switchman he got him. And Chris got his \$3, to him a sum unspeakable. By the time the woman and the children arrived in the fall Chris would have died for Shockley.

The fall that saw the woman and the stunted subjects of the czar stowed away under the bench in Little Russia Shockley mildly. The cowboys put up self, timidly hopeful, "if the cuss only | brought also the cowboys down from

"Can you dance?" "No."

It was Peg Leg's opportunity. He drew his gun. "I reckon maybe you can. Try it," he added, pointing the suggestion with the pistol. Shockley looked foolish. BOSTON THEATRE.

That perennial favorite, "Way Down East," will begin its annual engagement at the Boston Theatre next Monday evening. Its visit to Boston this season will be limited to a fortnight, including besides the regular Wednesday and Saturday matinees a special matinee on Washingcounts its admirers by the thousands, and many people make a practice of patronizing the piece upon every occasion of its engagement at the big New England playhouse. This year the production promises to be more attractive than ever before, brightened and freshened with new scenic features. "Way Down East" has been elaborated into the greatest of all bucolic dramas. Mr. Grismer has from time to time introduced new mechanical features tending toward the spectacular, and now the great snowstorm scene, where a life like blizzard whistles and In case of mourning, Clothes Dyed shricks around Squire Bartlett's farmhouse, is, Fast Black and finished in from 3 to 5 perhaps the strongest scene of its kind in any

### MAJESTIC THEATRE.

One of the most pronounced successes that has been scored in Boston by any play during recent years has been won at the Majestic theatre by Charles Frohman's magnificently picturesque and deeply moving production of VOTED-To offer a reward of \$25.00 for "Mizpah." The unanimous verdict is that it is a triumphant Biblical drama. The Boston Herald goes so far as to declare that "its stage pictures have never been surpassed on any Boston stage." The Boston Globe asserts that "of all sumptuous stage productions in recent years, none has surpassed this one in regal magnificence and artistic effect. Each of the ten stage settings is an exquisite example of the possibilities of pictorial stage display." The Boston Journal describes it as "a veritable triumph of st-ge craft, dealing with a regal theme and regal indeed! Such a succession of elaborate and exquisite scenes has rarely, if ever, been put before Boston eyes; a perfect production the best that art and money can do."

### Valentine Party.

There was a very pretty Valentine party in Quincy Music hall last Wednesday evening. It was the sixth annual novelty party given by Mrs. Elmer City Hall. W. Baker. There were about 150 present and they were about all dancers, very few spectators. William Wilson's orchestra furnished music for a march and twenty dances, between eight and twelve. During the evening Miss Marion Bill of Atlantic gave a couple of fancy dances which were, judging by the applause, well enjoyed.

"Made Good" to New York Life by Placing Mortgage on Valuable Property Which He Afterward Soldat Half What It Cost

New York, Feb. 19 .- John A. McCall, until recently president of the New York Life Insurance company, died yesterday afternoon at the Laurel house in Lakewood, N. J., where he had been taken three weeks ago in the hope that the change might benefit his health, which had suffered a breakdown two months ago. His wife and seven children were present at the end.

It was announced that McCall's death was due to enlargement of the liver and the end had been peaceful and without pain. Mrs. McCall is now under medical care. She had become worn out by the long vigil at the bedside of her husband and when he died she practically collapsed, although it is thought her condition will not develop seriously.

Mr. McCall's physical breakdown occurred about the close of the investigation of life insurance affairs in this state by the legislative committee December last. The report of the committee is expected to be submitted to the legislature at Albany this week. Mc-Call's examination before the committee was a severe one and the ordeal he underwent in rehearsing in detail the affairs of the company and in divulging transactions about which the general public was ignorant worried him greatly, it was said. About three weeks ago McCall's con-

dition became such that his physicians and family deemed it advisable to remove him to Lakewood. During all of this time McCall worried constantly about his business affairs. He was compelled first to mortgage and then to sell his handsome country place at Long Branch, N. J., in order, it was said, to repay to the New York Life Insurance company \$235,000 on the Andrew Hamilton account, Hamilton, the legislative agent of the company, having made no accounting for this sum. McCall had promised, when the Ham-

ilton disclosures first were made, to repay the amount named if by a certain date a satisfactory statement was not forthcoming from Hamilton, who is now in Paris. The directors of the New York Life at the expiration of the time set called upon McCall for the payment ate of Quincy, in said County, deceased, intesof the money. He acceded to the demands, paying \$85,000 in cash and giving his notes for \$150,000, the latter being secured by a mortgage on his country place, which later he sold subject to the mortgage. McCall realized in all something over \$300,000 for the property, which was said to have cost him just double that amount. Ten days ago McCall suffer

first sinking spell of his illness and was very low for several days. Then he improved slightly. One week ago yesterday, however, he suffered a second sinking spell. His condition became so low that a priest of the Roman Catholic church, of which faith McCall was an adherent, was summoned and the last sacraments of the church were given to the stricken man.

When all hope had been lost McCall suddenly rallied. It was an effort of the mind and will, however, and not a physical improvement. McCall's mental effort to shake off his ailments was the result of the report of the Fowler investigating committee, composed of directors of the New York Life, who made public their findings 10 days ago. They censured McCall severely for certain acts of his in connection with the legislative bureau established by him, with Andrew Hamilton at its head.

An effort was made to keep the contents of the report from the sick man. but learning the statement had been filed he worried so much over the matto see it. The recommendations in the report demanding of him a fuller accounting of the legislative work than he had made are said to have been a erushing blow to McCall. He declared that he was determined to get well; that he wanted to live to set himself right before the American people. The divorce from the bonds of matrimony may be strain was too much, however, and from that time McCall's decline was George.

John A. McCall was born in Albany in 1849. He entered the insurance business early in life and in 1886 was appointed state insurance commissloner by Grover Cleveland, who was then governor. He relinquished that position to become comptroller of the

Second Attempt of Firebug

Boston, Feb. 19.-Firebugs have been unusually active in the South End lately, and while yesterday's attempt to burn the tenement at 9 Laconia street was futile, it was filled with thrilling incidents and was more successful than the incendiary's effort at the same place the previous Tuesday. The old plan of igniting a quantity of rubbish in the basement was put in practice. When, at an early hour, Morris Bloom saw that smoke filled his ome, he picked up his little ones, Sadie, 3 years old, and Martha, 4, rushed from the room and over a fourfoot gap between two buildings and passed his offspring to a neighbor. Then he returned and guided other occupants of the tenement through the smoky hallways to safety in the street.

President Takes a Hand

Washington, Feb. 19.-President Roosevelt has taken personal interest in the charges of fraud and corruption which are said to have occurred in conection with the affairs of the five civilized tribes in the Indian Territory. But for his interference indictments against several parties alleged to have een engaged in illegal practices would have been quashed. Now, however, under his orders, the interior department is pushing its investigations with ncreased vigor. Secretary Hitchcock has submitted to the president and to the attorney general a special report dealing with the whole subject. Hitchcock characterizes the disclosures it makes as "startling."

Revolution Would Clear the Air Paris, Feb. 19 .- M. Taigny, the forner charge of affairs at Caracas, in an interview with The Matin's correspondent at Liverpool, said that he is convinced that a revolutionary movement for the overthrow of President Castro is in preparation. He had been approached by several of the revolutionary leaders during his sojourn in Venezuela, but owing to his position as the representative of France, he was bliged to hold aloof from politics. In Taigny's opinion, a revolution would clear the present awkward situation in Venezuela.

Balubilabilabilate deter ti arte anturation The Red and White Roses

[Original.] At the Ackermans' ball I wore a red rose in my hair. Reginald Keen had been long waiting for my reply to a very important question, and I had at last promised it him. We were both to attend the ball, and I had agreed to give him his answer there by signal. If the word was "Yes" I would wear a white rose in my hair; if it was "No," a red one. I was not able after this promise to make up my mind any more than before and thought it better that I should signal "No." I would still be on the safe side, and I had no fear of

his giving up the chase. On the evening of the ball, while figure—as I supposed—in a mirror. At any rate, a gir' the counterpart of mysight I supposed our costumes were identical because our dresses were both astonished me was that in her hair she casion. wore a white rose. I was not aware that she was not my reflected image until she turned and ascended a stair-

She was with an escort; I had just left mine. I followed her to the ballroom, and, desiring to see more of her unobserved, I went up into a little balcony where I could look down on the bowed to her. Finally I saw Reginald Page. at the other end of the room and kept my eye on him till he met her. When he first saw her he started. Then, see ing the white rose in her hair, he hurried forward and literally forced her attendant to retire.

The girl by this time seemed ready to permit strangers to approach her, and she took his arm as if she had long known him. He bent over her and whispered something in her ear. There was surprise, a blush, then a merry twinkle in her eye. She must have known that she had been mistaken fo another and was evidently ready for an escapade-in other words, to play Juliet to Reginald's Romeo.

I watched them from the balcony while they danced several numbers together, but sat most of the time in window seat. I could see that the girl oceasionally surprised Reginald by something she said. She was doubtless betraying herself, but she laughed at him and played the lover so well that she always drove away his wonder and escaped the pits she had fallen into. These explanations I divined, though I could not know for certain.

I suppose I should have been pleased at this pantomime. Reginald was cer tainly very happy in the smiles of one who he supposed was myself. At first I was greatly amused and thought the way the girl played her part was charming. Then suddenly it occurred to me that she might supplant me. My ndifference to Reginald vanished in a twinkling. The girl was evidently de-Washington, Feb. 19.—President cypress dimension shingles on spruce lighted with her supposed lover and lath. will surely make a serious affair of it if she is able." Finally I saw Reginald look up at the balcony and say something to her, and they both arose and left the ballroom. I knew they were coming up to be alone where I was and sprang behind a cur tain. A moment later they entered and, finding themselves alone, sat in the very spot where I had sat and where they could not be observed from below Reginald took her hand and with his other hand clasped her waist, then bent forward to take an engagement kiss. The girl shrank back for a moment-Reginald looked surprised-then submitted to his embrace. This was more than I could bear.

Throwing aside the curtain, I stepped out before them. Reginald, half arising, gazed at me as though he had seen a ghost.

"I have observed this billing and cooing," I said to him, "and am astonished that one who has so long been begging me to be his wife should so easily be turned in another direction. It is quite evident that it is the face and form you desire; the soul makes little difference. I do not know who this girl who resembles me so remarkably is, but I have observed her actions, and I do not care to see any more of them. A girl who will palm herself off as another and receive a kiss intended for that other must be bad indeed."

While I was speaking Reginald looked straight at me. When I came to a stop he said coldly: "I do not see what interest you have in me since you wear in your hair a

token of refusal." Then for the first time I remembered the red rose. Involuntarily I put my hand to my head, pulled out the rose and stood staring at it. It looked back

at me like an accusing angel. "Come," said Reginald to her of the white rose, "let us go where we may be Reginald married my double, who, I learned, was a visitor from another

ADAMS SCHOOL FUND.

The Committee on Legislative Matters reported an order requesting the Mayor and Committee on Legislative Matters to attend the hearing and favor the bill exempting certain property of the UU Adams Temple and School Fund from taxation.

Councilman Nichols asked the Mayor for information.

Mayor Thompson replied that he had not yet seen the bill. In conversation with Mr. Blackmur, counsel for the trustees, the latter thought the bill meat of the matter is to pave the way to incorporate Adams academy into the school system of Quincy. There had been a conference with some of the School Committee. There are many legal objections to be got around before it is consummated.

There can be no objection on the part of the city in assenting to this. The claim of the lawyer is that the title of the property is in the City of Quincy. The bill has got to be in such a form Catering for Clubs and Parties, that the property leased shall continue to be taxed. He saw no objection to the order except all were interested in what is best for the city. If the academy can be incorporated with the public schools it will be a gain for the schools.

Mayor Thompson, City Solicitor Thomas, P. R. Blackmur and others appeared at the State House today at the hearing on the bill to exempt the property of the Adams Temple and School Fund.

The Solicitor thought there should be a time limit; that leased property should not be included, and that no property acquired in the future should be included.

Mr. Blackmur, one of the supervisors, presented a substitute bill which embodied these ideas.

Escapes From Jail In Boston to Be Officially Investigated Boston, Feb. 20.-The escape of

George H. Gaskill from the Charles street jail early Sunday morning, following closely upon the escape of two other prisoners recently, has caused the authorities to order an investigation. It is alleged that the escape of Gaskill could not have been accomplished without the connivance of some person connected with the prison.

At a meeting of the board of aldermen Alderman Linehan called attention to the recent escapes and said that the board, acting as county commissioners, should discover where the fault lay, and if there was guilt attached to it the guilty party should be punished. It was then voted to order an immediate investigation

District Attorney Moran has taken up the matter also. He said: "The pub lished accounts of Gaskill's escape indicate that there was probably collusion on the part of some of the officials at the jail. I will investigate the matter, and if any of the fail officials assisted any prisoner to escape they will be prosecuted criminally."

Up to within a few months there had not been an escape from the jail for 42

IN PLOTS TO KILL

Berious Allegations Against Western Mine workers

OFFICERS ARE IN CUSTODY

said to Have Been Involved In Conspiracy Which Resulted In Assassination of Former Governor Steunenberg of Idaho

Denver, Feb. 20 .- Publication is made of the complaints on which Governor Gooding of Idaho asked extraditions for Charles H. Moyer, president. and William D. Heywood, secretary and treasurer of the Western Federation of Miners, and G. A. Pettibone, a former member of the executive committee of that organization

It appears that the men were charged directly with the murder of former Governor Frank Steunenberg of Idaho. The complaints charge the accused men with having discharged the bomb by means of which Steunenberg was killed at Caldwell, Ida., on Dec 30, 1905. The specific charge of murder was made to forestall habeas corpus proceedings. It is alleged by the police that they conspired with others to murder Steunenberg and furnished funds to carry out the plot.

The atrocious and unsolved murders committed during the labor troubles in Cripple Creek and the Telluride regions of Colorado and in the Coeur d'Alene region of Idaho, together with the recent Steunenberg assassination, have been matters of investigation for some

Harry Orchard, who is in jail charged with the Steunenberg murder, is said to have made a confession involving officers of the Western Federation of Min-

Orchard's alleged confession, it is as serted, disclosed a plot to kill former Governor Peabody of Colorado, W. H. Gabbert, chief justice of Colorado supreme court, and John Campbell, former chief justice. Orchard is said to have confessed that wholesale assassinations were planned at the headquar ters of the Western Federation of Min ers in Denver, chiefly by refugees from the camps at Cripple Creek and Telluride. It is also alleged that Orchard's confession gives a history of the explo sion at the Independence station near

pers for the extradition of the Federa tion officers to Idaho, says that he has read a copy of Orchard's alleged confession, but is not at liberty to divulge its contents.

The chief of a detective agency which was employed by the Idaho au thorities in the Steunenberg case de clares that more arrests are to be made He will not state the nature of the evidence or how it was obtained.

Vincent St. John, who was arrested in Burke, Ida., Sunday night, was resident of the Miners' union at Tellu ride at the time of the assassination of Arthur Collins, superintendent of the Smuggler Union mine at that camp He was arrested and charged with never brought to trial.

Orchard's alleged confession purports to give details of the plot to assassinate Steunenberg from its inception, according to a dispatch from Boise. Since the MEATS, etc. confession was secured, more than two weeks ago, detectives have verified many of the details.

In his confession, it is said, Orchard tells of his selection to assassinate a justice of the supreme court of Colorado a year ago, and claims he buried a bomb at the judge's gate, but when he pulled the string the contrivance failed to explode. He took the string away and gave up the attempt. A detective has, it is said, since dug up the bomb.

Orchard says he was alone in the actual execution of the Caldwell, Ida., plot; that he had first planned to shoot Steunenberg with buckshot and went to the house on Christmas eve for that purpose, intending to shoot through the window, but abandoned the plan and placed a number of shot cartridges under the sidewalk. The cartridges, it is said, have since been found by officers. Orchard, it is said, implicates Jack Simpkins and a man named Adams in the Steunenberg conspiracy. Officers are searching for both these men in Oregon. Orchard's confession, it is said, was committed to writing and signed by Orchard in the presence of witnesses.

Prisoners Arrive at Bolse Boise, Ida., Feb. 20 .- President

Moyer of the Western Federation of Miners, Secretary Haywood of the same organization and G. A. Pettibone, a former member of the executive board of the Federation, who were arrested in Denver, charged with complicity in the assassination of Frank Steunenberg, former governor of Idaho, arrived here in custody of a strong guard of Idaho and Colorado officers. The prisoners were taken directly to the Idaho penitentiary and no interview with any member of the party was per-

Arrest at Cripple Creek

Cripple Creek, Col., Feb. 20.-Edward Green, a union miner, has been arrested on a warrant forwarded by the Idaho authorities charging him with connection in the Steunenberg assassination. Two other warrants are in the hands of Cripple Creek officers for service.

(Continued from Last Issue.)

Happily for Christmas in Little Rus-

The minute the tired engine was cut ess monster like a covote. Out came the coal with a clatter.

out came the depot stuff with a sheet ere, shot there, shot yender, flying the tough connected, smut faced, blear eyed yard engine coughed and snorted | for the depot to rouse Callahan, nd spit a shower of sparks and soot and cinders up into the Christmas air. ead and never for a fraction of a second took her eye off Shockley's lampwith steam and bell and air, but always with one smoky eye on Shockley's amp, until 23 was wrecked clean to the caboose, and the switch engine shot down the main line with the battered way car in her claws like a hawk with prairie dog.

Then there was only the westbound reight, 55, to make up with the Fort Rawlins stuff and the Cherry Creek steel, which was "rush," and a few ears of ties flung on behind on general principles. It was quick work noworting and moving the bridge steelhalf an hour for an hour's work, with the north wind waking at the clatter and sweeping a bank of cloud and sand cross the valley. Shockley and Chris nd the goat crew put at it like black nts. There was releasing and setting nd kicking and splitting, and once in while a flying switch dead against the rubrics, and at last the whole train of steel was in line, clean as the links of a sprocket and ready to run in on the ouse track for the caboose.

For that run Chris set the east house track switch, crossed the track and swung a great circle with his lamp for the back. To get over to the switch again he started to recross the track. In the dark his ankle turned on a lump of coal. He recovered lightly, but the misstep sent his other foot wide, and with a bit of a jolt Rubedo's new shoe slipped into the frog.

Up the track he heard a roll of stormy coughs from the engine gathering push to shove the string of flats down. They were coming toward him, over the spot where he stood, on his and he quietly tried to looser

The engine's drivers let go, and she roared a steaming oath, and Chris could hear it, but he was glad, for his heel would not work quietly out of the frog; it stuck. Then the engineer, unruffled, pulled at his sand lever, and his engine snorted again, and her drivlong train of steel down on Chris' switch. He heard the frosty flanges grinding on the face of the rails as he tried to loosen his foot.

Coolly, first like a confident man in a quicksand, soon with alarm running into fright; but there was time enough The head car was four or five lengths above the switch and coming very, very slowly, heavylike and squeaking stiffly under its load, yet coming, and he wrenched harder, but his foot stuck. Then he yelled for Shockley. Shockley had gone over to open the caboose switch. Shockley couldn't hear, and he knew it, and he yelled again,

The sweat broke over him as he turned and twisted. The grip of the frog seemed to stifle him. Half the time was gone. The near truck wheels screeched two car lengths away, and the switchman played his last card. him what to do if that moment came in the night-had told him to throw his lamp in the air like a rocket. But Chris had forgotten all that till the flat dropped heavily on the tongue in front of him. Then he threw his lamp like a rocket high into the night.

No help came. He raised his arms frantically above his head, and his cries cut the wind. Desperate at last, he threw himself flat, to lie outside the rail to save all but a foot, but the frog held him and crying horribly he struggled back to his feet, only to sink again half crazy to the ground. As his senses left him he was hardly aware of a stinging pain in his foot, of a wrench at his leg, an instant arm around his neck and his yardmaster's voice in his

A lantern, burning yet, lay on its side near the stand. It was Shockley's lamp. Chris looked wildly around for his yardmaster, called out, called sia 23 pulled in on time, but it was long Shockley's name, listened. No scream, and heavy that night. It brought coal no groan, no cry, no answer, no sound, and ties and the stuff for the Fort but just the steady pounding of the Rawlins depot and a batch of bridge wheels over the contact. It was Callahan who pulled the pin moment later, Chris shivering like a She darted and dodged and jerked and rabbit at his side. It was Callahan sacked up and down and across the who gave the slow pull ahead order and Callahan who stepped, wavering, shivering and clanging and bucking from the gap that opened behind the receding flat-back from something between the rails—back to put his hands blindly out for the target rod and unsteadily upon it. He heard Shockley breathing.

Some carried the headlight back, and ome tore the door off a box car, and they got him on. They carried him unevenly, stumbling, over to the depot They laid him on Callahan's mattress in the waiting room, and the men stood all about him, but the only sound was his breathing, and inside under the lamp the receiver, clicking, clicking, clicking, of Bucks and the company surgeon coming on a special

Then he looked from face to face about him-to the engineer and to the fireman and to little Chris and to Callahan—and his lips moved. Chris bent over him, but try as he

would be could not catch the words. "Block-block," said Shockley's lips. And Shockiey died.

They lifted the mattress into the baggage room. Callahan drew over it a crumpled sheet. A lantern left burned on the checking desk, but the men, except Chris, went their ways. Chris hung irresolute around the open door. The special pulled in, and with the shoes wringing fire from her heels as

## FOR A LOCK CANAL

Taft Says It Meets the Requirements of Congress

OF GREATER CAPACITY

Great Saving In Time and Cost of Construction -- Recommend : Plans of Minority of Advisory Board .- Endorsed by President

Washington, Feb. 20.—Secretary Taft

transmitted the canal commission's report and the accompanying documents to the president, summarizing closely the conclusions of the majority and minority which respectively favored a sealevel and a lock canal. He called attention to the fact that the act of congress in effect fixes the minimum dimensions of the locks and the width and depth of the canal prism by the requirement that the canal shall accommodate the largest vessels affoat or such as may reasonably be anticipated.

As two ships are now building which are 800 feet long, 88 feet beam and 38 feet draft, and can be passed through the locks proposed by the minority, he says it is evident this requirement is met. The secretary says:

"In the high level canal, a vessel of the dimensions noted would have, with the exception of the 4.7 miles where the width is only 200 feet, ample leeway for safe navigation and good speed, with out objectionable currents and without difficulties at the points where changes in course are necessary." As to the sea-level canal, he says:

"The sea-level canal recommended is not sufficient capacity and depth to afford convenient passage for vessels of the largest tonnage and greatest depth, and can be made so only by materially increasing the depth and width, and at a considerable increase of time and money. If the suggested width of 150 to 200 feet is the greatest width more fully meets the requirements of

The secretary meets the objection of he majority of the board that locks are insafe for great ships by saying that lock navigation is not experimental nor particularly dangerous. Moreover, he says: "The delays due to lockages are more than offset by the greater speed at which vessels can safely navigate the lakes formed by the dam than is possible in the sea-level canal, and the arguments on this point in the minority report seem to me to be the more

Mr. Taft says the high level or lock canal provides for practically lake navigation in many places, where vessels will have plenty of room, while the sea-level canal would necessitate "tortuous navigation for the greater distance through comparatively narrow gorge in which the largest vessels cannot proceed under full headway, pass without risk, or turn about." As to cost, he says:

The estimated cost is \$247.021.000 for the 85-foot level canal, a difference of \$107,000,000. The isthmian canal commission and the chief engineer regard the estimate for the sea-level canal as too low by at least \$25,000,000 for reasons stated in their reports. The advantage of less cost is greatly in favor of the 85-foot level canal." The secretary says that the advantage in "practical speed of construction" of the canal is greatly in favor of the high

level project. "The cost of operation and maintenance is an important consideration," says Taft, "and measured solely by annual appropriations therefor, the advantage is in favor of the sea-level | PINEL, Manager. anal. It is believed, however, that the difference is more than offset by the interest on the additional investment in

the cost of a sea-level canal. "In view of the foregoing, I recommend the adoption of the type of canal proposed by the minority of the board as relates to the location of the locks at Sosa hill.

"The objection to the location of the locks here is the possibility of destruction by fire from an enemy's ships, and Taft suggests the locks be placed behind the hill, which would act as a believes, should be retained for use either in relieving congestion of traffic or for concentrating a fleet in time of Res war. Mr. Taft closes by saying that he first favored a sea-level canal, but that the minority report changed his opin- or L. W. Nash, opposite depot, Wollaston ion. He adds:

"We may well concede that if we have a sea-level canal with a prism from 300 to 400 feet wide, with the curves that must now exist, reduced, it would be preferable to the plan of the minority, but the time and the cost of constructing such a canal are in effect prohibitory.'

President Roosevelt transmitted to congress the report of the board of consulting engineers on the Panama canal, together with the letter of Secretary Taft, the report of the isthmian canal commission and a letter by Chief Engineer Stevens. The letter of the president concurs in the recommendation for

## Free Trial Electric Lighting.

In order that our citizens who never have had electric lights in their homes or stores may become acquainted with the many advantages of their use, the Quincy Electric Light & Power Company makes this proposition.

To all who make application before April 30th, 1906, and who will spend \$20 or more for wiring and installing wires for at least five outlets, the Company will furnish by meter at regular rates, \$20 worth of electric pany, in opening current free of charge.

This concession will go far toward paying the entire cost of wiring. For obvious reasons the Company confines this offer to those whose premises are so situated that building new lines or setting new poles will not be necessary.

Per order of Directors, QUINCY ELECTRIC LIGHT & POWER COMPANY, By H. M. FAXON, Treasurer.

Cross questioned-Did not draw up the contract; drawn by Boston company. We now sell nine million feet; expected to sell fifty million in three years. Waltham paid Boston company 41 or 42 cents for gas. Didn't know amount of gas used in Waltham. Admitted action of board was potent factor in sale. Contract speaks for itself and tells story.

plan to sell out the present company. Commissioner George did not look at it in that light. Thought consolidation with Boston company the only way to give Quincy relief. It was better service, be understood that was wanted.

Ex-Mayor R. A. Sears, representing the Citizens' Association said the situation in Quincy was, we want gas and cannot get it. It mattered little to the people whether contract price was for 40 or 50 cents, and the same was true of the capital. Believed Boston company would supply an abundance of gas at reasonable price.

President Kincaide of the Citizens' Association agreed with Mr. Sears. Quincy looks to the board for relief. The situation demanded it. The people of Quincy have very little faith in Mr. Morse. He has made promises and not lived up to them. Hoped board would act promptly.

Councilman Hull testified to poor gas and the fact that people were unable to get a supply.

Mr. Capen of the newly organized Quincy company said his company at the outset would charge \$1.50 per 1000 with a discount, while gas for cooking would be \$1.25. Would like to make contract with Boston company for gas, but if unable were prepared to build independent plant.

Mr. Sears brought out by quesioning that new company was composed almost wholly of Wollaston men, and that former owners of the Citizens' Gas Company were probably interested.

Mayor Thompson said Quincy wanted more gas and cheaper gas, and wanted

to be assured that new owners had ample means to develop. With the city it was a business proposition; nothing speculative. Was satisfied to leave

It Is Set Aside In Essex County Probate Court

WAS UNDUE INFLUENCE

Husb. n | Pe-petr ted Fraud Upon the Court by Securing Decree of Adoption of His Son, and It Is Revoked

Salem, Mass., Feb. 21.-Judge Harmon, in the Essex county probate court, has handed in a decision setting aside the will of Mrs. Jennie P. Chase of Swampscott. Judge Harmon also set aside the decree of adoption whereby De Forrest Woodruff Chase, son of Dr. Horace Chase, was made Mrs. Chase's sole heir.

Judge Harmon's decisions on both the will and the adoption were brief but terse. He referred briefly to the petition of Mrs. Chase's next of kin to have her will set aside, the petition having been filed with the court by Leonard H. Phillips and other relatives of Mrs. Chase. The court then said:

"After a hearing it appeared that the said instrument (the will of Mrs. Chase) was procured by undue influence of her husband, Horace Chase; it is therefore decreed that the said instrument be disallowed as the last will and testament of the said deceased, and the petition (filed by Dr. Chase for the right to administer the affairs of the estate) be dismissed."

Of the adoption of De Forrest W. Chase by Mrs. Chase the court said that the adoption not only was illegal, but that in securing it Dr. Chase had perpetrated a fraud upon the court. Judge Harmon therefore ordered the decree of adoption revoked.

Dr. Chase was married in 1898. He was a widower and had one son, De Forrest W. Chase, who, several years afterwards, was adopted by Mrs. Chase, and in the will which was filed with the Essex county probate court the young man was made the sole heir Mrs. Chase was found dead in the

Chase inherited the estate of his foster mother, which was estimated to be worth about \$1,500,000, but he lived only a few months after he inherited the property, and as a result of his death the fortune reverted to Dr. Chase, who, in consequence of the manner in which Mrs. Chase's property of his wife.

> Leonard H. The previous fire was caused by an explosion of a lamp in an upper room of Joseph Cyr's dwelling, where four of his children were asleep. So quickly did the flames spread that Cyr and a number of other men who were playing cards downstairs were able to rescue but one of the children. The rescued child was seriously burned and is in a critical condition.

Apprehension Relieved

Washington, Feb. 21.-News of the safety of the drydock Dewey, brought o the Canary Islands by the tug Potomac, was received with great relief at the navy department, where the officials had been making every effort to conceal a feeling of apprehension for the safety of the big structure. The fact that nearly a month has been consumed in making about 1000 miles in dicates that either heavy winds and adverse currents have been encountered, or that accidents have happened to the towing gear.

Advised Against Intervention Springfield, Ills., Feb. 21.-At the annual convention of the Illinois district, United Mine Workers of America, Secretary-Treasurer Ryan said Illinois miners were well prepared and that on Jan. 31, 1906, the miners had \$930,000 in their treasury. Ryan's advice to the miners in case of a strike this year was to refuse to ask or accept intervention by President Roosevelt or any other per-

Metcalf, the chief of the money order division who was dismissed from the service later indicted by a grand jury and the case finally nolle prossed. Metcalf may be reinstated in office, it the present investigation satisfies the postmaster general of his innocence.

Deliberate Train Wrecking

Albany, Feb. 21.-William Courtney, brakeman, was instantly killed in the wreck of a freight train at Green Island last night under circumstances which indicate a deliberate attempt to wreck that or some other train. The coroner and railroad men found a number of fish plates planted in the ties between the rails in a way to wreck any train that passed.

New Charge Against Pat Crowe Council Bluffs, Ia., Feb. 21.-Pat Crowe has been released on a bond for \$1500 signed by his brother, John Crowe, and the latter's wife, and Joseph Nansel, a wealthy farmer of this county. Crowe's trial on a charge of holding up street cars has been put over until March.

JAILERS SUSPECTED

Sheriff Is Trying to Find Who Aided Gaskell to Escape

Boston, Feb. 21.-Jailers in the Charles street jail are under suspicion of having given aid to Gaskell, the prisoner who made the most recent sensational escape from that institution. Sheriff Seavey has begun a searching investigation, which, he asserts, will be conducted until the matter has been Lioroughly sifted to the bottom.

He has become satisfied that there can be only one theory for the man's escape. Gaskell could not have worked alone, for he never could have fitted a key to the cell lock from the inside of the cell if he had possessed himself of a key. The bars of the cell are such that only a child could work his arm around to reach it. It is also impossible that Gaskell

could have hidden himself after his daily exercise and not returned to the cell. All of the prisoners are fed at 4:30 o'clock in the afternoon, and his absence from his cell would have been noticed at once.

This leaves only one theory. The man must have had outside assistance, and this could only have come from officials of the jail themselves. The sheriff does not say this in so many

words, but he agrees that all other theories are eliminated. To find out who aided the prisoner is now the object of his inquiry. The only keys to the cells and to the warehouse are kept in the jail safes. These are in their proper

After four hours spent in examining witnesses-officials and prisoners-at the Charles street jail, District Attorney Moran advised Sheriff Seavey to suspend Thomas Fallon and George Callahan, inside officers, and Watchmen Shurtleff and Hatch. The investigation resulted in some revelations which neither Moran nor Seavey would discuss.

Gussie Hart's Fatal Fall

New York, Feb. 21.—Gussle Hart, an actress, 50 years of age, died in a cab while being taken to her home. The matter at first was reported as a possible murder and several arrests were made. It developed, however, that the woman had fallen down a long flight of steps at an uptown cafe, where she had spent several hours with a party of friends. Her skull was fractured The coroner last night discharged all who were arrested.

Mikado Horores by Great Britain Tokio, Feb. 21.-The impressive ceremony of the investiture of the Emperor of Japan with the British order of the Garter took place in the presence of about 80 high personages. An hour after the ceremony of investiture the emperor visited Prince Arthur of Connaught and expressed to him his grateful appreciation of Great Britain's friendship. A grand banquet was given last night in celebration of the occasion.

Tuberculosis Sanitarium Wanted Fredericton, N. B., Feb. 21.-A large delegation of members of the legislature, doctors, clergymen and others waited on the government and urged the advisability of aiding the establishment of a sanitarium for treatment of tuberculosis in this province. In St. John last year 108 of the 754 deaths were due to tuberculosis. Premier careful consideration.

Pair of Daring Thieves

New York, Feb. 21.-Two men entered the store of Israel Rauth, a jeweler, last night, and, pointing a revolver at his head with the injunction to keep quiet, took out a tray of diamond earrings valued at several hundred dollars and backed out of the store. Rauth started in pursuit and there was a lively exchange of revolver shots. The men escaped.

Liberal View of Unionism

London, Feb. 21 .- The royal commission of trade disputes and combinations has recommended the passing of an act declaring trade unions to be legal associations and strikes legal, unless accompanied by violence or breach of contract, and also declaring that persuasion to strike, apart from procuring a breach of contract, is not illegal.

This most important fact will be used in the defense of the accused labor leaders when they are brought to trial in the courts of Idaho. The following facts have come to The Times from a most reliable source and have been carefully verified:

"Orchard was a member of the Western Federation of Miners and employed in the Cripple Creek district when the famous strike was ordered. In November, 1903, he approached a conductor named Jones on the Florence and Cripple Creek railroad and introduced himself as a brother Mason. (Legal Title: City Hospital of Quincy) INCORPORATED 1889

The Trustees of the City Hospital of Quincy earn estly appeal for donations and bequests for the Endowment fund. This now amounts to over \$60,000 but a fund of at least \$100,000 is urgently needed. Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratifully received.

The Secretary, TIMOTHY REED, Adams St., incy, or the Treasurer, RICHARD D. CHASE, vines Bank Building, Quincy, will be very glad confer with any one or to answer any inquiries.

Young Men's Christian Association OF QUINCY, MASS.

(Legal Title - Incorporated 1892.)

The Directors of the Young Man's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

The Treasurer, William F. Cummings, 7 Clive Street, Quincy, or the General Secretary, Ernest G. Gay, will be happy to answer inquiries.

Railroads Cannot Deal In Commodities Which They Haul Over Their Lines -- Owners of Refrigerator Cars Are Hit

Washington, Feb. 21.-Probably the most important and far-reaching decision, as far as the interstate commerce law is concerned, was delivered by the supreme court when by an undivided bench it laid down the new principle that railroads cannot deal in the commodities which they haul over their

This decision falls principally on the railroads which directly or indirectly own coal mines and sell their products, but if the courts sustain the claim of the interstate commerce commission that private car lines are common carriers the principle laid down may also nclude them, so that the owners of refrigerator cars would be prohibited from using their own cars for the trans-

portation of their products. The decision as to coal alone, however, removes what is acknowledged to r 8 43 abc be one of the greatest evils in the matter r 9 13 abc of railroad rates. It also enlarges considerably the power of the interstate commerce commission, taking it further r 11 16 abcdefghi 11 44 in that particular direction than was r 1 13 abe contemplated by the pending Hepburn | r 3 00 abc

As pointed out by the court, there was no prohibition in the interstate commerce law of railway ownership in commodities, but, notwithstanding its r 8 08 abcdefghi 8 35 absence, it was plain, according to the r 10 25 abc court, that to hold otherwise would be contrary to the very spirit of the act.

The case involved a charge of discrimination in favor of the New Haven a Wollaston, broad by the Chesapeake and Ohio in a Atlantic Atlantic reight rates. It grew out of complications arising in connection with a contract made between the two companies in 1896, in accordance with which the Chesapeake and Ohio agreed to deliver 2,000,000 tons of bituminous coal to the New Haven road between July 1, 1897, and July 1, 1902. The delivery in the last year covered by the contract fell short to the extent of 60,000 tons, on account of a strike in the coal fields, which rendered it impossible to supply the coal. The New Haven road purchased coal elsewhere and presented a bill to the Chesapeake and Ohio for \$103,000, representing the difference in cost. Instead of paying the money, the Chesapeake and Ohio delivered the 60,-000 tons of coal, notwithstanding the Old Colony Street Railway Company price of coal and of transportation had advanced to such an extent that it is said the company lost more than \$1 a

ton on its shipments. The case was brought to the attention of the interstate commerce commission, and the charge made that the ven road. #### COST OF CAMPAIGNS

New "Business Methods" Prove

Expensive For Congressmen Washington, Feb. 23.-In the assignment of reasons for the retirement from congress of John A. Sullivan of the new Boston district the pecuniary phase of the case has not been presented with here or in Boston or the desire to accumulate a fortune that makes Sullivan dissatisfied with the congressional salary, but rather the heavy drain which piennial elections in that district place apon him or any man who cares to carry the Democratic banner.

As symptomatic of changing political conditions Sullivan's experiences are doubly interesting. This is an age of advertising. Business methods of advertising have been adopted in the political campaign, with the result that billboard space, newspaper and street ear advertisements, cards and tracts eat up in any close district a great deal

The old form of direct bountles to the individual political workers are said to be disappearing. In their place have come "business methods," which consist chiefly in advertising. The direct primary has made it necessary to conduct such a campaign of education twice, once for the nomination and once for the election, wherever both are contested. The torchlight procession, as a quickener of enthusiasm, has gone out of style. Popular primaries have accentuated greatly the advertising methods of campaigning. This system, Sullivan says, "has been a flat failure in the city of Boston.

#### SITUATION DESPERATE

Indications That Moroccun Conference Is Doomed to Failure Paris, Feb. 23.-The government does not give any further indication of its intentions in regard to the Moroc-

can question. The tone of the French press is that the conference situation s desperate, the only thing remaining being for France to state her case and depart. However, there is no evidence that President Fallieres and Premier Rouvier, both of whom are men of an extremely conservative and pacific character, entirely share the view that the conference is doomed to failure.

The semi-official Temps, however, prints a leading article saying that "an accord is impossible." The Temps adds: "The Germans feign to believe that France will make new advances. We affirm in the most categoric manner that the German expectations are baseless. M. Revoil's former proposals represent the maximum of our concessions. Therefore France is resolved to repulse deceptive resolutions. She has only to plead her cause before the open conference and if Germany persists France will content herself with the

Germany Blocking Settlement

Great Britain regarding the Moroccar conference can be summed up from the statement that "it is now certain Germany desires the Algeciras conference to break up without settling the vexed Moroccan question." It is contended here that, not satisfied with refusing what Great Britain calls the most "liberal offer" on the part of France in respect to policing Morocco, Germany has placed another obstacle in the way of a settlement by making impossible suggestions in regard to the proposed state bank.

Talk of Abitration

Algeciras, Feb. 23.-The Italian delegates are discussing the possibility of the appointment of a number of the Moroccan conferees as arbitrators for the settlement of the controversial points in the French and German projects should an agreement relative to the majority of the details be attained. Ambassador White persists in his optimistic view of the ultimate results of the conference.

Hammond Investigation Continues Worcester, Mass., Feb. 23 .- The result of the analysis of the contents of the stomach of John Hammond, who died at Barre at the home of Mrs. Myra Bemis, is such that the police will continue their investigations. The report shows that the stomach contained things not consistent with the return that Hammond died of delirium tre mens. Shortly after the death of Hammond Mrs. Bemis presented what pur ported to be Hammond's order for the withdrawal of \$1500 from the Ware Savings bank.

House of Correction luma es Had Much Leeway

Rutland, Vt., Feb. 23 .- Several prisoners were heard yesterday afternoon in the investigation into conditions at the house of correction here. A woman prisoner sentenced from Burlington testified that she and Marvin A. Mc Clure, who was concerned in the wreck ing of the Merchants' bank, had conducted themselves improperly. Mc-Clure notified the committee that he desired to consult with counsel before testifying in reply to the woman.

Edward Langlois of Burlington told the committee that he was confined in the dungeon for 106 days and fedon bread and water. He stated that a fel low-prisoner named Cushman had told him that he (Cushman) had driven Su perintendent Morgan into the city in Morgan's carriage, and that while Morgan was calling on friends he had taken a friend of his own to drive far out into the country. Langlois also stated that Cushman told him that he talked with his friends in the field near the prison at any time he wanted to.

Langiois was cross-examined at some ength by Morgan, and the latter's lestions were given in such an excited tone and with such rapidity that he was warned by Attorney General Fitts to restrain himself. The hearing is unfinished.

Threatened With Eviction

Moosup, Conn., Feb. 28 .- The strike of the weavers at the Aldrich Manufacuring company's plant assumed a new phase when the company began the service of eviction papers on the nearly 800 people who occupy the 70 tenement houses owned by the company. The tenants, some of whom are nearly 70 years old and have lived there all their lives, were notified that unless the strikers returned to work within 30 days the houses must be vacated. There are now between 500 and 600 hands idle, the weavers demanding a 10 percent increase in wages and no overtime work.

"Cut Prayer and Go to Caucus" Boston, Feb. 23 .- "We are in peri because city governments are not in good hands," said Hon. Samuel B. Ca pen at the members' annual banquet of the Y. M. C. ## Little Fellow Drowned in Brook

George, the six year old son of feremiah Pitts of School street was

Being unable to help himself, and his companions being too young to render him any assistance, he was drowned. The first known of the accident was when Dennis McGee of School street saw the body floating down the brook which runs by his house when a little boy was trying to pull him The body floated nearly to the railroad

pefore it was rescued. It was taken to

his home at the corner of School and Marsh streets, and Chief Burrell and Officer Bradley worked over it. Dr ones arrived at the house almost as oon as the body, and also tried to bring life back, but was unsuccessful. It is thought that the boy fell into the brook near the corner of School and Fort streets, and although it floated nearly to the railroad bridge, that it had not been in the water over five min-

utes. The brook is about three feet deep at the point where the boy fell in

To Avoid Tuberculosis.

When caring for children, it is well o let the little ones run about barely clothed, in a sunny room where no dust-collecting carpets are to be found. The child should be gradually accusomed to cold baths from the first year of life. Begin by dipping your hands in cold water and rubbing the child a few times after it has had its warm bath, then dry-rub quickly with a owel, thus producing a blood reaction n the skin. The cold bath, sponging and douching in adults should be encouraged. These habits will prove beneficial in keeping up the tone of the body circulation and preventing the disease germ from making a welcome host of your body. It is well to remember also that the millions of pores in your skin sometimes become clogged through excessive secretion. n this case a warm bath with the aid f soap becomes necessary at more or ess frequent intervals.

Respiratory exercises, if practised in he open air will also be found useul, but they must be simple and not xcessively indulged in.

Avoid mouth-breathing when this ccurs in children have your physician nquire into the cause, as some growths nav require removal.

Do not over-dress your children. Do ot over-dress yourself. Accustom yourself to resist cold and you will not take colds. Dress lightly both summer and winter, and you will be surprised We have the Largest and Best Talking at the comfort derived as well as the

causing colds. This is erroneous. Open your windows and doors. Keep up the draught constantly; live in pure atmosphere day and night by keeping your windows open. Let the sun have its own way in your house during the day. With free ventilation and sunlight you will be living in an almost

germ-free atmosphere. To sum up open air life, sufficient exercise, nourishment, rest, sleep, and the avoidance of excess in work, thought, or pleasure, make the human ody resistant, where disease germs find themselves rapidly disposed of by the phagocytes soldier-cells which are constantly on the watch, large armies of them in every healthy individual, to meet and destroy the invading host of inimical germs.

## Strange Pet.

Joseph Coleman of Atlantic was gathered in by Officer Goodhue late Wednesday night. At the time he had in his possession a burlap bag, from which came some mysterious noises. When Coleman reached the Police station and the contents of the bag were examined. it was found to contain a little pig and a white rooster. The two did not appear to agree very well, which doubtless was the cause of the noises. Coleman was the cause of the noises. Coleman was given a berth for the night, and the pig and rooster were made comfortable. Coleman disliked the idea of being separated from his pets and cried all night. Thursday morning when he had sobered up he was released, and QUINCY with his pets again in the bag he made his way toward Atlantic.

## LAW TOO DRASTIG

An Opinion on Armstrong Committee's Proposition

#### STRIKES SAVINGS BANKS

Would Force Them to Pay Less Amount of Dividends to Depositors -- Laws of Massachu set s Held Up as a Model

New York, Feb. 24 .- "Should the law to govern life insurance company investments, proposed by the Armstrong committee, be enacted, it seems to me that its effect, so far as the general public is concerned, would be to force the savings banks, because of the increased competition with the life insurance companies as to investments, to pay less amount of dividends to their depositors and to force the life insurance companies to charge the policyholder a greater amount of premiums.'

Comptroller Pulleyn of the Emigrant Industrial Savings bank, who made the above statement, is a leading authority on savings bank investments. He discussed at length what is likely to be the result of the new investment law proposed by the report of the Armstrong committee, and told about its likeness to and dissimilarity at the same time with the standard law governing savings bank investments. Pulleyn said:

"While the proposed new law to govern life insurance company investments in some respects reminds one of the savings bank investment law, it is far less stringent, and properly so. There are many securities which do not come within the provisions of the savings bank law in which life insurance companies should be permitted to invest. In fact, in my opinion, the proposed life insurance investment law could be made even less stringent and still be drastic enough to operate against a repetition of the events that have marked the life insurance history.

"Why should more drastic conditions be imposed upon the life insurance companies operating in the state of New York than, for instance, the conditions imposed on savings banks by the savings bank law of Massachusetts, which permits such institutions to invest in bank stocks and the bonds of trolley companies? The Massachusetts laws governing corporations are generally considered to be the finest in the

#### Suffrage In the South

Washington, Feb. 24.-William L. Garrison was the principal speaker at a largely attended mass meeting of negroes here last night to consider suffrage conditions of the south. The tenor of most of the speeches was a demand for the enforcement of the 14th and 15th amendments of the constitution and a reduction of the representation in the lower house of congress from the south on the basis of the votes

#### Lashing For Brutal Father

Sydney, C. B., Feb. 24.-For the first time in the history of Cape Breton the lash was imposed as punishment upon a convict yesterday, when Edward Gallant of this city was sentenced to receive 40 lashes on the bare back and is willing to face the charge. 22 months' imprisonment for assaulting his young daughter. In addition to the 40 lashes Gallant will also receive two of his prison sentence.

Pensions For French Workingmen Paris, Feb. 24.-The chamber of deputies almost unanimously passed the bill providing that the employer, employe and government each contribute to a fund from which workingmen may be pensioned after they are 65 years of age. This is the chief Socialist measure and has long been opposed on the grounds that it would involve the government in heavy expenditures.

enced by Gentleman Friend" London, Feb. 24.-According to The Daily Mail, Marquis Townshend, 39 years of age, who six months ago marrecent movements there has been considerable mystery, with rumors of disappearance, etc., has, on petition of his father-in-law, Thomas Sutherst, barrister at law, been certified of unsound mind and is detained by order of a lunacy commissioner in his residence in London under control of his wife. The dowager Marchioness of Townshend stoutly maintains that the marquis is not insane and is making strenuous cf-

forts to secure her son's freedom. Marquis Townshend's detention dates from the end of January. He is allowed to take carriage drives in company of his wife or father-in-law. It is alleged that the marquis is unduly influenced by a gentleman friend of 14 years standing, for whom he displayed great affection and trust.

Medical specialists engaged on behalf of the dowager marchioness report that, although ill, the marquis has displayed no hallucinations or delusions, but that his voice and manners point to some arrest of development.

St. Petersburg, Feb. 24.—The reports broad that Premier Witte had resigned are discredited here. No further changes in the cabinet are expected at present. All the newspapers are contributing to the outcry over the disclosures of the governmental subsidies to the Father Gapon organization. Witte and Gapon are charged with havto buy off the labor leaders and break | cension up the force of the liberal movement among the workingmen by bribery.

Ice Harvesters Got a Scare on which they were working broke away from the shore fastenings and drifted about an eighth of a mile down stream. The floating ice with its human freight finally anchored on the west shore and men and horses were rescued with considerable difficulty.

Hendricks' Successor Not Chosen Albany, Feb. 24.-It is unlikely that the appointment of a state superintendent of insurance will take place within the next few days. When asked when he was likely to appoint Superintendent Hendricks' successor, Governor Higgins replied that he would make the selection at the earliest moment that he determined that it was best for him to do so. He would not say whether he had any particular candidate in mind.

Members of the Aero Club of America have been enthusiastically discussing the eighty mile flight recently made by Charles Levee, the French aeronaut, when he sped in his balloon from West Point halfway across the Catskills and then back to Hurley, N. Y., where he landed. Preparations are soon to be made for other ascensions at either West Point, Pittsfield or Tuxedo.

Had it not been for the light breeze at the start, which made his progress comparatively slow, and the change in the wind while he was above the mountains the aeronaut admitted that he would have tried to cross the Catskills Witte and Sapon Losing Popularity and land somewhere in the Mohawk valley. But by the time he had been aloft between two and three hours he realized that the supply of gas was becoming exhausted, and he sought a landing place, which he found at ten minutes past 8 o'clock in a field at the rear of the residence of Matthew Ten Eyck De Witt after four hours and fifing arrived at a corrupt understanding | teen minutes had elapsed since his as-

Levee gave the following description of his trip, says the New York Herald: "One of my hopes is that I may cross Albany, Feb. 24.—About 50 men and the great lakes, but that is a trip that several teams of horses engaged in ought not to be attempted except in the harvesting ice from the Hudson river summer months. I understand that the in front of this city spent an anxious | upper currents over the lakes have not quarter of an hour while a field of ice been studied, but there would be absolutely no danger during the warm months, provided, of course, one had a good balloon. It would have to be larger and heavier than the one I used on Sunday, Feb. 11, and under those conditions anybody could trust himself with an experienced aeronaut to the trip without serious danger of accident.

When he returned to New York Mr.

"For West Point as a place for ascensions I have nothing but praise, but the next time it would be better to start from the middle of the parade ground, so as to obviate all danger of striking some object when the balloon is let go. The gas with which the balloon was inflated is the best I have ever used, but another time the pressure ought to be greater and the pipe leading from the tanks to the balloon larger, so that not so much time would be lost in making ready to start. Judge Emmons of the police board said last night that the doctors' dens must go, and declared that already their business is scanty. District Attorney Moran stated that he was already to present evidence to the grand jury, just as soon as the police gather facts. He received the medical examiner's report yesterday. The document confirms the earlier supposition that Miss Russell met death at the hands of "specialists."

The people of those states would then take pride in these regiments. I think it is getting down to about the smallest post that is wise. At present the policy of the department is gradually to draw distribute them among as many states as possible. That is what we are doing now.

The expense of abandoning our pres ent garrison quarters and moving into would not pay. There is no question that, wherever we can, we should draw in these small posts, except where there is a reason for maintaining them because of special conditions. For instance, there is a station in Wyoming where we have to keep two troops of cavalry on account of the opening of a reservation and on account of the Indians there; but as soon as that is over those troops will be drawn back to the regimental posts where they belong. I think the wisest policy is to have regimental posts, with brigade camps in the summer."

Bernhardt the other afternoon engaged in a mighty snowball battle with boys of the Bellefield school at Pittsburg, says a special dispatch to the New York Press. She got what the lads call a soaker right in the eye and was generally bombarded all over, but hurled snowballs back with more determination than accuracy of aim, and for a time was the youngest of the youngsters there.

The great French actress, who stayed in the fashionable Hotel Schenley during her engagement in Pittsburg, left there before 1 o'clock in the afternoon to drive to the Belasco theater, where she played at a matinee. With her in the open carriage was Frederick Mayer, her manager. Their route led past the Bellefield school, in Fifth avenue, and several hundred pupils were just assembling for the afternoon session.

The actress, enveloped in a long squirrel skin coat, was a consplcuous figure, not to be mistaken, and one bright eyed urchin gave a yell of delight: "There's Sarah! There's Sarah!" She gave not the slightest sign of having heard this, which was too much for the snubbed lad, and he let fly a

The bowling prizes, Boston pins, were won by Mrs. Macomber, a cut glass olive dish, and Clarence E. Dow a stein.

Although the "theatricals" netted a very tidy amount, still the purpose for which the fund is to be used requires a somewhat larger sum and as frequent requests are made for a repetition of "The Lady from Brazil" it is about decided to put it on sometime in April with about the same cast. Mr. Blunt as the "fake aunt" did a really clever piece of work and we are very fortunate to get him again in that part.

## GOES TO SENATE

Hepburn Bill Is Reported Without Amendment

A RIGHT TO ACT LATER

Reservation by Democrats Concurred In by Republicans--The Rate Question Likely to Receive Early Consideration

Washington, Feb. 24 .- By a vote of 8 to 5 the senate committee on interstate commerce agreed to report the Hepburn railroad rate bill without amendment, but the resolution adopted reserved to the members of the committee freedom of action concerning amendments offered in the senate.

By a vote of 5 to 3, Republicans prevailing, Mr. Tillman was given the honor of reporting the bill. This establishes a precedent, in that a Republican senate committee has given to a Democrat control of an important measure ten thousand and ninety-three 6-10 (10,003.6 passed by a Republican house and endorsed by a Republican president. Senators Cullom and Carmack were absent and their votes were recorded only on the main proposition. The resolu-

The contest in the senate committee over the railroad rate bill is a memorable one. It was started a year ago when the Esch-Townsend bill came from the house. That measure had a hostile reception in the committee, and

The house took up the subject again application to W. E. Dewhurst, sexton, 3 Maple at the present session and passed the Place, or to the office of L. S. A ver and Clapp became its sponsors in the senate.

Before the session yesterday the result was in doubt. The division of the Republican senators on the question of judicial review of orders of the interstate commerce commission left the Democratic members in absolute con- 640, and bounded and described as follows, trol. It was apparent that if they viz: Northeasterly by Everett street, seventywould be adopted.

The minority members, after vainly trying to get together Thursday night, held a second conference yesterday morning. Objection was made to recording Cullom on any amendments that had not been submitted to estate of

Senator Dolliver then moved to report the Hepburn bill favorably as it recorded. This precipitated a lining up on the only important contention, and the Democrats desired time for further consultation. A recess was taken until 2 o'clock.

reservation provided in the resolution that was finally adopted. They did not said insist upon this freedom of action being made a part of the resolution, however.

When the committee reassembled Dolliver called for a vote on his motion. Foster said that he was ready to vote for it, but made the statement that he should reserve the right to vote for amendments in the senate if he chose. That was the position taken by Mc-

mmittee. As soon as the result was the fore known speculation began as to the Boston, February 9, A. D. 1906. procedure on the floor. It was predicted that there would be delays and all sorts of obstructive tactics used. This was contradicted, however, by leading senators not members of the interstate commerce committee. They said they thought the prominence given the railroad rate question, and the interest the people of the whole United States have taken in it, entitled the question to early consideration. It was agreed, however, on all sides that the discussion must be prolonged and that undoubtedly it will be as bitter as any that has ever taken place in the senate. All factions conceding the Hepburn bill will pass the senate, the only contest will be over an effort to incorporate into the bill some provision for court review of orders of the interstate commerce com-

## HOSPITAL

(Legal Title: City Hospital of Quincy) INCORPORATED 1889

The Trustees of the City Hospital of Quincy estly appeal for donations and bequests for the E dowment fund. This now amounts to over \$60,00 but a fund of at least \$100,000 is urgently needed. Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

Young Men's Christian Association OF QUINCY, MASS.

(Legal Title - Incorporated 1892.)

The Directors of the Young Men's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage in debtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, William F. Cummings, 7 Clive Street, Quincy, or the General Secretary, Ernest G. Gav, will be happy to answer inquiries. E. M. FREFMAN.

## SITUATION IN CHINA

Minister Rockhill Sees No Cause For Apprehension

Washington, Feb. 24.-The secretary of state has received a telegram from Mr. Rockhill, minister to China, stating that he and his colleagues see no cause for undue apprehension concerning the situation in China. While they, consider caution and watchfulness always necessary, they believe the published reports of uneasiness to be without cause. Missionary troubles are not more frequent than usual, it is said, and are due, as was the Shanghai riot, to local causes

Mr. Rockhill says the Chinese government appreciates the importance of preventing hostility towards foreigners; that it has recently been cautioned by Japan in this respect and has declared its determination to ensure their safety under all circumstances. The dispatch adds that while the boycott may continue, with local friction, nothing more serious is anticipated by those on the ground. A pronounced general feeling of determination is noted on the part of the Chinese to secure complete economic exploitations of their empire.

Catholics In State of Siege

Pekin, Feb. 24.—In parts of theinterior, where there are Catholle missions, strong Boxer organizations have been maintained since 1900 and the Catholics in the villages have Mved almost in a state of siege, their houses being fortified and the inhabitants armed and constantly prepared to resist attack. A dispatch says that the Benevolent and Righteous society at Chow Kiakou has been drilling for months in anticipation of a proposed rising on

House is For Investigation

Washington, Feb. 24.-The house agreed without opposition to the Tillman-Gillespie resolution directing the interstate commerce commission to make an immediate inquiry and report regarding alleged restrictions of trade on the part of certain railroads in the handling of coal and oil.

The resolution was not in the form in which it passed the senate and will go back to that body for its second action. The debate consisted of a success sion of speeches in deunuciation of alleged practices and an endorsement of the proposed investigation.

Gives Japanese a Bad Name San Francisco, Feb. 24.-Arch-

Deacon Jeffries, an Episcopalian, who has just returned from the Orient, says that the Koreans are greatly oppressed by the Japanese. "When a Korean obects to the confiscation of his property. Jeffries says, "he is falsely charged with being a spy, and is probably shot or hanged the same day." Jeffries says that it is no uncommon sight to see even women suspended by the neck in one of the streets of a Korean city.

Middy Kimbrough Resigns

Washington, Feb. 24.—Secretary Bonaparte has accepted the resignation of Jerdon P. Kimbrough of the naval academy. The hazing of Kimbrough was the cause of the investigation of the affairs at the naval academy with the resulting courts martial and the dismissal from the naval service of a number of midshipmen. His separation from the service is because he has been found deficient in the mid-year ex-

A Phi adelphia Mystery Philadelphia, Feb. 24.—Late last night two men drove to Michael Hastings' home in a wagon, laid his body on the sidewalk and informed his wife that he was drunk. He did it by keeping a day to get your feet on the tables up everything up; not a sleeper, not a in Bucks' office and smoke Callahan's spike-nothing got away from him.

The new president, as befitted a very big man, was no end of a swell and, received Hailey with a considerate dignity unknown on our end. He listened carefully to the superintendent's statement of the necessities at the Big Sandy river. The amount looked large, but the argument, supported by a mass of statistics, was convincing. Three bridges in ten years, and the California and an occasional stray dispatcher. fast freight business lost twice. Hailey's budget called, too, for a new bridge at the Peace river-and a good one. Give him these, he said in effect, and he would guarantee the worst stretch on the system for a lifetime against tie-up disasters. Hailey stayed over to await the decision, but he was always in a hurry, and he haunted the general offices until the president told him he could have the money. To Hailey this meant, particularly, the bridge of his dreams. The wire flashed the word to the West End. Everybody at the Wickiup was glad, but Ed Peeto burned red fire, and his little dog Sport ate rattlesnakes.

The old shack of a depot building that served as division headquarters at Medicine Bend we called the Wickiup. Everybody in it was crowded for room, and Hailey, whose share was what was left, had hard work to keep out of the wastebasket. But right away now it was different. Two extra offices were now assigned to Hailey, and he took his place with those who sported windows and cuspidors-in a word, had signed as section boss and took a place at smaller wages in the bridge carpen ter's gang so he could work on the hov's bridge and Ed Peeto savage

"The mountain and the intermountain divisions are hereby consolidated under the name of the mountain division, with J. F. Bucks as superintendent, headquarters at Medicine Bend. C. T. Callahan is appointed assistant superintendent of the new division."

"Good boy!" roared Ed Peeto, straining his ears.

## The Braintree Pine Tree Club

The monthly meeting of the Pine Tree State club of Braintree was held Tuesday evening at the commodius Elm street. Mr. Drinkwater had been appointed chairman of a committee for this meeting so when it was announced that Col. and Mrs. Drinkwater would have the meeting at their home every member desired to be present, for they knew that a good time was in store.

President Will W. Mayhew called the meeting to order and in the following Mrs. Drinkwater with a cut glass loving cup, the gift of club members:

Col. and Mrs. Drinkwater you have always been loyal to the Pine Tree club. KEITH'S THEATRE.

Harry Houdini, the world-famous "king of the handcuffs," and the most sensational entertainer in the varieties, is to head a great show In case of mourning, Clothes Dyed at Keith's for the week of Feb. 26. Recognized Fast Black and finished in from 3 to 5 as one of the greatest drawing cards in the world, Mr. Hondini scarcely needs introduction to theatregoers hereabouts. His line of work consists in escaping from all sorts of handcuffs, straitjackets and manacles, and he challenges verybody to bring in any make of handcuffs ad see if they can score the first failure to be ecorded against him. Sensational is a mild word when applied to this remarkable entertainer, for he has escaped from some of the leading and most famous prisons of Europe and no cell of any jails of this country has succeeded n keeping him in. He has mystified the police and officials of Russia, Germany, France and The surrounding show is in keeping with the principal attraction containing many new entertainers. The chief of police and other officials were telephoned Saturday to report to the palace and the display of force immediately followed their conference. Possibly the only cause is the alarm of the empress dowager over the prevalence of revolutionary rumors recently.

The Chinese minister at Tokio a few days ago telegraphed the government, warning it against several revolutionary students who were departing from Japan for China. Two packages of dynamite have been found in the street outside the gate leading to the palace. Apparently they were dropped by some one afraid to carry them. One report finding credence is that there is a quarrel afoot within the palace between the partisans of the empress dowager and the emperor over the selection of an heir to the throne, but it is not con-

## AN ERA OF PEACE

Producers of Coal and Mine Workers Will Get Together

AN ADVANCE IN WAGES

May Amount to More Than the Reduction Two Years Ago --Prosperity In Iron and Steel Industries a Factor

Indianapolis, Ind., Feb. 26.-In a statement issued last night, Vice President Lewis of the United Mine Workers of America said: "There will be no general strike in

the mining industry April 1. The operators will restore the reduction accepted by the miners two years ago and perhaps more. Mr. F. L. Robbins of Pennsylvania and Mr. Taylor of Illinois, leaders of the operators, recognize their untenable position at Indianapolis and have gracefully submitted to the inevitable and will grant an advance to the miners. A general strike will be averted. An era of peace will be established for another period of years and the trade agreement method of settling labor disputes will win new trades to its standard. The details will be worked out later and probably through a special national convention of the mine workers.

"For two years it has been my determined purpose to have all wage agreements of the miners terminate on the same date, so that unity of action might be secured without violating existing agreements on April 1, 1906. The first move in this direction was made contract was extended from the end of August to the end of March this year. Practically all of our agreements expire March 31 next.

SHOT AT "APPARITION

Strange Theory of Police In Case of Man Burned to Death

Exeter, N. H., Feb. 26 .- The body of Chase W. Thurston, an unmarried man, aged 42, was found in his lonely home on South street. The upper portion of the body was badly burned, the woodwork of the room was charred and an empty revolver lay on the floor beside the body. The medical examiner decided that burns caused the man's death, but left to the authorities the investigation of the cause of the fire and the presence of the revolver.

The theory of the police is that Thurston awoke with some sort of an apparition on his mind and, securing the revolver, he fired the five shots which lodged in the wall. It is thought that his clothing caught fire from the discharge, and that he was unable to extinguish the flames before he was over-

We are not parties to the e Pope's Hill. other more commonly cited general act of the Congo (signed at Berlin on Feb. 26, 1885).

"Our treaty relation to the Congo state is that of one sovereign to another, wholly independent of any relations created by or deducible from the general act of Berlin, which applies only to its signatories. It is questionable whether the treaty rights of the signatories extend to intervention by any one or more of them in the internal affairs of any of them. The Congostate absolutely denies any right on their part to intervene in its affairs, and none of the other signatories appears state is that of one sovereign to annone of the other signatories appears

to controvert that denial. "However this may be, it is certain that the United States has no treaty right of intervention. We could not rightfully summon or participate in any ternational conference looking to intervention, adjudication, or enforce ment of a general accord by other for-

eign powers against the Congo state.

"Moreover, we are without opportunity or power to investigate conditions in the Congo. We have no diplomatic or consular representatives in that country. We could not send anyone there except with the consent of the government of the Congo-to do otherwise would be an invasion of its sovmade investigations through their authorized representatives, and the Congo government also has sent investigating commissions. The information we have on the subject of Congo misrule comes at second hand through opposed chan-

nels. "Whenever complaint has been made by American interests in the Congo that the administrative conditions there impair American rights or endanger American establishments the matter has been brought promptly and forcibly before the Congo government and has been met with due assurance of investigation and, if substantiated, full redress. In taking this course we act within our sovereign rights, directly and without subordinating them to the judgment of any third parties. So far as we have rights of our own in the Congo, it would be impossible to submit them to an international conference. "I most sincerely wish that some way

could be found by which the whole of Central Africa could be rightfully administered by the several powers ruling or exercising a controlling influence therein, so as to realize the intention of those powers when they framed the general act of the Congo. > New York, Feb. 26 .- John F. Wallace canal, has contributed an article to the March number of "The Engineering Magazine," recounting his observations and experiences during the year in which he was in charge of the construc tion work in the canal zone. In this article Wallace declares it to be his belief that "it will require more time and money to construct a high level canal on the 85-foot plan, under the present method of government control, than it will to construct a sea level canal provided the work is accomplished by modern efficient business methods." The article says in part:

A man may hide himself from you or misrepresent himself to you every other way, but he cannot in his work. There be sure you have him to the utmost, all that he likes, all that he sees, all that he can do-his imagination, his affection, his perserverance, his impatience, clumsiness, cleverness, everything is there. If the work is a cobweb you know it was made by a spider, if a honeycomb by a bee, a wormcast is thrown up by a worm and a nest wreathed by a bird, and a house is and ignobly if he is ignoble. > Animals' Play Is Exercise. The relaxed rhythmical movements so common among animals at play, the gamboling of lambs, the play of kittens and many similar animal activities, are imitated by man in the primitive

dances which form so large a part in the social and religious life of all aboriginal peoples. These motions of leaping, swinging, swaying and twisting of the body have, all of them, a most intimate and powerful influence upon the body's activities, organic and muscular. Rolling is a form of exercise which is a favorite with many animals and is especially practiced for the purpose of relieving fatigue. Rolling is peculiarly enjoyable and grateful to the animal because it provides not only relief for the tensed muscles, the depleted organs and the slow moving circulation, but because as the animal rolls the firm pressure of the ground

Hearses After Night.

upon his body constitutes a most ef-

fective and agreeable massage.

There is one kind of vehicle that neither the oldest nor the youngest inhabitant has seen on the street at night, or, if he has seen it at all, only infrequently. That is a hearse. Every other kind of conveyance used by modern man is driven about the streets freely after nightfall-the hearse alone comes under the curfew law. Early hours seem to be imposed upon that somber carriage by common consent. The public doesn't like to see it after dark, and coachmen don't like to drive it. No doubt there are hearses that are com pelled by the exigencies of funeral arrangements to come home at unseasonable hours, but when forced to an infringement of the unwritten law they proceed through quiet streets where they will be least likely to wound the sensibilities of the superstitious.-New York Herald.

"Dew Ponds." Among the most singular archaeological remains found in Great Britain are the ancient "dew ponds," the construc tion of which is ascribed to people of the Neolithic age. The purpose of these ponds was to furnish drinking water for cattle. An exposed position, vhere springs were absent, was selected, and a broad, hollowed surface was formed and covered over with straw or some other nonconducting material. Above was spread a thick layer of clay strewn with stones. During the night the cold surface of the clay caused an abundance of moisture to condense from the lower layers of the air. Some of these ancient dew ponds are still in working order.

#### Mixed Feelings.

The little girl who, after a drink of soda, declared that her nose felt as if her foot was asleep has evidently grown up and retained her happy power of expression, for evidently the young lady mentioned in Punch is the same person who drank bubbles wher she was small.

The young woman was traveling in a coach as an elderly and somewhat sour looking man, in trying to open the window, pinched his finger nail severely. "Oh!" exclaimed the lady sympathetically. "How horrid! I always think anything wrong with one's nails sets one's teeth on edge all down one's

Atmosphere.

There is a wide difference of opinion among the learned men of the world as to what would be the effect of wholly removing the atmosphere. Some think that if it were possible to live afterward all the stars, planets, etc., would be visible in broad daylight. Others declare that there would be no day and that the sun itself could not be seen under such conditions.

# Estimates In Excess Of Limit

Mayor Thompson Wants About \$12,000 Additional for Current Expenses

The Mayor and City Treasurer submitted to the City Council last evening of the Visiting Nurse's salary, in which beir estimates for the annual appropriations for 1906. The total for current expenses is \$212,437.00 against estimates of \$200,453 last year. The School committee have already asked for \$124,596.68, against \$112,500.00 in the order last year. So that the total estimates to be provided within the \$12 limit (which yields with receipts about \$330,000) is \$337,033.68.

In the Mayor's budget there are 53 items, which may be summed up as

Pippa Passes

> Brownings Poem is Artistically Rendered

The spacious parlors at the home of Judge Bumpus, Presidents hill, were filled Monday evening with representative society people of the city, gathered to enjoy a musical rendering of Browning's poem "Pippa Passes," The entertainment was arranged by Mrs. Bumpus, and was given for the benefit she as president of the Quincy Women's club is much interested.

As the guests arrived they were received at the door by Mrs. Wilson Marsh, who made a charming Italian peasant lass. The ushers were also in the bright costumes, which make Italy so attractive to tourists.

The program opened with a violin solo by Miss Adelaide Thomas of Norfolk Down; Mr. Dowley Williams at the piano. Miss Thomas is a fine violinist whose playing is always en-

Mrs. Herbert J. Gurney of Wollaston, n a magnificent 13th century costume was a most attractive grand dame. Before reading the poem she gave a synopsis of the story, describing Pippa, the little Italian girl working hard all the year round in a silk factory; her awakening on New Year's merning, her only holiday in all the year, and, thinking how she was to enjoy the day, imagining herself to be four of the happiest persons she knew. As she passes along through the city she sings and enjoys herself. The four people whom she thought the happiest hear her songs and to each, her sweet, innocent voice their thoughts to better things.

As Mrs. Gurney reads, the songs are interpreted by Miss Phoebe Bedloe. with her dark hair, rich coloring, and picturesque costume. Her mother, Mrs. he songs also had a 'cello accompaniment by Mr. Austin, which added much

to the pleasure of the listeners. Estimates Appropriations The program closed with violin solos by Miss Thomas which were heartily encored.

It was a most artistic program throughout. Mrs. Gurney's intonation and interpretation was perfect. As she read one had to succumb to the charms of Browning. Miss Bedloe was fine; her voice rich and full. The only regret was that the piece did not call for more songs that one might hear her oftener.

## MENAGE TO PEAGE

Roosevelt Deplores Failure of Soft Coal Convention

A LETTER TO MITCHELL

Advises Further Effort to Reach an Agreement as to Wages .-Miners Will Hold New Convention as a Result

New York, Feb. 27.-President Roosevelt has again intervened as a peacemaker between the coal miners and operators, and as the result of a letter addressed by him to John Mitchell, president of the United Mine Workers of America, a national convention of the United Mine Workers will be held March 15 to try to reach an agreement with the soft coal operators in the hope of averting the threatened strike of April 1 in the bituminous coal fields. The convention will be held at Indianapolis.

The president's letter and the announcement that the national convention would be called were made public last night by Mitchell after a long con-ference with President Robbins of the Pittsburg Coal company and chairman of the bituminous operators, who came to New York yesterday, and other representatives of the soft coal interests. The president's letter to Mitchell fol-

"Sir: I note with very great concern the failure in your late convention on the joint interstate agreement to come to a basis of settlement of the bitumi-nous mining scale of wages. You in nous mining scale of wages. You in this business have enjoyed a great industrial peace for many years, thanks to the joint trade agreement that has resulted in the action of your successive conventions.

"A strike such as is threatened on April 1 is a menace to the peace and general welfare of the country. I urge you to make a further effort to avoid such a calamity

"You and Mr. Robbins are joint chairmen of the trade agreement committee of the National Civic Federation The Pine Tree State Association will and it seems to me that this imposes additional duty upon you both and gives an additional reason why each of you should join in making a further effort."

The conference adjourned last night, when Mitchell announced that, after the reading of President Roosevelt's letter, it was agreed both by himself The Mission Study Club will give an and the operators that the national conentertainmentat at the Wollaston Con- vention should be called. The miners but failed to reach an agreement with the operators. Mitchell himself has been quoted as saying that so far as he knew there would certainly be a strike in the bituminous fields April 1.

The negotiations for an agreement between the hard coal workers and the anthracite operators have been progressing smoothly to all outward appearances, and arrangements have been made for a joint conference Wed gation had presented a pulpit robe. He | ing the settlement of the difficulties in

## HEAD GRIMINALS

Not Exposed by the Insurance Probers, Says Lawson

Through the Instrumentality of Large Corporations -- Sees Opportunity to Send Rich Men to Prison and Makes Suggestions

Boston, Feb. 27 .- In a series of communications issued last night Thomas it to disappear and reappear, which, he | W. Lawson, who has been active in securing proxies from policyholders in the great life insurance companies, states that he is ready and willing to do all in more the "ghost" appeared. St. Pierre his power to aid in the passage of the said he was still somewhat sceptical, so laws recommended by the Armstrong he asked the "ghost" to tell him who investigating committee. Lawson issued three letters, one addressed to the Armstrong investigating committee, another to the so-called committee of panied him. This convinced St. Pierre governors, to whom he has turned over all insurance proxies that he has thus far secured, and a third to the policy holders themselves.

In a communication to the Armstrong investigating committee, Lawson says in part: "At an expense of hundreds of thou-

sands of dollars, I have collected sufficient proxies from policyholders to give me (up to the present time) control at the coming election of both the New York and Mutual companies. I have turned these over to a committee composed of governors of states and equally representative public men. My reason for collecting such proxies: I had reason to believe the policyholders plundered of from \$175,000,000 to \$250,vided these companies are placed in the that if these companies are placed in the hands of such men, some of the richest and best known men in the country who have systematically plundered the people for a quarter of a century past, will be sent to state prison for long terms.

"I also believe that, in the trial for Annie Russell, the latest victim of the the recovery of the moneys looted from these companies and the punishment named the man and the doctor in the but which will show how and by whom case and bared the whole affair. The the people have been robbed of overa billion dollars during the last 25 years, trust companies, railroads and other

large corporations." Mr. Lawson informs the investigat ing committee that he has closely followed its entire work. "While I know it has accomplished much," continues Lawson, "I also know from percriminals responsible for the evil oss, in whole or in part, of the funds which have in the past years been grafted from them, unless their com panies are taken out of the hands of the men who have either looted them or

stood by while they were being looted.' Mr. Lawson adds that if the companies are turned over to "such honest, fearless men as the governors' committee will nominate for directors and trustees" all necessary reforms will follow.

In a letter to the governors' com mittee, Lawson advises it to assure the New York legislature that the committee approves of the new election law proposed by the Armstrong committee He urges the governors' committee to do all in its power to assist in the passage of the law. Lawson advises the governors' committee, in the event of the passage of the proposed law, to nominate a board of trustees "as near ideal in its composition as your honesty,

fearlessness and ability can formulate.' He also suggests that the governors' committee send to each policyholder. with the committee's nominations, the reasons why the policyholders should vote for the committee ticket. Lawson says he will attend the legislative hear ings at Albany.

In a third communication, addressed to the policyholders of the New York and Mutual Life companies who have sent him their proxies, Lawson explains the situation and urges them to do all in their power to aid in the passage of the law in regard to the conduct of the annual election. "The most effective work you can do," said Lawson, "is to cause your governors, state commissioners and different committees to serve notice upon the New York and Mutual that if they oppose the passage of the law they will be debarred from doing business in your state."

Mr. Lawson also criticises the pres ent management of the companies named. He charges that policies to new people are being issued without the payment of anything of value to the companies other than the proxies. Edward Trainor, 63 years old, was Lawson also speaks of "a secret confound dead in a field on his farm. ## The City In Brief

Another meeting of the City Council will be held next Monday evening.

The Sealer of Weights and Measures advertises office hours at City Hall. There is to be a musicale tonight in

the parish house of Christ church. The Charitable Ten, King's Daughters, will meet with Mrs. Frank Davis, Elm street, this evening.

Maple street promises to become at business street soon after being extended and rebuilt.

Mr. and Mrs. Charles Snow have moved from Sargents lane to Mechanic street, Quincy.

Mr. and Mrs. Thomas Skinner and family have moved into the house just vacated by the Snows at Quincy Neck.

Rural lodge has a large number of candidates and will hold special communications in March.

Many people in the Point district are complaining of having the hen-houses robbed of both hens and eggs.

Friends of Mr. L. Steele are glad to learn that he is fast recovering from

his recent illness. "Milly," little daughter of ex-Councilman Chas. Hadlock of Webster

street, is ill with tonsilitis. League polo tonight at the Coliseum and a championship race tomorrow night.

Quincy now has a late night car from Boston, leaving the Dudley street station at 12.07 and leaving Neponset at and fina 12.37, arriving in Quincy at 12.55 A. M.

The funeral of John F. Leonard was held this morning from the church of the Sacred Heart at Atlantic. Mass was celebrated by Rev. John P. Cuffe.

Arrest of Texan Who Came North to Testify For Patrick New York, Feb. 27 .- The arrest of one of the witnesses brought here from Texas to testify in behalf of Albert T. Patrick, now in Sing Sing prison condemned to death for the murder of W. M. Rice, marked the climax of Mon-6,500.00 day's hearing before Recorder Goff on the motion for a new trial of the now famous case. Joseph Jordan was taken into custody as the hearing was about to be adjourned for the day. He 22,300.00 is charged with perjury and the com-150.00 plaint is signed by District Attorney Je-

Jordan had testified in behalf of Patrick and was questioned by Jerome as to whether he had ever been confined in the Texas penitentiary. He declared he had never been in prison. The arrest followed the testimony of W. G. 7,000.00 Murray, an ex-guard at the penitentiary in Huntsville, Tex., who identified 1,000.00 Jordan as a one-time prisoner in his charge. Jerome then applied to Recorder Goff for an order for Jordan's

Counsel for Patrick objected to such a proceeding at this stage of the case, saying it would militate against the interests of their client. The recorder advised Jerome to apply to a police 200.00 magistrate. Jordan was taken to po 3,300.00 lice headquarters.

Won't Remain in Witte's Cabinet St. Petersburg, Feb. 27.—The efforts to retain in the cabinet M. Timiriazeff, 3,000.00 minister of commerce, who tendered his resignation on Feb. 19, have come to naught. Timiriazeff has refused to abate one iota of his conditions, which included the abandonment of the gov 9,000.00 ernment of extreme repressive meas ures and assurances that Minister of the Interior Durnovo should not be permitted to interfere with the execution of Timiriazeff's industrial program by wholesale arrests of workmen. To 3,300.00 these conditions, which practically demanded the retirement of Durnovo 300.00 Premier Witte was unable to assent.

Mayor's Overtures Fruitiess Boston, Feb. 27 .- Just prior to the regular meeting of the board of aldermen yesterday Mayor Fitzgerald made an unsuccessful attempt to induce the members to unite on a chairman, the board having been unable to agree since it was inaugurated on Jan. 1. At a conference in the mayor's office it is lowest prices. said that the mayor offered a six months' term as chairman to two different Republican members with the understanding that they should later retire in favor of a Democrat. When a 1,520.00 ballot was taken at the board's meet 12,000.00 ing no result was reached.

Told of Twenty-Six Murders Bolse, Ida., Feb. 27.-Governor Gooding has issued the following statement with respect to the assassination of former Governor Steunenberg: "Harry Orchard has made a full confession as to the manner and motive of the assassination of former Governor Steunen berg. He told the story of 26 murders, the results of conspiracies, in which al 17,300.00 the accused parties were interested. When this story is given to the public I believe it will be the greatest narra-

tive of crime the world knows.' Revenue Officer's Great Seizure Toledo, Feb. 27 .- W. H. H. Bowen, nternal revenue agent for Ohio, Indiana and Michigan, with a party of deputies, confiscated 1530 pounds of colored oleomargarine here last night and caused the arrest of George Smith, who conducted a branch of the Detroi store run by Alonzo L. Hart, who was arrested there by Bowen Saturday The goods seized here came from the Detroit house.

Ladd was taken to a hospital as the result of in- EVER READY FOR WAR juries, presumably in connection with the shooting of Davis.

Dean was taken to Dayton after a hurried conference of officials. A mob formed last night and marched to "The Jungles," a locality inhabited by negroes, and battered one house to pieces with stones and posts.

The mob entered Kempler's saloon on East Columbia street and quickly ooted it. Kempler and his wife fled, leaving their three children asleep in a room over the saloon. The building was riddled with bullets and stones, and it was only by the hardest efforts of police and firemen that a way was forced through the mob and the children rescued. After the pillaging of the saloon drunkenness was an added feature of the riot.

At 11 o'clock members of the mob broke through a cordon of police and set fire to a house in "The Jungles," which was quickly burned down. Sergeant of Police Creager was hit on the head with a brick and seriously injured.

The city authorities succeeded at 12:15 o'clock in assembling parts of two companies of the Third regiment, O. N. G., which are stationed here. The total force numbers about 75 men. ## TOGO'S ADRESS

Set as a Standard For Our Military Establishment

Strength Consists in Material Ability to Utilize Ships and Armament, Which Can Only Be Gained by Habitual Training

Washington, Feb. 28.-President Roosevelt has addressed to the secretary of war, who has promulgated the same in a general order, a letter reciting the achievements of the Japanese Admiral Togo, during the late war between Japan and Russla, and repeating for the benefit of American soldiers and sailors the address issued by that admiral upon the conclusion of the war. The point of the president's letter is the necessity of keeping the personnel of the army and navy at the highest pitch in time of peace in order to be prepared

The president's letter says that in the recent war in the East, Admiral Togo took his place among the great sea fighters of all time. "His message to the united squadron which he commanded on the occasion of its dismissal at the close of the war is so noteworthy," says the president, "that I deem it proper to have it inserted in a general order of the department." The portion of the address of Admiral Togo noted by the president follows:

"The war of 20 months' duration is now a thing of the past, and our united squadron, having completed its func tions, is to be herewith dispersed. But our duties as naval men are not at all lightened for that reason. To preserve in perpetuity the fruits of this war, to promote to an ever greater height of prosperity the fortunes of the country, the navy, which, irrespective of peace or war, has to stand between the empire and shocks from abroad, must always maintain its strength at sea and must be prepared to meet any emergency.

"This strength does not consist solely in ships and armament; it consists also in material ability to utilize such agents. When we understand that one gun scoring 100 percent of hits is a match for 100 of the enemies' guns each of which scores only 1 percent, it becomes evident that we sailors must have recourse before everything to the strength which is over and above ex-

"The triumphs recently won by our navy are largely to be attributed to the habitual training which enabled us to garner the fruits of the fighting. If, then, we infer the future from the past, we recognize that, though war may cease, we cannot abandon ourselves to ease and rest. A soldier's whole life is one continuous and unceasing battle and there is no reason why his responsiaccumulate it, thus perpetually and uniquely discharging his duties to the

"If men calling themselves sailors grasp at the pleasures of peace, they will learn the lesson that, however fine in appearance their engines of war, these, like a house built on sand, will fall at the first approach of the storm When in ancient times we conquered Korea that country remained over 400 years under our control, only to be lost immediately so soon as our navy de clined. Again, when under the sway of the Tokugawa in modern days our armaments were neglected, the coming of a few American ships threw us into distress. On the other hand, the British navy, which won the battles of the Nile and of Trafalgar, not only made England as secure as a great mountain, but also, by henceforth carefully maintaining its strength and keeping it on a level with the world's progress, has safeguarded that country's interests and

promoted its fortunes. "For such lessons, whether ancient or modern, occidental or Oriental, though to some extent they are the outcome of political happenings, must be regarded as in the main the natural result whether the soldier remembers war in the day of peace. We naval men who have survived the war must plan future

developments and seek not to fall behind the progress of the times. If, keeping the instructions of our sovereign ever graven on our hearts, we serve earnestly and diligently and, putting forth our full strength, await what the hour may bring forth, we shall then have discharged our great duty of perpetually guarding our country."

The president's letter concludes as follows: "I commend the above address to every man who is or may be a part of the fighting force of the United States and to every man who believes that, if ever, unhappily, war should come, it should be so conducted as to reflect credit upon the American nation."

## Why Run the Hazard

of accepting personal security upon a bond, when corporate security is vastly superior?

The personal surety may be financially strong to-day and insolvent to-morrow; or he may die, and his estate be immediately distributed. In any event, recovery is dilatory and uncertain.

Because of its greater stability, the United States Government prefers Corporate Suretyship; and many firms require it of their bonded employees.

The American Surety Comany, capitalized at \$2,500,000, is the strongest Surety Company in existence, and the only one whose sole business is to furnish Suretyship Bonds. Apply to

## HOSPITAL

(Legal Title: City Hospital of Quincy) **INCORPORATED 1889** 

The Trustees of the City Hospital of Quincy earn-eatly appeal for donations and bequests for the En-dowment fund. This now amounts to over \$60,000, but a fund of at least \$100,000 is urgently needed. Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

The Secretary, Timothy Reed, Adams St., Zulncy, or the Treasurer, Richard D. Chase, Savings Bank Building, Quincy, will be very glad a confer with any one or to answer any inquiries.

### Young Men's Christian Association OF QUINCY, MASS.

(Legal Title - Incorporated 1892.)

The Directors of the Young Man's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor. The Treasurer, William F. Cummings, 7 Clive Street, Quincy, or the General Secretary, Ernest G. Gay, will be happy to answer inquiries.

RATE REGULATION

No Menace to Industrial Health of New England

Boston, Feb. 28.-In an address de livered before the Massachusetts State Board of Trade, meeting in special session at the Hotel Vendome, Charles A. Prouty of the interstate commerce commission gave an important detailed statement of the probable effect of railroad rate legislation on New England.

Without advocating any particular measures or methods, he sought to combat the general feeling that the endowment of the interstate commerce commission with the contemplated new powers will be a detriment to the industrial health and progress of the New England states; and by the use of examples drawn from actual railroad con ditions in this territory at the present time, undertook to make clear that the district needs rate regulation not se much for protection against its own railroads as for defense against the rail roads operating exclusively without its

Edgar J. Rich of the legal department of the Boston and Maine railroad was the other principal speaker of the occasion. His address voiced the attitude toward the rate question of the railroad interests of this section.

Valentina Case In Supreme Court Washington, Feb. 28.-The supreme ourt heard arguments in the case of Anna Valentina, convicted in New Jersey of the murder of another Italian woman. The case was brought to the supreme court on the ground that the defendant was to be deprived of life without due process of law because she did not understand the English language and did not know what her counsel or the court said to the jury.

Cromwell Evades Questions Washington, Feb. 28.-William N Cromwell and Senator Morgan measured legal minds all day before the sen-

ate committee on interoceanic canals and in a drawn battle adjourned until today. Cromwell drew a line between his actions since the transfer of the canal property to the United States and before the transfer, and declined positively to answer any questions concerning the earlier period.

Jerome Gets Insurance Reports New York, Feb. 28.-District At orney Jerome has received from the state insurance department original reports made by the Equitable Life Assurance society and the Mutual and New York Life companies to the insurince department. The reports were packed in a specially constructed fireroof box, which was also made impervious to water and bore several different locks.

Some In Interior Cities Are Not Yet Accounied For--Orders Being Awaited For Sailing of Transports From Manila

Shanghai, Feb. 28.-With British French and United States warships and gunboats rushing to the scene of the riot and massacre at Nanchang and to Kiuklang, it is believed here in official circles that the great powers of the earth will invade Chinese ports and take possession as a precautionary measure to prevent the general uprising Athletic Association, and can be rented for which it is now admitted appears inevi table, and as punishment for outrages.

It is considered not only possible but very likely that before now other out rages have been committed in inland towns and cities, but the slowness of mmunication and the secretiveness o the Chines has made it impossible to secure definite information.

Several missionaries in Klangse district are unaccounted for, though word was sent them by messenger that it was advisable that they at once return to treaty ports ready for flight by water in case of trouble.

Sir Ernest Satow, the British consul has ordered a British gunboat now at Kiukiang to proceed at once to the scene of the riot and to protect English property and rescue any missionaries who may be in difficulties.
